## PREFACE

This Code constitutes a recodification of the general and permanent ordinances of the Town of Chincoteague, Virginia.

Source materials used in the preparation of the Code were the 1977 Code and ordinances subsequently adopted by the town council. The source of each section is included in the history note appearing in parentheses at the end thereof. The absence of such a note indicates that the section is new and was adopted for the first time with the adoption of the Code. By use of the comparative tables appearing in the back of this Code, the reader can locate any section of the 1977 Code and any subsequent ordinance included herein.

The chapters of the Code have been conveniently arranged in alphabetical order, and the various sections within each chapter have been catchlined to facilitate usage. Notes which tie related sections of the Code together and which refer to relevant state law have been included. A table listing the state law citations and setting forth their location within the Code is included at the back of this Code.

### *Chapter and Section Numbering System*

The chapter and section numbering system used in this Code is the same system used in many state and local government codes. Each section number consists of two parts separated by a dash. The figure before the dash refers to the chapter number, and the figure after the dash refers to the position of the section within the chapter. Thus, the second section of chapter 1 is numbered 1-2, and the first section of chapter 6 is 6-1. Under this system, each section is identified with its chapter, and at the same time new sections can be inserted in their proper place by using the decimal system for amendments. For example, if new material consisting of one section that would logically come between sections 6-1 and 6-2 is desired to be added, such new section would be numbered 6-1.5. New articles and new divisions may be included in the same way or, in the case of articles, may be placed at the end of the chapter embracing the subject, and, in the case of divisions, may be placed at the end of the article embracing the subject. The next successive number shall be assigned to the new article or division. New chapters may be included by using one of the reserved chapter numbers. Care should be taken that the alphabetical arrangement of chapters is maintained when including new chapters.

### *Page Numbering System*

The page numbering system used in this Code is a prefix system. The letters to the left of the colon are an abbreviation which represents a certain portion of the volume. The number to the right of the colon represents the number of the page in that portion. In the case of a chapter of the Code, the number to the left of the colon indicates the number of the chapter. In the case of an appendix to the Code, the letter immediately to the left of the colon indicates the letter of the appendix. The following are typical parts of codes of ordinances, which may or may not appear in this Code at this time, and their corresponding prefixes:

CHARTER COMPARATIVE TABLE	CHTCT:1
CODE	CD1:1
CODE APPENDI	CDA:1
STATE LAW REFERENCE TABLE	SLT:1
CHARTER INDEX	CHTi:1
CODE INDEX	CDi:1

### *Indexes*

The indexes have been prepared with the greatest of care. Each particular item has been placed under several headings, some of which are couched in lay phraseology, others in legal terminology, and still others in language generally used by local government officials and employees. There are numerous cross references within the indexes themselves which stand as guideposts to direct the user to the particular item in which the user is interested.

### *Looseleaf Supplements*

A special feature of this publication is the looseleaf system of binding and supplemental servicing of the publication. With this system, the publication will be kept up-to-date. Subsequent amendatory legislation will be properly edited, and the affected page or pages will be reprinted. These new pages will be distributed, with instructions for the manner of inserting the new pages and deleting the obsolete pages.

Keeping this publication up-to-date at all times will depend largely upon the holder of the publication. As revised pages are received, it will then become the responsibility of the holder to have the amendments inserted according to the attached instructions. It is strongly recommended by the publisher that all such amendments be inserted immediately upon receipt to avoid misplacing them and, in addition, that all deleted pages be saved and filed for historical reference purposes.

### *Acknowledgments*

This publication was under the direct supervision of Milton E. Lefkoff, Senior Code Attorney, and Jody Wilson, Editor, of the Municipal Code Corporation, Tallahassee, Florida. Credit is gratefully given to the other members of the publisher's staff for their sincere interest and able assistance throughout the project.

The publisher is most grateful to Mr. Jon C. Poulson, Town Attorney, and Ms. Karen Hipple, Administrative Assistant, for their cooperation and assistance during the progress of the work on this publication. It is hoped that their efforts and those of

the publisher have resulted in a Code of Ordinances which will make the active law of the town readily accessible to all citizens and which will be a valuable tool in the day-to-day administration of the town's affairs.

Section 1. The Code entitled “The Code of the Town of Chincoteague, Virginia,” consisting of chapters 1 through 70, each inclusive, and appendixes A and B, is adopted.

Section 2. All ordinances of a general and permanent nature enacted on or before May 16, 2002 and not included in the Code or recognized and continued in force by reference therein, are repealed.

Section 3. The repeal provided for in Section 2 hereof shall not be construed to revive any ordinance or part thereof that has been repealed by a subsequent ordinance that is repealed by this ordinance.

Section 4. Each act of violation and each day upon which any such violation shall occur shall constitute a separate offense. The penalty provided by this section, unless another penalty is expressly provided, shall apply to the amendment of any Code section, whether or not such penalty is reenacted in the amendatory ordinance. In addition to the penalty prescribed above, the town may pursue other remedies such as abatement of nuisances, injunctive relief and revocation of licenses or permits.

Section 5. Additions or amendments to the Code when passed in such form as to indicate the intention of the town council to make the same a part of the Code shall be deemed to be incorporated in the Code, so that reference to the Code includes the additions and amendments.

Section 6. Ordinances adopted May 16, 2002, that amend or refer to ordinances that have been codified in the Code shall be construed as if they amend or refer to like provision of the Code.

Section 7. This ordinance shall become effective June 1, 2002.

### CHAPTER 1. INCORPORATION AND BOUNDARIES

#### **Sec. 1. The town corporate.**

The inhabitants of the territory comprised within the present limits of the Town of Chincoteague, as such limitations are now or may be hereafter altered and established by law, shall constitute and continue a body, politic and corporate, to be known and designated as the Town of Chincoteague, and as such shall have and may exercise all powers which are now or hereafter may be conferred upon or delegated to the town under the Constitution and laws of the Commonwealth of Virginia, as fully and completely as though such powers are specifically enumerated herein, and no enumeration of particular powers by this Charter shall be held to be exclusive and shall have, exercise and enjoy all the rights, immunities, powers, and privileges and be subject to all the duties and obligations now appertaining to and incumbent on said town as a municipal corporation, and the said Town of Chincoteague, as such, shall have perpetual secession, may sue and be sued, implead and be impleaded, contract and be contracted with, and may have a corporate seal which it may alter, renew, or amend at its pleasure by proper ordinance.

#### **Sec. 2. The town boundary.**

The corporate limits of the Town of Chincoteague, Virginia, as heretofore established, are hereby reestablished, and shall be taken and deemed as the Town of Chincoteague as follows:

Beginning at a point on the Bay Shore, at low water mark, opposite the dividing line between the lands of Daniel J. Watson on the northeast and David R. Watson on the southwest, and running thence in a southwest direction along low water mark in Chincoteague Bay and Channel, to a point opposite the northeast boundary line of the land of Ella Fish; thence along the northeast boundary line of the said Ella Fish to a point two hundred (200) yards, southeast of the Main County Shore road; thence in a northeast direction to the dividing line between the lands of W. N. Conant and Mary A. Daisey; thence along the southwest boundary line of W. N. Conant's said land to the canal; thence in a northerly direction to the dividing line between the lands of Daniel J. Watson on the northeast and David R. Watson on the southwest, aforesaid; thence in a northwesterly direction along said last named dividing line, across the Main County Shore road to the point of beginning on the Bay Shore,—the said description being as of March thirteenth, nineteen hundred and eight, and being also the boundary of the said Town of Chincoteague as set forth in an Act of the General Assembly, approved March thirteenth, nineteen hundred and eight, entitled "An act to incorporate the Town of Chincoteague, Accomack County," and there is included within the corporate limits the following territory:

1<sup>st</sup>. northeast edge thereof, thence in a southeast direction to the north corner of the intersection of Willow street and the said Bunting road, thence in a northeast direction along the northwest edge of Willow street to a point where the present southern corporate limits of the Town of Chincoteague now crosses Willow street, the said point being on the northwest edge of said Willow street, thence following the present southern boundary of the Town of Chincoteague to the point of beginning,- the above description being a verbatim description of the extension of the corporate limits of the Town of Chincoteague as annexed on the \_\_ day of \_\_\_\_\_, nineteen hundred , by the Circuit Court of Accomack County, Virginia, in the petition of Kendell J. Bunting and others to annex territory, et cetera, to the Town of Chincoteague; and

2<sup>nd</sup>. Beginning at the northwestern corner of the present boundary of the Town of Chincoteague, at low water mark, it being the dividing line between the lands owned by David Watson and Daniel Watson, thence running in a northeasterly direction along ordinary low water mark to a point opposite the land occupied by the late Joshua W. Whealon, thence in a southeasterly direction along the center of a private roadway across the lands of the late Joshua W. Whealon, as it now exists, the same running between the dwelling houses of the late Joshua W. Whealon and the one now occupied by Sidney Daisey in a straight direction across the Deep Hole County road to the canal; thence in a southwest direction along said canal to the corporate limits of the Town of Chincoteague, it being a point also that separates the land of David Watson and Daniel Watson, thence in a northwest direction following the northern boundary of the present Town of Chincoteague to low water mark, the point of beginning,-the above description being a verbatim description of the territory which was annexed to the Town of Chincoteague in the petition of A. J. Hill and others to annex territory, et cetera, to the Town of Chincoteague.

3<sup>rd</sup>. Beginning at a point on the centerline of State Route 175, said point being the intersection of the centerline of Route 175 east entering the Island and the present Corporate Limit. From this point in a northern direction along the Corporate Limit to the point of intersection with the northern right-of-way of Route 175 entering the Island. Thence westerly along the northern right-of-way of Route 175 approximately 12,000 feet to a point where the right-of-way crosses the center of Queen Sound Channel. Then following the center of Queen Sound Channel in a northwesterly direction approximately 2,500 feet to a point where the channel divides, from this point in a northeasterly direction across Chincoteague Bay to a point on the Virginia/Maryland state line, said point being approximately 25,400 feet west of the intersection of the Virginia/Maryland state boundary and the mean low water line on the western side of Assateague Island. Then from said point in an easterly direction along the Virginia/Maryland state boundary, to a point being the intersection of the Virginia/Maryland state boundary and the westernmost mean low water line on Assateague Island. Then from said point in a southerly direction following the mean low water line to the western tip of Fishing Point the line crosses Chincoteague Inlet to a point being the westernmost point of the mean low water line on Chincoteague Point near Hammock Point Light. Then extending this line from said point in a northwesterly direction, approximately 3,000 feet to the middle of Queen Sound Channel, then from said point along the middle of Queen Sound Channel to its

intersection with the southern right-of-way of Route 175. Then following the southern right-of-way eastward to its intersection with the present Corporate Limit, then from this point northward along the Corporate Limit to the point of beginning.

It is the purpose of the three above descriptions to include all lands within the present boundaries of said town according to the Charter of said town and the annexation proceedings of Kendall J. Bunting and others and the annexation proceedings of A. J. Hill and others as found among the records in the clerk's office of the circuit court for the County of Accomack, Virginia.

## CHAPTER 2. POWERS OF TOWN

### Sec. 1. Generally.

1. To raise annually, by the levy of taxes and assessments in the said town, on all such property, real and personal, as is now or may be subject to taxation by towns by the laws of this Commonwealth, such sums of money as the council thereof shall deem necessary for the purpose of the said town, in such manner as the said council shall deem expedient in accordance with the Constitution of this state and of the United States; provided, however, that it shall impose no taxes on the bonds of the said town.

2. To impose special or local assessments for local improvements and to force payment thereof, subject to such limitations prescribed by the Constitution and laws as may be in force at the time of the imposition of such special or local assessments.

3. To impose a tax not exceeding one dollar per annum upon all persons residing in said town above the age of twenty-one years, not exempt from the payment of state capitation tax.

4. (a) The town may, in the name of and for the use of the town, contract debts and make and issue, or cause to be made and issued, as evidence thereof, bonds, notes or other obligations, upon the credit of the town, or solely upon the credit of specific property owned by the town, or solely upon the credit of income derived from property used in connection with any public utility owned and operated by the town.

(b) Pending the issuance and sale of any bonds, notes or other obligations by this act (Charter) authorized, or in anticipation of the receipt of taxes and revenues of the current fiscal year, it shall be lawful for the town to borrow money temporarily and to issue notes or other evidence of indebtedness therefor, and from time to time to renew such temporary loans or to use current funds to be ultimately repaid from the proceeds of the said bonds, notes or other obligations or from the town taxes and revenues, as the case may be.

(c) The credit of the town shall not, directly or indirectly, under any devise or pretence whatsoever, be granted to or in aid of any person, firm, association or corporation.

## CHINCOTEAGUE CODE

- (d) Every ordinance authorizing the issuance of bonds shall specify the purpose or purposes for which they are to be issued, the aggregate amount of the bonds, the term for which they shall be issued, and the maximum rate of interest to be paid thereon. The council of said town shall provide a salary to compensate such trial justice in such amount and payable at such times as the council shall deem proper, and the council may provide also for a vacation period, either with or without pay, and for such duration, as in the judgement of the council may be proper.

Like provisions may be made for a substitute justice, and when such substitute acts, he shall receive the compensation which would have been paid him had the principal acted, and which compensation shall be deducted from the salary or allowance made to the principal.

Nothing contained herein shall prevent the Town of Chincoteague from combining with the County of Accomack for the use of one trial justice and one substitute trial justice for such combined town and county, in such manner as may be provided by the laws of the State of Virginia relating to trial justices; and if the Town of Chincoteague and County of Accomack shall at any time combine for the use of one trial justice and one substitute trial justice for the said town and the said county, the laws of the State of Virginia relating to trial justices, so far as applicable, shall control and not this section of this Charter; provided, however, that the combination of the said town with the said county for the use of one trial justice and one substitute trial justice shall not prevent the council of the town at any time thereafter it shall desire so to do from withdrawing the Town of Chincoteague from such combination by a vote of the council and appointing a trial justice and a substitute trial justice for the Town of Chincoteague under the provisions of this Charter, notwithstanding anything in the trial justice laws of Virginia to the contrary; and likewise nothing herein contained shall prevent the town, after withdrawing from such combination, to adopt again the combination with the county.

The powers and jurisdiction provided for in this subsection sixty-five (65) of this act [Charter] as to matters other than those pertaining or relating to violations of ordinances of the town may be exercised only to the extent permitted by general law.

66. The town shall have the power to extend or contract the corporate limits of the town as provided by the Constitution and general laws of Virginia in force at the time.

67. The Town of Chincoteague shall have authority to impose taxes or assessments upon abutting landowners for making and improving the walkways upon then existing streets, and improving and paving then existing alleys, and for either the construction, or for the use of sewers, and the same when imposed, shall not be in excess of the peculiar benefits resulting therefrom to such abutting landowners; and the procedure for making such assessments and the method of collecting such taxes and assessments, shall be in accordance with general law.

## CHINCOTEAGUE CODE

68. The Town of Chincoteague is hereby constituted a separate road taxing district. The said town shall have the power to own, layout, and maintain its street system. The County of Accomack shall not levy any tax on the said town, or any property or residents therein for road purposes. Nor shall said town be embraced in any road district of the County of Accomack.

69. The Town of Chincoteague may levy a tax on all subjects of taxation not prohibited to it by, nor exempted in, the Constitution and general laws of Virginia.

70. The council hereinafter created shall have full power and authority, except as herein otherwise specifically provided, to exercise herein all of the powers conferred upon the town, and pass all laws and ordinances relating to its municipal affairs, subject to the Constitution and general laws of the state and of this Charter, and shall have full and complete control of all fiscal and municipal affairs of said town and all of its real and personal properties, and may from time to time, amend, re-amend and/or repeal any or all of the said ordinances, for the proper regulation, management, and government of the said town and may impose fines and penalties for the violation or nonobservance thereof.

71. The enumeration of specific powers, privileges, and authority in this Charter shall not be deemed exclusive, but in addition to the powers and privileges herein mentioned, implied or appropriated, the said town shall have and may exercise, all other powers, which are or may hereafter be, possessed, or enjoyed, by any towns under the Constitution and laws of the Commonwealth of Virginia, or not denied by the same, as fully and completely as if herein set out at length.

### **Sec. 2. Daylight saving time.**

The council may by resolution require, provide for and enforce daylight saving time in the town. Such time when so prescribed shall govern the conduct of all businesses and town elections within the corporate limits of the town. (Acts 1958, ch. 135, § 1)

## CHAPTER 3. TOWN PLAN

### **Sec. 1. Adoption.**

The council may adopt a town plan, showing the streets, highways, and parks heretofore laid out, adopted, and established, and such town plan shall be final with respect to the location, length, and width of such streets and highways, and the location and dimensions of such parks. Such town plan is hereby declared to be established for the promotion of the health, safety, and general welfare. Upon the adoption of the town plan, or any amendment thereto, a certificate to that effect, together with a plat, shall be filed immediately with the clerk of every county affected by such town plan and amendment.

### **Sec. 2. Appointment, etc., of planning commission.**

The council is hereby authorized to appoint a town planning commission, fix the number and term of members, remove any member for cause, fill any vacancies, which may occur, and

## CHARTER

provide for the powers and duties of such commission, not in conflict with the provisions of this act [Charter].

### **Sec. 3. Amendments.**

The council may at any time, after a public hearing, amend the town plan, by widening, relocating, or closing existing streets and highways, and by altering any existing part or by laying out new streets and highways and establishing new parks. Before amending the town plan, the council shall refer the proposed amendment to the town planning commission for a report thereon, and shall not act on such amendment until a report has been received from said commission, unless a period of thirty days has elapsed after the date of reference to the commission. Any amendment of the town plan, upon its adoption by the council, shall be final unless changed as herein provided as to the location, length, and width of any street or highway, and the location and dimensions of any park. Any widening, relocating, closing or laying out of streets and highways proposed under the provisions of law other than those contained in this article shall be deemed an amendment of the town plan, and shall be subject in all respects to the provisions of this chapter.

### **Sec. 4. Approval of plats for streets and highways—Generally.**

No plat showing a new street or highway within the town, shall be filed or recorded in the office of the clerk of the town or of any county until such plat has been approved by the council. Before giving any approval, the council shall refer every such plat to the town planning commission for a report, and shall not act on any plat so referred until a report has been received from the commission, unless a period of forty-five days has elapsed after the date of reference to the commission. Before reporting to the council on any plat, the commission shall hold a public hearing thereof. If any plat is disapproved by the commission, it shall report the reasons for such disapproval to the council. The council shall not approve any plan unless the streets and highways provided in such plats are of sufficient width, of proper grades, and suitably located to meet the probable traffic needs; to afford adequate light, air, and access of fire apparatus to such buildings as may be erected along the proposed streets and highways; and to insure healthful conditions on the land adjacent to such streets and highways. The council may, in appropriate cases, require that a plat, before being approved, shall provide adequate open spaces for parks, playgrounds, or other recreational uses; but the inclusion of such open spaces upon a plat does not require their dedication to public use. After a plat has been approved by the council, the streets, highways, parks, and other open spaces shall be a part of the town plan. The council, after a public hearing, may adopt general regulations in regard to the filing of plats.

### **Sec. 5. Same—Conditions.**

(a) Before approving such plat, and thereby accepting the dedication of the streets, alleys, parks and public places thereon, the council shall require that the streets and alleys thereon shall be properly laid out and located with reference to the topography of the land so platted and the adjoining lands, both as to connections and widths, which widths of such streets and alleys shall be plainly marked in figures or written on such plat, and which streets and alleys shall be laid out in harmony with the general plan of the town.

(b) And, before approving such plat, and thereby accepting the dedication of the streets and alleys thereon, the council shall require the owner thereof to execute and deliver to the

## CHINCOTEAGUE CODE

Town of Chincoteague a release and waiver of any claim or claims for damages which such owner, his heirs, successors or assigns may have or acquire against the Town of Chincoteague by reason of establishing proper grade lines on and along such streets and alleys and by reason of doing necessary grading or filling for the purpose of placing such streets and alleys upon the proper grade and releasing the Town of Chincoteague from building any retaining wall or walls along the streets and alleys and property lines; and the council may require such release and waiver to be written and executed on said plat and recorded therewith or by an instrument of writing to be executed and recorded in the clerk's office of the Circuit Court of Accomack County.

And the council may, in its discretion, require the owner of such platted lands to submit profiles of such streets and alleys, showing the contour thereof, together with proper grade lines laid thereon, and if and when the council is satisfied that the proper grade lines are laid on such profiles, the profiles shall be approved by the council and recorded by the owner or at his expense in the record of the profiles of the streets and alleys of the town, and the council may in its discretion, require such release and waiver to be made with reference thereto.

(c) Before approving any such plat of any subdivision of lots or lands the town council may, at its discretion, require the owner of such lot or lands to grade the streets and alleys therein, according to grade lines approved and established by the council.

### **Sec. 6. Issuance of building permits.**

For the purpose of preserving the integrity of the plan, no permit shall hereafter be issued for the construction of any building within the street lines of any mapped street or highway, as laid down in the town plan, within the town. Provided, however, if the land within any mapped street or highway is not yielding a fair return to the owner, the board of appeals, provided for herein, by a majority vote of all its members, may issue a permit for a building within the street line of such street or highway, upon such conditions as will increase as little as possible the cost of opening such street or highway, and will protect as far as possible the rights of the public and the integrity of the town plan. The board of appeals, hereinafter authorized, before taking any action under the provisions of this section, shall hold a public hearing, of which adequate notice shall be given to all persons deemed to be affected. Any decision by the board of appeals, rendered under the provisions of this section, shall be subject to the same court review as provided for zoning decisions of the board.

### **Sec. 7. Conformity with plan.**

If such town plan is adopted, no public sewer, water pipe, or other public utility shall be laid and no grading or paving shall be done by the town in any street or highway in the town, unless such street or highway has been placed upon the town plan by the council. No permit shall be issued for any building in the town unless such building is located adjacent to a street or highway, which has been placed upon the town plan by the council. Provided, however, where the literal enforcement of the provisions of this section would result in practical difficulty or unnecessary hardship, or where the nature or use of the proposed building does not require its location to be adjacent to a street or highway, the board of appeals, by a majority vote of all its members, may issue a permit for a building, upon such condition as the board may deem necessary to preserve the integrity of the town plan and to

## CHARTER

insure the proper location of future streets and highways in the town and the surrounding area. Any decisions of the board of appeals, rendered under the provisions of this section, shall be subject to the same court review as provided for zoning decisions of the board.

### CHAPTER 4. ZONING

#### Sec. 1. Generally.

For the purpose stated in chapter one hundred and ninety seven of the Acts of Assembly, approved March 18, 1926, the town council is hereby empowered to pass zoning ordinances in conformity with the said act, as amended, subject, however, to the following modifications thereto:

- (a) The council shall not adopt any zoning ordinance or map until it shall have appointed a town planning commission, as provided for in this act [Charter] and shall have received from said commission its recommendations as to a zoning ordinance and map, and shall have held a public hearing thereon.
- (b) Any zoning ordinance, regulations, restrictions, and boundaries of districts may be changed from time to time by the council, either upon its own motion or upon petition, under such conditions as the council may prescribe, after a public hearing and adequate notice to all owners and parties affected. If a protest or protests be filed with the council, signed by the owners of twenty per centum or more of the area of the land included in the proposed change, or by the owners of twenty per centum or more of the area of the land immediately adjacent to the land included in the proposed change, within a distance of one hundred feet therefrom, or by the owners of twenty per centum or more of the area of the land directly opposite across any street or streets from the land included in the proposed change, within a distance of one hundred feet from the street lines directly opposite, then no such change shall be made except by the majority vote of all of the members of the council. No change shall be made by the council in any zoning ordinance or map until such change has been referred to the town planning commission for a report thereon, and no action shall be taken by the council until a report has been received from the commission, unless a period of thirty days has elapsed after the date of reference to the commission.
- (c) Within thirty days after the adoption of any zoning ordinance and map, the council shall appoint a board of appeals, consisting of seven members, none of whom shall hold any other positions with the town. (Ord. of 7-1-1994)

The council may remove any member of the board for cause, after a public hearing. If a vacancy occurs otherwise than by the expiration of the term of the different members, it shall be filled by the council for the unexpired term.

Unless the council designates some member of the board as a chairman, the board shall select a chairman from among its own members, and may create and fill such other offices as it may choose. The board may employ such persons as the council may approve, and may expend such sums as are appropriated by the council for its work.

## CHINCOTEAGUE CODE

### CHAPTER 5. ADMINISTRATION AND GOVERNMENT

#### **Sec. 1. Town council generally.**

(a) The present mayor and council of the Town of Chincoteague shall continue in office until the expiration of the terms for which they were respectively elected.

(b) The administration and government of the Town of Chincoteague shall be vested in one body to be called the council of the Town of Chincoteague, which shall consist of seven members, six of whom shall be known as councilmen and one to be known as mayor, all of whom shall be residents and qualified voters of the said town. No person shall be a candidate simultaneously for the office of mayor and council member. No council member shall be eligible for qualification or election to the office of mayor unless (i) the council member's term of office will expire on June 30 of the year of the election for mayor or (ii) the council member's term of office will expire after June 30 of the year of the election for mayor, the council member submits his written resignation to the council at least 120 days before the day of the election for mayor, and such resignation shall become effective on June 30 of the year of the election for mayor. The council may create, appoint, or elect such departments, bodies, boards, and other officers, or assessors or attorneys, as are hereinafter provided for, or as are permitted or required by law to be appointed by the council, or as may be deemed necessary or proper, and may fix their compensation and define their duties.  
(Ord. of 7-1-1993)

#### **Sec. 2. Mayor and vice-mayor.**

(a) The mayor shall preside at the meetings of the council and perform such other duties as may be prescribed by this Charter and by general law, and such as may be imposed by the council, consistent with his office. He shall be recognized as the official head of the town for all ceremonial purposes, by the courts for the purpose of serving civil process, and by the Governor for military purposes. In time of public danger or emergency, he may take command of the police, maintain order and enforce the law. Such course of action shall be subject to review by the council.

The mayor shall have no right to vote in the council except that in every case of a tie vote of the council, the mayor shall be entitled to vote and his vote in case of a tie only shall have the same weight and effect as the vote of a councilman.

The mayor shall have no power to suspend, remove or discharge any officer, agent or employee of the town nor shall he have any power or authority to appoint or employ any officer, agent or employee of the town nor to fix the term of office or employment, or the compensation, or to increase or decrease the power and authority of any officer, agent, or employee of the town, unless such power shall have been given him by the council, but the mayor shall have such powers with respect to the chief of police, the police, the policemen and employees of the police force when and if the mayor is given the control and supervision of the chief of police.

(b) Every ordinance, or resolution having the effect of an ordinance, shall, before it becomes operative be presented to the mayor. If he approves, he shall sign it, but if not, he may return it, with his objections in writing, to the town manager who shall enter the mayor's

## CHARTER

objections at length on the minute book of the council. The council shall thereupon proceed to reconsider such ordinance or resolution. If, after such consideration, two-thirds of all the members elected to the council shall agree to pass the ordinance or resolution, it shall become operative notwithstanding the objection of the mayor. In all such cases the votes of members of the council upon such reconsideration shall be determined by "yeas" and "nays," and the names of the members voting for and against the ordinance or resolution shall be entered on the minute book of the council. If any ordinance or resolution shall not be returned by the mayor within five days (Sunday excepted) after it shall have been presented to him, it shall become operative in like manner as if he has signed it, unless his term of office or that of the council, shall expire within said five days.

(c) The council shall at its first meeting in July following every regular municipal election, choose one of its members as vice-mayor. The vice-mayor shall perform the duties of the mayor during his absence or disability.

The member of the council who shall be chosen vice-mayor, shall continue to have all of the rights, privileges, powers, duties and obligations of councilmen even when performing the duties of mayor during the absence or disability of the mayor of the town.  
(Acts 1981, ch. 84, § 1)

### **Sec. 3. Election of mayor and council; terms of office; meetings of council; vacancies.**

(a) At the regular municipal election to be held in the town in 1982, and every two years thereafter, there shall be elected, in the manner prescribed by law, three councilmen for terms of four year(s). A mayor shall be elected for a term of four years in 1984 and every four years thereafter.

Municipal elections shall be held at the time and in the manner provided for by general law. Terms of office shall begin on the first day of July next following the election. Each councilman and the mayor elected as herein above provided shall serve for the term stated or until his successor shall have been elected and qualified. The council shall be a continuing body, and no measure pending before such body shall abate or be discontinued by reason of expiration of the term of office or removal of the members of said body or any of them.

(b) The council shall, by ordinance, fix the time for their stated meetings. Special meetings shall be called by the clerk of the council upon the request of the mayor, or any three members of the council; no business shall be transacted at a special meeting but that for which it shall be called, unless the council be unanimous. The meetings of the council shall be open to the public, except when the public welfare shall require executive sessions.

If any member of the said council shall be voluntarily absent from three regular meetings of the council consecutively, his seat may be deemed vacant by resolution of the council and thereupon his unexpired term shall be filled according to the provisions of this act [Charter].  
(Acts 1958, ch. 135, § 1; Acts 1981, ch. 84, § 1)

The treasurer shall be responsible for the collection of all taxes, licenses and levies and charges for services furnished by the public utilities of the town. The council shall have authority to place in the hands of a town collector to be appointed by it, the collection of any taxes, licenses and other levies at any time if in the discretion of the council it shall be proper so to do.

(b) The town treasurer shall receive all moneys belonging to the town which it is his duty to collect from persons owing the same to the town, or which it is the duty of other officers of the town to collect and pay over to him, and pay the same out as the ordinances of the town may prescribe; to keep such moneys safely and account therefor; and to pay all drafts or orders made on him in conformity with the ordinances of the town.

(c) The funds of the town shall be deposited by the treasurer in such bank or banks as the council may direct, and such bank or banks may be required to give security in such sum or sums as the council shall fix. He shall keep books showing accurately the state of his accounts and the money of the town shall be kept distinct and separate from his own money and he is hereby expressly prohibited from using directly or indirectly the town's money, checks, or warrants in his custody and keeping for his own use and benefit, or that of any person or persons whomsoever, and any violation of this provision shall subject him to immediate removal from office.

(d) The books and accounts of the town treasurer and all papers relating to the accounts and transactions of the town, shall be at all times subject to the inspection of the mayor, the town council, and such other persons as the council may appoint, to examine the same, and all such books and accounts, together with any balance or moneys on hand, shall be transferred by the treasurer to his successor at every new appointment, or delivered up as the council may at any time require.

(e) The town treasurer shall, when required by the council, render an account to the council showing the state of the treasury and the balance of money on hand. He shall also, if required so to do by the council, accompany such account with a statement of all money received by him and on what account, with a list of all checks paid by him during the month

(f) The town treasurer shall annually submit to the town council, at such time as directed by the council, a full and detailed account of all receipts and disbursements made during the fiscal year just closed.

(g) All taxes, levies or other sums of money of whatever nature received by the town treasurer belonging to the Town of Chincoteague shall be credited by the treasurer on his books to the Town of Chincoteague and shall be paid out by him only on a warrant of the clerk of the council, countersigned, by the mayor.

(h) The treasurer shall keep a separate account of each fund and appropriation and the debts and credits belonging thereto; provided, however, that the council shall have the right to require all town funds to be deposited to the credit of the town and may prescribe by resolution or ordinance such other method of disbursement as it shall from time to time deem proper.

(i) All moneys received on all special assessments shall be held by the treasurer as a special fund, to be applied to the payment of the matter for which the assessment was made and said moneys shall be used for no other purpose.

(j) The treasurer shall perform such additional duties as may be required of him by the council not inconsistent with the laws of the state.

(Acts 1958, ch. 135, § 1)

### **Sec. 7. Town officers generally.**

(a) The town council may combine offices when not expressly prohibited, except that the assessing and collecting officers shall not be the same person.

(b) The town council shall grant and pay to all town officers and employees such salaries or compensation, if any, as the said council may from time to time deem just and proper, or which shall be fixed by this act [Charter], except as such salaries or compensation may be fixed by general law.

(f) The mayor, the town councilmen, the chief of police and the members of the police force of the town shall have jurisdiction, power and authority in criminal and police matters for one mile from the corporate limits of the said town.

(g) All officers elected or appointed under the provisions of this Charter, shall, unless otherwise provided under general law or by this Charter, or by ordinance of the council execute such bond with such approved security as may be required by general law, by this Charter, or by ordinance or resolution of the council, and file the same with the town clerk [manager] before entering upon the discharge of their duties; and in event of default on the part of any bonded municipal officer, the town shall have the same remedies against him and his sureties as are provided for the state in enforcing the penalty of any official bond given to it.

(h) All officers elected or appointed under the provisions of this Charter shall take the oath of office required by general laws before entering upon the discharge of his duties, and if these requirements have not been complied with within thirty days after the term of office shall have begun or after his appointment to fill a vacancy, then such office shall be considered vacant.

A supplement to this Code shall include all substantive permanent and general parts of ordinances adopted during the period covered by the supplement and all changes made thereby in the Code. The pages of a supplement shall be so numbered that they will fit properly into the Code and will, where

necessary, replace pages which have become obsolete or partially obsolete, and the new pages shall be so prepared that, when they have been inserted, the Code will be current through the date of the adoption of the latest ordinance included in the supplement.

(b) In the preparation of a supplement to this Code, all portions of the Code which have been replaced shall be excluded from the Code by the omission thereof from reprinted pages.

- (5) Make other nonsubstantive changes necessary to preserve the original meaning of ordinance sections inserted in the Code, but in no case shall the codifier make any change in the meaning or effect of ordinance material included in the supplement or already embodied in the Code.

(d) Each supplement will indicate the adoption date of the latest ordinance included in the supplement.

### **Sec. 2-209. Implementation.**

The town manager shall develop a purchasing procedure based on the policies and procedures established in this division and shall promulgate such administrative regulations necessary for the implementation of the standards established by this division.

(Code 1977, § 2-17-1)

### **Sec. 2-210. Centralized purchasing.**

It shall be the policy of the town to maintain a centralized purchasing process with the town manager or his designee as purchasing agent. It shall be the purchasing agent's responsibility to administer purchasing performance, negotiate and approve term contracts in connection with town departments, consolidate purchases of like or common items, analyze prices paid for materials and equipment and generally define how to obtain savings and to coordinate purchasing procedures.

(Code 1977, § 2-15-2)

### **Sec. 2-211. Sources of supply.**

The purchasing agent shall select sources of supply in connection with the appropriate town department. As a general policy, purchases shall be awarded, with local vendor preference, on the basis of availability, best price, delivery and quality, taking into consideration the reputation and performance capability of the suppliers.

(Code 1977, § 2-15-3)

### **Sec. 2-212. Commitments.**

In connection with town departments, the purchasing agent shall conduct and conclude all negotiations affecting vendor selection, price, terms, delivery, etc. No one other than the purchasing agent shall commit the town to any purchase, vendor, or product. Exceptions to this include emergencies and purchases made from the petty cash fund.

(Code 1977, § 2-15-4)

(Code 1977, § 2-15-6)

### **Sec. 2-215. Expediting.**

## CHINCOTEAGUE CODE

Expediting or "followup" on the delivery of materials or orders will be accomplished by the purchasing agent. Any information other town departments may acquire or be requested to acquire concerning the delivery status of ordered material should be passed on to the purchasing agent.

(Code 1977, § 2-15-17)

### **Sec. 2-216. Tax exemption.**

The town is exempt from all state and federal sales and excise taxes.

(Code 1977, § 2-15-18)

### **Sec. 2-217. Compliance with federal grants.**

The town may comply with mandatory federal requirements in grants or contracts not in conformance with this division only upon a written determination of the town council that acceptance of the applicable provisions is in the public's interest.

(Code 1977, § 2-15-19)

### **Sec. 2-218. Vendor selection.**

Vendors will be selected on a competitive basis. Bids, quotations and proposals will be solicited by newspaper advertisement, by direct mail request to prospective suppliers, and/or by telephone. Purchase orders or contracts will be awarded to the lowest and best responsible vendor. All bids, etc., may be rejected if it is in the public's interest to do so. In determining the lowest and best responsible vendor, in addition to price, the following will be considered:

- (1) The character, integrity, reputation, judgment, experience and efficiency of the vendor.
- (2) The ability, capacity and skill of the vendor to perform the contract, fill the order or provide the service.
- (3) The ability of the vendor to provide material or service promptly or within the time specified, without delay or interference-
- (4) The quality of performance by the vendor on previous contracts, orders or services.
- (5) The ability of the vendor to provide future maintenance and service for all equipment purchased from the vendor.

(Code 1977, § 2-16-1)

### **Sec. 2-219. Invitation for bids; opening of bids; award of bids generally.**

(a) When the cost of a contract, lease or other agreement for materials, supplies, equipment or contractual services other than professional exceeds \$30,000.00 (Code of Virginia, § 11-41(F)), an invitation for bids (IFB) notice will be prepared. This notice will be published at least once in at least one official newspaper of general circulation within the community. This newspaper notice must appear not less than seven days and not more than 21 days before the due date for bid proposals. The IFB will include a general description of the items to be purchased and the bid deposit and performance bond required and shall state where bid blanks and specifications may be secured and the time and place for opening bids.

## ADMINISTRATION

The purchasing agent may also solicit sealed bids from responsible prospective suppliers by sending them a copy of such notice.

(b) Sealed bids will be opened in public by the town manager at the time and place stated in the IFB. The bids will be tabulated by the town manager. The results of the tabulation and the bid material will be examined by the town manager, the appropriate department head and the appropriate appointed committee to determine the best bid. Recommendations for the bid award will be submitted by the town manager to the town council at a public meeting. After the bid award is made by the town council, a purchase order and/or contract shall be prepared for execution by the successful bidder. After the purchase order is issued and/or the contract signed, all bid deposits will be returned to all unsuccessful bidders.

(Code 1977, § 2-16-2)

### **Sec. 2-220. Request for quotations.**

(a) Purchases of supplies, equipment and services of less than \$30,000.00 (Code of Virginia, § 11-41(F)) but of \$500.00 or more will require a request for quotations (RFQ). An RFQ is similar to an IFB except that legal advertising is not required and detailed specifications may not be appropriate.

(b) The following procedures will be followed in obtaining a request for quotations:

- (1) Complete a request for quotations and distribute copies to vendors.
- (2) File unopened sealed quotations received, together with a machine copy of the original request for quotations.
- (3) On the designated date, remove the quotes received from the file.
- (4) Open the quotes and determine which vendor offers the item at the lowest price and issue a purchase order to the successful vendor.

(Code 1977, § 2-16-3)

### **Sec. 2-221. Open market purchases.**

Purchases of less than \$500.00 will be made in the open market without necessary resort to an IFB or RFQ. Every effort will be made, however, to get the lowest and best price and to share the business among responsible vendors.

(Code 1977, § 2-16-4)

### **Sec. 2-222. Emergency purchases.**

Emergency purchases shall be exempt from this division, provided that an emergency exists which affects the public health, safety or welfare. The mayor shall certify that an emergency exists.

(Code 1977, § 2-16-7)

### **Sec. 2-223. Bidders' list.**

## CHINCOTEAGUE CODE

With the aid of other town departments, the town manager shall compile and maintain a bidders' list. Vendors desiring to be listed shall advise the town manager, in writing, of the following:

- (1) Type of business;
  - (2) Names of officers, owners or partners;
  - (3) Persons authorized to sign bids, offers and contracts;
  - (4) Type of equipment, supplies, materials sold and/or services provided; and
  - (5) How long in the present business.
- (Code 1977, § 2-15-10)

### **Sec. 2-224. Competitive bidding on state-aid projects.**

No contract for the construction of any building or for an addition to or improvement of an existing building by the town or any subdivision of the town for which state funds of not more than \$30,000.00 in the aggregate or for the sum of all phases of a contract or project either by appropriation, grant-in-aid or loan are used or are to be used for all or part of the cost of construction shall be let except after competitive sealed bidding or after competitive negotiation as provided under subsection 2-296(c). The procedure for the advertising for bids or for proposals and for letting of the contract shall conform, mutatis mutandis, to this division.

**State law reference**—Similar provisions, Code of Virginia, § 11-41.1.

### **Sec. 2-225. Withdrawal of bid due to error.**

(a) A bidder for a public construction contract, other than a contract for construction or maintenance of public highways, may withdraw his bid from consideration if the price bid was substantially lower than the other bids due solely to a mistake therein, provided the bid was submitted in good faith, and the mistake was a clerical mistake as opposed to a judgment mistake and was actually due to an unintentional arithmetic error or an unintentional omission of a quantity of work, labor or material made directly in the compilation of a bid, which unintentional arithmetic error or unintentional omission can be clearly shown by objective evidence drawn from inspection of original work papers, documents and materials used in the preparation of the bid sought to be withdrawn. If a bid contains both clerical and judgment mistakes, a bidder may withdraw his bid from consideration if the price bid would have been substantially lower than the other bids due solely to the clerical mistake, that was an unintentional arithmetic error or an unintentional omission of a quantity of work, labor or material made directly in the compilation of a bid which shall be clearly shown by objective evidence drawn from inspection of original work papers, documents and materials used in the preparation of the bid sought to be withdrawn. One of the following procedures for withdrawal of a bid shall be selected by the town and stated in the advertisement for bids: (i) the bidder shall give notice in writing of his claim of right to withdraw his bid within two business days after the conclusion of the bid opening procedure and shall submit original work papers with such notice; or (ii) the bidder shall submit to the town or designated official his original work papers, documents and materials used in the preparation of the bid within one day after the date fixed for submission of bids. The work papers shall be delivered by the bidder in person or by registered mail at or prior to the time fixed for the

## ADMINISTRATION

opening of bids. In either instance, such work papers, documents and materials may be considered as trade secrets or proprietary information subject to the conditions of Code of Virginia, § 11-52(D). The bids shall be opened one day following the time fixed by the town for the submission of bids. Thereafter, the bidder shall have two hours after the opening of bids within which to claim in writing any mistake as defined in this subsection and withdraw his bid. The contract shall not be awarded by the town until the two-hour period has elapsed. Such mistake shall be proved only from the original work papers, documents and materials delivered as required in this subsection.

(b) The town may establish procedures for the withdrawal of bids for other than construction contracts.

(c) No bid may be withdrawn under this section when the result would be the awarding of the contract on another bid of the same bidder or of another bidder in which the ownership of the withdrawing bidder is more than five percent.

(d) If a bid is withdrawn under the authority of this section, the lowest remaining bid shall be deemed to be the low bid.

(e) No bidder who is permitted to withdraw a bid shall, for compensation, supply any material or labor to or perform any subcontract or other work agreement for the person to whom the contract is awarded or otherwise benefit, directly or indirectly, from the performance of the project for which the withdrawn bid was submitted.

(f) If the town denies the withdrawal of a bid under this section, it shall notify the bidder in writing stating the reasons for its decision and award the contract to such bidder at the bid price, provided such bidder is a responsible and responsive bidder.

(Code 1977, § 2-15-12)

**State law reference**—Withdrawal of bid due to error, Code of Virginia, § 11-54.

### **Sec. 2-226. Bid deposits.**

Bid deposits or surety may be prescribed in the public notices inviting bids. Unsuccessful bidders shall be entitled to the return of that deposit or surety. A successful bidder, upon failure on his part to enter into a contract within the time specified after written notification of the bid award, shall forfeit, as liquidated damages, any surety deposited with the town.

(Code 1977, § 2-15-8)

**State law reference**—Bid bonds, Code of Virginia, § 11-57.

### **Sec. 2-227. Bid bonds.**

(a) Except in cases of emergency, all bids or proposals for construction contracts in excess of \$100,000.00 shall be accompanied by a bid bond from a surety company selected by the bidder which is legally authorized to do business in the commonwealth, as a guarantee that if the contract is awarded to such bidder, that bidder will enter into the contract for the work mentioned in the bid. The amount of the bid bond shall not exceed five percent of the amount bid.

(b) No forfeiture under a bid bond shall exceed the lesser of the following:

## CHINCOTEAGUE CODE

(1) The difference between the bid for which the bond was written and the next low bid;  
or

(2) The face amount of the bid bond.

(c) Nothing in this section shall preclude the town from requiring bid bonds to accompany bids or proposals for construction contracts anticipated to be less than \$100,000.00.

(Code 1977, § 2-15-14)

**State law reference**—Bid bonds, Code of Virginia, § 11-57.

### **Sec. 2-228. Alternative forms of security.**

(a) In lieu of a bid, payment, or performance bond, a bidder may furnish a certified check or cash escrow in the face amount required for the bond.

(b) If approved by the town, a bidder may furnish a personal bond, property bond, or bank or savings institution's letter of credit on certain designated funds in the face amount required for the bid, payment or performance bond. Approval shall be granted only upon a determination that the alternative form of security proffered affords protection to the town equivalent to a corporate surety's bond.

(Code 1977, § 2-15-14)

**State law reference**—Similar provisions, Code of Virginia, § 11-61.

### **Sec. 2-229. Prequalification for construction.**

(a) Any prequalification of prospective contractors for construction by the town subsequent to July 1, 1995, shall be pursuant to a prequalification process for construction projects adopted by the town. Such process shall be consistent with this section.

(b) The application form used in such process shall set forth the criteria upon which the qualifications of prospective contractors will be evaluated. The application form shall request of prospective contractors only such information as is appropriate for an objective evaluation of all prospective contractors pursuant to such criteria. Such form shall allow the prospective contractor seeking prequalification to request, by checking the appropriate box, that all information voluntarily submitted by the contractor pursuant to this section shall be considered a trade secret or proprietary information subject to Code of Virginia, § 11-52(D).

(c) In all instances in which the town requires prequalification of potential contractors for construction projects, advance notice shall be given of the deadline for the submission of prequalification applications. The deadline for submission shall be sufficiently in advance of the date set for the submission of bids for such construction so as to allow the procedures set forth in this section to be accomplished.

(d) At least 30 days prior to the date established for submission of bids or proposals under the procurement of the contract for which the prequalification applies, the town shall advise in writing each contractor who submitted an application whether that contractor has been prequalified. If a contractor is denied prequalification, the written notification to such

## ADMINISTRATION

contractor shall state the reasons for such denial of prequalification and the factual basis of such reasons.

(e) A decision by the town denying prequalification under this section shall be final and conclusive unless the contractor appeals the decision as provided in Code of Virginia, § 11-63.

(f) The town may deny prequalification to any contractor only if the town finds one of the following:

- (1) The contractor does not have sufficient financial ability to perform the contract that would result from such procurement. If a bond is required to ensure performance of a contract, evidence that the contractor can acquire a surety bond from a corporation included on the United States Treasury list of acceptable surety corporations in the amount and type required by the town shall be sufficient to establish the financial ability of such contractor to perform the contract resulting from such procurement;
- (2) The contractor does not have appropriate experience to perform the construction project in question;
- (3) The contractor or any officer, director or owner thereof has had judgments entered against him within the past ten years for the breach of contracts for governmental or nongovernmental construction, including but not limited to design-build or construction management;
- (4) The contractor has been in substantial noncompliance with the terms and conditions of prior construction contracts with a public body without good cause. If the town has not contracted with a contractor in any prior construction contracts, the town may deny prequalification if the contractor has been in substantial noncompliance with the terms and conditions of comparable construction contracts with another public body without good cause. The town may not utilize this subsection to deny prequalification unless the facts underlying such substantial noncompliance were documented in writing in the prior construction project file and such information relating thereto given to the contractor at that time, with the opportunity to respond;
- (5) The contractor or any officer, director, owner, project manager, procurement manager or chief financial official thereof has been convicted within the past ten years of a crime related to governmental or nongovernmental construction or contracting, including but not limited to a violation of (i) Code of Virginia, § 11-72 et seq., (ii) the Virginia Governmental Frauds Act (Code of Virginia, § 18.2498.1 et seq.), (iii) Code of Virginia, § 59.1-68.6 et seq., or (iv) any substantially similar law of the United States or another state;
- (6) The contractor or any officer, director or owner thereof is currently debarred pursuant to an established debarment procedure from bidding or contracting by any public body, agency of another state or agency of the federal government; and

## CHINCOTEAGUE CODE

- (7) The contractor failed to provide to the town in a timely manner any information requested by the public body relevant to subsections (f)(1) through (6) of this section.

(g) If the town has a prequalification ordinance which provides for minority participation in municipal construction contracts, the town may also deny prequalification based on minority participation criteria; provided, however, that nothing in this subsection shall authorize the adoption or enforcement of minority participation criteria except to the extent that such criteria, and the adoption and enforcement thereof, are in accordance with the Constitution and laws of the United States and the commonwealth.

**State law reference**—Similar provisions, Code of Virginia, § 11-46.

### **Sec. 2-230. Use of brand names.**

Unless otherwise provided in the invitation for bids, the name of a certain brand, make or manufacturer does not restrict bidders to the specific brand, make or manufacturer named—it conveys the general style, type, character, and quality of the article desired—and any article which the town in its sole discretion determines to be the equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted.

(Code 1977, § 2-15-11)

**State law reference**—Use of brand names, Code of Virginia, § 11-49.

### **Sec. 2-231. Award of bid-based contracts.**

The town council will award bid-based contracts on the recommendation of the appointed reviewing committee, which is to be created in each case, and the town manager. The award will usually be to the lowest and best responsible bidder. A full and complete statement of the reasons shall be prepared by the committee and town manager and shall be filed along with other papers relating to the transaction.

(Code 1977, § 2-15-16)

### **Sec. 2-232. Performance and payment bonds.**

(a) Upon the award of any public construction contract exceeding \$100,000.00 awarded to any prime contractor, such contractor shall furnish to the town the following bonds:

- (1) A performance bond in the sum of the contract amount conditioned upon the faithful performance of the contract in strict conformity with the plans, specifications and conditions of the contract.
- (2) A payment bond in the sum of the contract amount. Such bond shall be for the protection of claimants who have and fulfill contracts to supply labor or materials to the prime contractor to whom the contract was awarded or to any subcontractors, in the prosecution of the work provided for in such contract, and shall be conditioned upon the prompt payment for all such material furnished or labor supplied or performed in the prosecution of the work. The term "labor or materials" shall include public utility services and reasonable rentals of equipment, but only for periods when the equipment rented is actually used at the site.

## ADMINISTRATION

(b) Each of such bonds shall be executed by one or more surety companies selected by the contractor which are legally authorized to do business in the commonwealth.

(c) Such bonds shall be payable to the town.

(d) Each of the bonds shall be filed with the town or a designated office or official thereof.

(e) Nothing in this section shall preclude the town from requiring payment or performance bonds for construction contracts below \$100,000.00.

(f) Nothing in this section shall preclude such contractor from requiring each subcontractor to furnish a payment bond with surety thereon in the sum of the full amount of the contract with such subcontractor conditioned upon the payment to all persons who have and fulfill contracts which are directly with the subcontractor for performing labor and furnishing materials in the prosecution of the work provided for in the subcontract.

(Code 1977, §§ 2-15-9, 2-15-14)

**State law reference**—Similar provisions, Code of Virginia, § 11-58.

### **Sec. 2-233. Employment discrimination by contractor prohibited.**

The town shall include in every contract of over \$10,000.00 the following:

(1) During the performance of this contract, the contractor agrees as follows:

- a. The contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex or national origin, except where religion, sex or national origin is a bona fide occupational qualification reasonably necessary to the normal operation of the contractor. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.
- b. The contractor, in all solicitations or advertisements for employees placed by or on behalf of the contractor, will state that such contractor is an equal opportunity employer.
- c. Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient for the purpose of meeting the requirements of this section.

(2) The contractor will include the provisions of subsections (1)a, (1)b and (1)c of this section in every subcontract or purchase order of over \$10,000.00, so that the provisions will be binding upon each subcontractor or vendor.

(Code 1977, § 2-15-15)

**State law reference**—Employment discrimination by contractor prohibited, Code of Virginia, § 11-51.

### **Sec. 2-234. Retainage on construction contracts.**

## CHINCOTEAGUE CODE

(a) In any public contract for construction which provides for progress payments in installments based upon an estimated percentage of completion, the contractor shall be paid at least 95 percent of the earned sum when payment is due, with not more than five percent being retained to ensure faithful performance of the contract. All amounts withheld may be included in the final payment.

(b) Any subcontract for a public project which provides for similar progress payments shall be subject to the same limitations.

(Code 1977, § 2-15-13)

**State law reference**—Retainage on construction contracts, Code of Virginia, § 11-56.

### **Sec. 2-235. Deposit of certain retained funds; failure to timely complete contract.**

(a) When contracting directly with contractors for public contracts of \$200,000.00 or more for construction of highways, roads, streets, bridges, parking lots, demolition, clearing, grading, excavating, paving, pile driving, miscellaneous drainage structures, and the installation of water, gas, sewer lines and pumping stations where portions of the contract price are to be retained, the town shall include in the bid proposal an option for the contractor to use an escrow account procedure for utilization of the town's retainage funds by so indicating in the space provided in the proposal documents. If the contractor elects to use the escrow account procedure, the escrow agreement form included in the bid proposal and contract shall be executed and submitted to the town within 15 calendar days after notification. If the escrow agreement form is not submitted within the 15-day period, the contractor shall forfeit his rights to the use of the escrow account procedure.

(b) In order to have retained funds paid to an escrow agent, the contractor, the escrow agent, and the surety shall execute an escrow agreement form. The contractor's escrow agent shall be a trust company, bank or savings institution with its principal office located in the commonwealth. The escrow agreement and all regulations promulgated by the town shall be substantially the same as that used by the commonwealth department of transportation.

(c) This section shall not apply to public contracts for construction for railroads; public transit systems; runways; dams; foundations; installation or maintenance of power systems for the generation and primary and secondary distribution of electric current ahead of the customer's meter; the installation or maintenance of telephone, telegraph or signal systems for public utilities; and the construction or maintenance of solid waste or recycling facilities and treatment plants.

(d) Any such public contract for construction, which includes payment of interest on retained funds, may require a provision whereby the contractor, exclusive of reasonable circumstances beyond the control of the contractor stated in the contract, shall pay a specified penalty for each day exceeding the completion date stated in the contract.

(e) Any subcontract for such public project which provides for similar progress payments shall be subject to this section.

**State law reference**—Similar provisions, Code of Virginia, § 11-56.1.

## ADMINISTRATION

(b) Subsection (a) of this section shall not be construed to render void any provision of a public construction contract that:

- (1) Allows the town to recover that portion of delay costs caused by the acts or omissions of the contractor or his subcontractors, agents or employees;
- (2) Requires notice of any delay by the party claiming the delay;
- (3) Provides for liquidated damages for delay; or
- (4) Provides for arbitration or any other procedure designed to settle contract disputes.

(c) A contractor making a claim against the town for costs or damages due to the alleged delaying of the contractor in the performance of its work under any public construction contract shall be liable to the town and shall pay it for a percentage of all costs incurred by the town in investigating, analyzing, negotiating, litigation and arbitrating the claim, which percentage shall be equal to the percentage of the contractor's total delay claim which is determined through litigation or arbitration to be false or to have no basis in law or in fact.

## *Subdivision III. Competitive Negotiation*

### **Sec. 2-296. Procedures generally.**

(a) Upon a determination made in advance by the town and set forth in writing that competitive sealed bidding is either not practicable or not fiscally advantageous to the public, goods, services, or insurance may be procured by competitive negotiation. The writing shall document the basis for this determination.

(b) Upon a written determination made in advance by the town council that competitive negotiation is either not practicable or not fiscally advantageous, insurance may be procured through a licensed agent or broker selected in the manner provided for the procurement of things other than professional services in subdivision 3 b of the definition of "competitive negotiation" in Code of Virginia, § 11-37. The basis for this determination shall be documented in writing.

## CHINCOTEAGUE CODE

(c) Construction may be procured only by competitive sealed bidding, except that competitive negotiation may be used in the following instances upon a determination made in advance by the town and set forth in writing that competitive sealed bidding is either not practicable or not fiscally advantageous to the public, which writing shall document the basis for this determination:

- (1) For the alteration, repair, renovation or demolition of buildings when the contract is not expected to cost more than \$500,000.00;
- (2) For the construction of highways and any draining, dredging, excavating, grading or similar work upon real property; or

(3) As otherwise provided in Code of Virginia, § 11-41.2:2.  
(Code 1977, § 2-16-5)

**State law reference**—Methods of procurement, Code of Virginia, § 11-41.

### **Sec. 2-297. Award of a service generally.**

The town manager or his designee shall engage in individual discussions with all offerors deemed fully qualified, responsible and suitable on the basis of initial responses and with emphasis on professional competence to provide the required services. Such offerors shall be encouraged to elaborate on their qualifications and performance data or staff expertise pertinent to the proposed project. These discussions may encompass nonbinding estimates of total projects costs, including where appropriate design, construction and life cycle costs. Methods to be utilized in arriving at price for services may also be discussed. At the conclusion of discussion on the basis of evaluation factors published in the request for proposals and all information developed to this point, the town manager shall select in the order of preference two or more offerors whose professional qualification and proposed services are deemed most meritorious. Negotiations shall then be conducted, beginning with the offeror ranked first. If a contract can be negotiated at a price considered fair and reasonable, the award shall be made to that offeror. Otherwise, negotiations shall be formally terminated and negotiations conducted with the offeror ranked second, and so on until such a contract can be negotiated at a fair and reasonable price.

(Code 1977, § 2-16-6)

### **Sec. 2-298. Procurement of professional services.**

Where the cost of a professional service is expected to exceed \$30,000.00 in the aggregate or for the sum of all phases of a contract or project, the town shall engage in individual discussions with two or more offerors deemed fully qualified, responsible and suitable on the basis of initial responses and with emphasis on professional competence to provide the required services. Repetitive informal interviews shall be permissible. The offerors shall be encouraged to elaborate on their qualifications and performance data or staff expertise pertinent to the proposed project, as well as alternative concepts. The request for proposal shall not, however, request that offerors furnish estimates of man hours or cost for services. At the discussion stage, the town may discuss nonbinding estimates of total project costs, including but not limited to life-cycle costing, and, where appropriate, nonbinding estimates of price for services. Proprietary information from competing offerors shall not be disclosed to the public or to competitors. At the conclusion of discussion, outlined in this section, on

the basis of evaluation factors published in the request for proposal and all information developed in the selection process to this point, the town shall select in the order of preference two or more offerors whose professional qualifications and proposed services are deemed most meritorious. Negotiations shall then be conducted, beginning with the offeror ranked first. If a contract satisfactory and advantageous to the town can be negotiated at a price considered fair and reasonable, the award shall be made to that offeror. Otherwise, negotiations with the offeror ranked first shall be formally terminated and negotiations conducted with the offeror ranked second, and so on until such a contract can be negotiated at a fair and reasonable price. Should the town determine in writing and in its sole discretion that only one offeror is fully qualified or that one offeror is clearly more highly qualified and suitable than the others under consideration, a contract may be negotiated and awarded to that offeror.

### **Sec. 14-86. Removal, repair or securing of buildings and other structures.**

(a) The owners of property in the town shall, at such time as the town council may prescribe, remove, repair or secure any building, wall or any other structure which might endanger the public health or safety of other town residents.

(b) The town, through its own agents or employees, may remove, repair or secure any building, wall or any other structure which might endanger the public health or safety of other town residents if the owner and lien holder of such property, after reasonable notice and a reasonable time to do so, have failed to remove, repair or secure the building, wall or other structure. For purposes of this section, repair may include maintenance work to the exterior of a building to prevent deterioration of the building or adjacent buildings. For purposes of this section, reasonable notice includes a written notice (i) mailed by certified or registered mail, return receipt requested, sent to the last known address of the property owner and (ii) published once a week for two successive weeks in a newspaper having general circulation in the locality. No action shall be taken by the town to remove, repair or secure any building, wall or other structure for at least 30 days following the later of the return of the receipt or newspaper publication.

(c) If the town, through its own agents or employees, removes, repairs or secures any building, wall or any other structure after complying with the notice given under this section, the cost or expenses thereof shall be chargeable to and paid by the owner of such property and may be collected by the town in the manner taxes are collected.

(d) Every charge authorized by this section with which the owner of any such property has been assessed and which remains unpaid shall constitute a lien against such property ranking on a parity with liens for unpaid local taxes and enforceable in the same manner as provided in Code of Virginia, §§ 58.1-3940 et seq. and 58.1-3965 et seq. The town may waive such lien in order to facilitate the sale of the property. Such lien may be waived only as to a

purchaser who is unrelated by blood or marriage to the owner and who has no business association with the owner. All such liens shall remain a personal obligation of the owner of the property at the time the liens were imposed.

### **Sec. 14-87. Buildings exempt from Uniform Statewide Building Code.**

(a) This section shall apply to buildings and structures which are or may be determined to be unsafe under the terms of this section, notwithstanding that buildings and structures erected after the enactment of the Uniform Statewide Building Code shall be regulated under the provisions of that code. However, if the construction of such buildings or structures were exempt from that code, this section shall apply.

(b) All buildings or structures that are or shall become unsafe, unsanitary or deficient in adequate exit way facilities or that constitute a fire hazard or are otherwise dangerous to human life or the public welfare or that, because of illegal or improper use, occupancy or maintenance, shall be deemed unsafe buildings or structures. All unsafe buildings shall be taken down and removed or made safe and secure, as the town building official may deem necessary and as provided in this section. A vacant building, unguarded or open at door or window, shall be deemed a fire hazard and unsafe within the meaning of this section.

(c) Whenever the building official shall find any building or structure or portion thereof to be unsafe, he shall give the owner, agent or person in control of such building or structure written notice stating the defects thereof. This notice shall require the owner, within a stated time, either to complete specified repairs or improvements or to demolish or remove the building or structure or portion thereof. Such notice shall require the person thus notified to immediately declare to the building official his acceptance or rejection of the terms of the order. If no such person can be found within the town, the notice shall be sent by registered or certified mail to the owner of such real estate, as shown on the town tax records or, if the property is not assessed for taxation, to the last known address of the owner, agent or person in control of such building or structure, and a copy of such notice shall be posted in a conspicuous place on the premises, and such procedure shall be deemed the equivalent of personal notice.

(d) If necessary, such notice shall also require the building, structure or portion thereof to be vacated forthwith and not reoccupied until the specified repairs and improvements are completed, inspected and approved by the building official. The building official shall cause to be posted at each entrance to such building a notice stating: "This building is unsafe and its use or occupancy has been prohibited by the town building official." Such notice shall remain posted until the required repairs are made or demolition is completed. It shall be unlawful for any person or his agents or other servants to remove such notice without written permission of the building official or for any person to enter the building except for the purpose of making the required repairs or of demolishing the building, structure or portion thereof.

(e) The owner, agent or person in control shall have the right, except in cases of

## CHINCOTEAGUE CODE

emergency, to appeal from the decision of the building official, as provided in this section, and to appear before the board of building code appeals at a specified time and place to show cause why he should not comply with the notice. Such appeal shall be made by notification to the building official in writing within 30 days of receipt of the notice required by this section or within 30 days of the mailing of such notice if such person cannot be found.

(f) If the owner, agent or person in control cannot be found within the stated time limit or if such owner, agent or person in control shall fail, neglect or refuse to comply with the notice to repair, to rehabilitate or to demolish and remove the building or structure or portion thereof, the building official, after having ascertained the cost, shall cause such building or structure or portion thereof to be demolished, secured or required to remain vacant.

(g) The decision of the building official shall be final in cases of emergency, which, in his opinion, involve imminent danger to human life or health. He shall promptly cause such building, structure or portion thereof to be made safe or removed. For this purpose, he may at once enter such structure or land on which it stands or abutting land or structures, with such assistance and at such cost as he may deem advisable. He may vacate adjacent structures and protect the public by an appropriate fence or such other means as may be necessary and for this purpose may close a public or private way.

(h) Any cost or expenses in connection with the enforcement of this section shall be the responsibility of the owner of such real estate, and any portion which shall have been billed to such owner and which remains unpaid after having been billed for 30 days shall constitute a lien against such real estate and may be collected by the town in the same manner as taxes are collected. A bill mailed to the last mailing address of the owner shall constitute billing for the purpose of this section.

(Code 1977, § 10-36)

#### **Sec. 18-2. Tattooing; operating tattoo business.**

(a) The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

*Tattoo artist* means any person who actually performs the work of tattooing.

*Tattoo establishment* means any room or space where tattooing is practiced or where the business of tattooing is conducted or any part thereof.

(c) Any person who shall violate this section shall be guilty of a misdemeanor.  
(Code 1977, § 13-4)

#### **Sec. 18-3. Going out of business sales.**

## ARTICLE II. LICENSES

### DIVISION 1. GENERALLY

#### **Sec. 18-31. Statement of policy.**

It is the purpose of the town in enacting this article to pursue the collection of license taxes and the enforcement therefore required in a most uniform, strenuous and honest manner and to equalize as far as practicable the burden of license taxation among those liable therefore, by adopting a system of license taxes measured by the gross receipts of the business, trade or occupation in respect of which the tax is levied, except as may be otherwise provided. All information, estimates and records provided in compliance with this article shall be considered privileged information entitled to all the protection provided by the Privacy Protection Act of 1976 (Code of Virginia, § 2.1-377 et seq.) except as specifically excluded in this article.

(Code 1977, § 10-2)

#### **Sec. 18-32. Definitions.**

As used in this article and as applied to the business, trade or occupation subject to the license taxes set forth in this article and not specifically otherwise taxed, the following words and terms shall have the respective meanings ascribed to them:

*Amusement* means every business or trade enumerated in section 18-123.

*Builder.* Every person who shall build, erect or construct a house or building for the purpose of selling or renting the house or building and who shall not employ therefore in writing a contractor or person who shall act as superintendent of the whole construction and who has paid the license tax required by this article shall, himself, be deemed a contractor and shall be subject to all the applicable sections of this article. Any person who shall erect or construct a house or building and later sell or offer to sell or rent the house or building without having himself resided in the house or building for not less than 90 days shall be prima facie deemed to have erected or constructed that house or building for the purpose of selling or renting the house or building.

*Business service* means every business or trade enumerated in section 18-124.

*Contractor* means any person:

(1) Accepting or offering to accept orders or contracts for doing any work on or in any building or structure, requiring the use of paint, stone, brick, mortar, wood, cement, structural iron or steel, sheet iron, galvanized iron, metallic piping, tin, lead, or other metal

## BUSINESSES

or any other building material;

(2) Accepting or offering to accept contracts to do any paving, curbing or other work on sidewalks, streets, alleys or highways or public or private property, using asphalt, brick, stone, cement, concrete, wood or any composition;

(3) Accepting or offering to accept an order for or contract to excavate earth, rock, or other material for foundation or any other purpose or for cutting, trimming or maintaining rights-of-way;

(4) Accepting or offering to accept an order or contract to construct any sewer of stone, brick, terracotta or other material;

(5) Accepting or offering to accept orders or contracts for doing any work on or in any building or premises involving the erecting, installing, altering, repairing, servicing, or maintaining electric wiring, devices or appliances permanently connected to such wiring or the erecting, repairing or maintaining of lines for the transmission or distribution of electric light and power; or

(6) Engaging in the business of plumbing and steam fitting.

*Gross receipts* means the whole, entire, total receipts, without deduction, for the preceding year from any business, profession, trade, occupation, vocation, calling or activity, including fees, commissions, brokerage charges and rentals on property of any kind (excluding any property consisting of land, house or mobile home used as a permanent residence), nature or description from either sales made or services rendered without any deduction there from on account of cost of property sold and the cost of materials, labor or services or other costs, interest or discounts paid or any expense whatsoever and includes for merchants the amount of the sale price of supplies and goods furnished or to be used by the licensee or his family or other persons for which no charge is made. However, the term "gross receipts" with respect to licensees dealing in articles or services upon which there is levied a direct excise tax payment to the United States government and any local sales or excise tax collected for the state or town may be excluded from gross receipts.

The term "gross receipts" shall be used in connection with or in respect to financial transactions for the preceding year involving the sale of notes, stocks, bonds or other securities or the loan, collection or advance of money or the discounting of notes, bills or other discount, gross commission or the other gross receipts earned by means of or resulting from such financial transactions, but the term "gross receipts" shall not include amounts received as payments of debts. The calculation of gross receipts for license tax purposes shall be on either a cash accrual basis; provided, however, that the basis used must coincide with the system of accounts used by the taxpayer and with the method employed by the taxpayer for federal and state income tax purposes. The preceding year's gross receipts may be either the fiscal year used by the business or the calendar year, provided that the year employed must also coincide with the year used for federal and state income tax purposes.

*Merchant* means any person who is both a retail merchant and a wholesale merchant, as they are defined in this section, and who is required to obtain both classes of license. However, any retail merchant who desires to do a wholesale business, also, may elect to do such wholesale business under his retailer's license by paying license taxes as a retailer on both his retail and wholesale business, but this shall not apply to any retail merchant, the

## CHINCOTEAGUE CODE

greater part of whose business at the licensed place during the preceding year was wholesale, nor to a beginner, the greater part of whose business it is estimated will be wholesale for the period covered by the license.

*Personal service* means every business or trade enumerated in section 18-127.

*Professional occupation* means every person engaged in an occupation enumerated in section 18-128.

*Purchases* mean all goods, wares and merchandise received for sale at each definite place of business of a wholesale merchant. The term also includes the cost of manufacture of all goods, wares and merchandise manufactured by any wholesale merchant and sold or offered for sale. A wholesale merchant may elect to report the gross receipts from the sale of manufactured goods, wares and merchandise if he cannot determine the cost of manufacture or chooses not to disclose the cost of manufacture.

*Repair service* means the business of repairing, renovating or servicing any or several of those items or articles enumerated in section 18-129.

*Retail merchant* means every person engaged in the conduct of business enumerated in section 18-130. The term "retail merchant" is further defined to mean every merchant who sells to others for retail, only, and not for resale. Every person engaged in the business of selling goods, wares or merchandise through the use of coin-operated vending machines shall be classified as a "retail merchant."

*Superintendent.* Every person other than the owner of a house or building who shall act as superintendent of the erection, construction or repair of buildings for which a building or other permit is required shall be deemed a contractor and shall pay the annual license tax required of a contractor by this article.

*Wholesale merchant* means every person engaged in the conduct of a business enumerated in section 18-131. The term "wholesale merchant" is further defined to mean every merchant who sells to others for resale, only, or who sells to institutional, commercial or industrial users. (Code 1977, § 10-3)

**State law reference**—Similar provisions, Code of Virginia, §§ 58.1-3700.1, 58.1-3714.

### **Sec. 18-33. Rules of construction and interpretation; adoption of state laws.**

As to all questions in regard to the duty and conduct of town officers in collecting and enforcing the license taxes imposed by this article and in regard to questions of construction, for definitions of terms used in this article and the rules and regulations applicable to putting them in operation, reference is made to the laws of the state for the assessment, levy and collection of license taxes for the current year or to so much thereof as is applicable to this article and is not inconsistent with this article and this Code. For the conduct and guidance of the town officers and other parties affected by this article and for fixing their powers, rights, duties and obligations, the provisions of such laws, so far as applicable, are adopted without being specifically quoted in this article.

(Code 1977, § 10-4)

### **Sec. 18-34. Applicability to business, employment or profession not included.**

## BUSINESSES

Nothing contained in this article shall be construed to repeal any license tax imposed by this article upon persons, property, admissions or any subject not mentioned in this article. In every case in which a license is imposed by the state on any business, employment or profession not specifically mentioned, a town license tax equal to the amount of the state tax is imposed for the privilege of conducting such business, employment or profession in the town.

(Code 1977, § 10-5)

### **Sec. 18-35. Violations; penalties.**

It shall be unlawful and shall constitute a misdemeanor for any person to conduct a business or to engage in a profession, trade or occupation before procuring a license as required under this article or then and there having a valid license. It shall also be unlawful and shall constitute a misdemeanor for any person to violate any of the sections of this article.

(Code 1977, § 10-6; Ord. of 8-5-1996)

### **Sec. 18-36. Required.**

Every person shall apply for a license for each business or profession when engaging in a business in this jurisdiction if:

- (1) The person has a definite place of business in this jurisdiction;
- (2) There is no definite place of business anywhere and the person resides in this jurisdiction; or
- (3) There is no definite place of business in this jurisdiction but the person operates amusement machines or is classified as an itinerant merchant, peddler, carnival, circus, or contractor subject to Code of Virginia, § 58.1-3715 or a public service corporation.

(Code 1977, § 10- 7; Ord. of 8-5-1996)

### **Sec. 18-37. Application; issuance.**

(a) Every person desiring to obtain a license to pursue any business, trade or occupation or to do anything for which a license is required shall make application therefore in writing to the town manager. The application shall state the residence of the applicant; the social security number or tax identification number of the applicant; the nature of the business, employment, profession or thing to be done; and the place where it is proposed to be prosecuted. Where the license tax is to be measured by gross receipts, the applicant shall make a statement under oath as required by subsection (b) of this section. The town manager shall assess such applicant or other person of whom a license is required with the license tax required by law and shall issue a license to the applicant to practice the business, trade or occupation or other thing therein named, which license shall not be valid or effective unless and until the license tax required shall be paid to the town. If it is a business for which a license can be granted only on the certificate of a court or other officer, such license shall not be valid or effective until such certificate shall be obtained.

(b) When the license tax is based upon gross receipts, the town manager shall require a signed statement from the applicant as to the amount of such gross receipts, except for a beginner. After computing the amount of the license tax in each case, the town manager shall

## CHINCOTEAGUE CODE

retain one copy of the license tax form and shall furnish the applicant with one copy. Upon payment of the required license tax by the licensee, the manager shall receipt the payment upon both the original and the copy presented by the licensee, after which the manager shall give the original to the licensee and retain the copy of the receipted form.

(c) Any business owned and operated by a full-time student under the age of 23 having gross receipts, as defined in section 18-32, for the preceding year of less than \$5,000.00 shall require a license but shall be exempt from payment of license tax.

(d) No business license shall be issued, new or renewal, until the applicant has produced satisfactory evidence that all delinquent business license, personal property, meals, transient occupancy, severance and admissions taxes owed by the business to the town have been paid which have been properly assessed against the applicant by the town.  
(Code 1977, § 10-8; Ord. of 5-17-2001, (c); Ord. of 8-5-1996, (d))

### **Sec. 18-38. Separate license required for each place of business.**

A separate license shall be required for each place of business and for each business. A person engaged in two or more businesses or professions carried on at the same place of business may elect to obtain one license for all such businesses and professions if all of the following criteria are satisfied:

- (1) Each business or profession is subject to licensure at the location and has satisfied any requirement imposed by state law or other sections of this Code or provisions of town ordinances.
- (2) All of the businesses or professions are subject to the same tax rate, or, if subject to different tax rates, the licensee agrees to be taxed on all businesses and professions at the highest rate.
- (3) The taxpayer agrees to supply such information as the assessor may require concerning the nature of the several businesses and their gross receipts.  
(Code 1977, § 10-9; Ord. of 8-5-1996)

### **Sec. 18-39. Businesses, trades or occupations prohibited by zoning.**

The town manager shall not issue a license for conducting any business, trade or occupation at a location where the conducting of such business, trade or occupation at such location is prohibited by the town zoning ordinance.  
(Code 1977, § 10-10)

### **Sec. 18-40. Display.**

Every person required to pay a license tax or to obtain any tag or sign under this article shall keep the license tag or sign in a convenient place and, whenever required to do so, shall exhibit the license, tag or sign to any authorized town representative. No license measured by volume of business shall be required to be publicly displayed.  
(Code 1977, § 10-11)

### **Sec. 18-41. Transferability.**

## BUSINESSES

Licenses issued under this article shall be transferable, except where otherwise provided, but in no case shall any transfer of a license be legal or valid unless and until notice in writing of such transfer shall have been given to the town manager, who shall have approved the transfer in writing on the license. The notice shall state the time of the transfer, the place of business and the name of the person to whom transferred. The town manager shall keep a record of such transfers and shall submit a copy of each such transfer to the proper enforcement officer.

(Code 1977, § 10-12)

### **Sec. 18-42. Suspension.**

The enforcement officer, unless otherwise specified, is authorized and empowered to suspend any license issued under this article for violation of the terms of the license granted, and such suspension shall continue until the cause is removed. Such action shall be reported immediately to the town council. Such suspension, when written notice thereof is received by the licensee or any person in charge of the place of business, shall place the licensee in the same position as if he had never obtained a license. Any such license shall, further, be immediately suspended upon the failure of the licensee to comply with section 54-259 of article IV of chapter 54 pertaining to the transient occupancy tax or section 54-301 of article V of chapter 54 pertaining to the meals tax.

(Code 1977, § 10-13; Ord. of 8-5-1996)

### **Sec. 18-43. Expiration.**

All licenses issued pursuant to this article shall expire on December 31 of each year, except where it is otherwise specifically provided.

(Code 1977, § 10-14)

### **Sec. 18-44. Nonresident businesses, trades or occupations.**

It is the declared intent of the town to avoid either discrimination or protective license taxation as it affects any business, trade or occupation, regardless of location or type of transaction, and to this end businesses, trades or occupations carried on in part within the town, but having no regularly constituted place of business in the town, shall be subject to equal conditions and equal rates of license taxation as those businesses, trades or occupations having a regularly constituted place of business within the town. For nonresident businesses, trades or occupations, the license tax liability shall be measured by only that portion of the business, trade or occupation carried on within the town.

(Code 1977, § 10-15)

### **Sec. 18-45. Tax imposed on privilege of doing business.**

However, such portion of the license tax as the period between the first day of the year and the date of issuing the license shall bear to the whole year shall be deducted from the license tax to be assessed against the person for the privilege of doing the same business for the ensuing year when the tax becomes payable, and in computing the license tax, no deduction shall be made there from for any fractional part of a month. This section shall not apply to any gross receipts licenses issued under this article or to any license tax computed upon the amount of sales or contracts made or done by the licensee during the preceding year, nor shall this section apply to any such license taxes, the proration of which is expressly prohibited under other sections of this article.

(Code 1977, § 10-21)

### **Sec. 18-50. Due date of tax.**

All license taxes imposed by this article shall be deemed to be due and payable on or before April 30 of each license year by persons who had a license for the preceding year. ## BUSINESSES

### **Sec. 18-52. Oath of applicant.**

Every person liable for a license tax under this article, based upon the amount of his actual gross receipts or graduated in any other way, shall, before he shall be granted a certificate for obtaining such license, be required to make oath in writing before a notary public or the town manager upon the forms to be prepared by the town manager, stating his business, occupation or profession or any other matter that may be pertinent to the assessment of the tax on such license. For an incorporated company, such oath shall be made by the chief officers or agent resident in the town or in charge of the business of the company, and for firms by any member thereof.

(Code 1977, § 10-24)

### **Sec. 18-53. Assessment of additional license taxes.**

Whenever the town manager shall ascertain that any person shall be assessed with an additional license tax pursuant to this article, it shall be his duty to assess such person with such additional license tax. The town manager shall mail a copy of such assessment to the person against whom assessed and distribution of copies shall be further made as provided in subsection 18-37(b). If the additional license tax so assessed shall not have been paid within 30 days after such assessment, the town manager shall proceed to collect the license tax as delinquent taxes.

(Code 1977, § 10-25)

### **Sec. 18-54. Records required on gross receipts.**

(a) Every person liable for a license tax under this article, which is based on gross receipts, shall keep all records necessary to show and compute such gross receipts, and the report of the gross receipts shall be taken from such records. All such records and general books of account shall be open to inspection and examination by any authorized town representative.

(b) Each person subject to a license shall apply no later than March 1 of the license year to the town manager if he had been issued a license for the preceding year and shall at such time submit a report of his gross receipts of the preceding year if such license is based upon gross receipts.

(c) If any licensee shall fail to maintain the records required in this section, the proper town enforcement officer is authorized and directed to estimate the taxpayer's gross receipts on the basis of the best evidence he can obtain, and the town manager shall make an assessment on the basis of such determination.

(Code 1977, § 10-26; Ord. of 8-5-1996 (b))

### **Sec. 18-55. Gross receipts records.**

(a) *Town's authority to audit and examine.* The town shall have the right and authority to audit and examine any return or report of gross receipts and/or purchases from any business, occupation or profession. In connection with such audit, the town is further authorized and empowered to examine the records, books and papers of any person required by this article to have a license.

## CHINCOTEAGUE CODE

(b) *Failure to produce.* The penalties for failure to produce gross receipts records as required shall be as follows:

- (1) Any person who shall be liable for a license tax measured upon gross receipts shall, upon request of the town council, produce and exhibit to the manager at the manager's office his records, books and papers pertaining to the gross receipts of such person. Any person failing to produce his records, books and papers upon request of the town council shall, in addition to any other liability imposed, suffer an immediate revocation of his license, if already issued, and, if not already issued, no such license shall be issued unless or until such person shall have produced and exhibited to the town manager at the manager's office his records, books and papers pertaining to his gross receipts and unless or until such person shall have fully complied with the other sections of this article.
- (2) Any person who shall refuse to permit the town to examine and audit his records, books and papers pertaining to the gross receipts of such person shall be guilty of a violation of this article.

(Code 1977, §§ 10-27, 10-28; Ord. of 8-5-1996, § 10-27)

### **Sec. 18-56. Penalty for late payment and/or late application.**

A penalty of ten percent of the license tax may be imposed upon the failure to file an application or the failure to pay the tax by the appropriate due date. Only the late filing penalty shall be imposed by the assessing official if both the application and payment are late; however, both penalties may be assessed if the assessing official determines that the taxpayer has a history of noncompliance. For an assessment of additional tax made by the assessing official, if the application and, if applicable, the return were made in good faith and the understatement of the tax was not due to any fraud or reckless or intentional disregard of the law by the taxpayer, there shall be no late penalty assessed with the additional tax. If any assessment of the tax by the assessing official is not paid within 30 days, the treasurer or other collecting official may impose a ten-percent late payment penalty. If the failure to file or pay was not the fault of the taxpayer, the penalties shall not be imposed or, if imposed, shall be abated by the official who assessed them. In order to demonstrate lack of fault, the taxpayer must show that he acted responsibly and that the failure was due to events beyond his control. (Code 1977, § 10-29; Ord. of 8-5-1996)

### **Sec. 18-57. Appeals and rulings.**

(a) Any person assessed with a local license tax as a result of an audit may apply within 90 days from the date of such assessment to the assessor for a correction of the assessment. The application must be filed in good faith and shall sufficiently identify the taxpayer, audit period, remedy sought, each alleged error in the assessment, the grounds upon which the taxpayer relies, and any other facts relevant to the taxpayer's contention. The assessor may hold a conference with the taxpayer, if requested by the taxpayer, or require submission of additional information and documents, a further audit, or other evidence deemed necessary for a proper equitable determination of the application. The assessment shall be deemed prima facie correct. The assessor shall undertake a full review of the taxpayer's claims and shall issue a determination to the taxpayer setting forth its position. Every assessment pursuant to an audit shall be accompanied by a written explanation of the taxpayer's right to

## BUSINESSES

seek correction and the specific procedure to be followed in the jurisdiction (e.g., the name and address to which an application should be directed).

(b) Provided a timely and complete application is made, collection activity shall be suspended until a final determination is issued by the assessor, unless the assessor determines that collection would be jeopardized by delay or that the taxpayer has not responded to a request for relevant information after a reasonable time. Interest shall accrue in accordance with the provisions of Code of Virginia, § 58.1-3703.1(A)(2)e, but no further penalty shall be imposed while collection action is suspended. The term 'Jeopardized by delay' includes a finding that the application is frivolous or that a taxpayer desires to (i) depart quickly from the locality, (ii) remove his property there from, (iii) conceal himself or his property therein, or (iv) do any other act tending to prejudice, or to render wholly or partially ineffectual, proceedings to collect the tax for the period in question.

(c) Any person assessed with a local license tax as a result of an audit may apply within 90 days of the determination by the assessing official on an application pursuant to subsection (a) of this section to the tax commissioner for a correction of such assessment. The tax commissioner shall issue a determination to the taxpayer within 90 days of receipt of the taxpayer's application, unless the taxpayer and the assessing official are notified that a longer period will be required. The application shall be treated as an application pursuant to Code of Virginia, § 58.1-1821, and the tax commissioner may issue an order correcting such assessment pursuant to Code of Virginia, § 58.1-1822. Following such an order, either the taxpayer or the assessing official may apply to the appropriate circuit court pursuant to Code of Virginia, § 58-1-3984. However, the burden shall be on the party making the application to show that the ruling of the tax commissioner is erroneous. Neither the tax commissioner nor the state department of taxation shall be made a party to an application to correct an assessment merely because the tax commissioner has ruled on it.

(d) On receipt of a notice of intent to file an appeal to the tax commissioner under subsection (c) of this section, the assessing official shall further suspend collection activity until a final determination is issued by the tax commissioner, unless the assessor determines that collection would be jeopardized by delay or that the taxpayer has not responded to a request for relevant information after a reasonable time. Interest shall accrue in accordance with the provisions of Code of Virginia, § 58.1-3703.1(A)(2)e, but no further penalty shall be imposed while collection action is suspended. The term 'jeopardized by delay' shall have the same meaning as set forth in subsection (b) of this section.

(e) Any taxpayer may request a written ruling regarding the application of a local license tax to a specific situation from the assessor. Any person requesting such a ruling must provide all the relevant facts for the situation and may present a rationale for the basis of an interpretation of the law most favorable to the taxpayer. Any misrepresentation or change in the applicable law or the factual situation as presented in the ruling request shall invalidate any such ruling issued. A written ruling may be revoked or amended prospectively if (i) there is a change in the law, a court decision, or the guidelines issued by the state department of taxation upon which the ruling was based on; or (ii) the assessor notifies the taxpayer of a change in the policy or interpretation upon which the ruling was based. However, any person who acts on a written ruling, which later becomes invalid shall be deemed to have acted in good faith during the period in which such ruling was in effect.

## **ARTICLE I. GENERAL PROVISIONS**

### **Sec. 30-1. Purpose.**

The purpose of these provisions is to prevent the loss of life and property, the creation of health and safety hazards, the disruption of commerce and governmental services, the extraordinary and unnecessary expenditure of public funds for flood protection and relief, and the impairment of the tax base by:

- (a) regulating uses, activities, and development which, alone or in combination with other existing or future uses, activities, and development, will cause unacceptable increases in flood heights, velocities, and frequencies.
- (b) restricting or prohibiting certain uses, activities, and development from locating within districts subject to flooding.
- (c) requiring all those uses, activities, and developments that do occur in flood-prone districts to be protected and/or flood-proofed against flooding and flood damage.
- (d) protecting individuals from buying land and structures which are unsuited for intended purposes because of flood hazards.

### **Sec. 30-2. Applicability.**

These provisions shall apply to all lands within the jurisdiction of the town and identified as being in the 100-year floodplain by the Federal Insurance Administration.

### **Sec. 30-3. Compliance and liability.**

- (a) No land shall hereafter be developed and no structure shall be located, relocated, constructed, reconstructed, enlarged, or structurally altered except in full compliance with the terms and provisions of this ordinance and any other applicable ordinances and regulations which apply to uses within the jurisdiction of this ordinance.
- (b) The degree of flood protection sought by the provisions of this ordinance is considered reasonable for regulatory purposes and is based on acceptable engineering methods of study. Larger floods may occur on rare occasions. Flood heights may be increased by man-made or natural causes, such as ice jams and bridge openings restricted by debris. This ordinance does not imply that districts outside the floodplain district, or that land uses permitted within such district, will be free from flooding or flood damages.
- (c) Records of actions associated with administering this ordinance will be kept on file and maintained by the zoning administrator.
- (d) This ordinance shall not create liability on the part of the town or any officer or employee thereof for any flood damages that result from reliance on this ordinance or any administrative decision lawfully made thereunder.

### **Sec. 30-4. Abrogation and greater restrictions.**

## FLOODS

This ordinance supersedes any ordinance currently in effect in flood-prone districts. However, any underlying ordinance shall remain in full force and effect to the extent that its provisions are more restrictive than this ordinance.

### **Sec. 30-5. Severability.**

If any section, subsection, paragraph, sentence, clause, or phrase of this ordinance shall be declared invalid for any reason whatever, such decision shall not affect the remaining portions of this ordinance. The remaining portions shall remain in full force and effect; and for this purpose, the provisions of this ordinance are hereby declared to be severable.

### **Sec. 30-6. Reserved.**

## ARTICLE II. FLOODPLAIN MANAGEMENT

### **Sec. 30-7. Definitions.**

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

*Base flood*, means the flood having a one percent chance of being equaled or exceeded in any given year.

*Base flood elevation* means the Federal Emergency Management Agency designated one hundred (100)-year water surface elevation.

*Basement* means any area of the building having its floor sub-grade (below ground level) on all sides.

*Board of Zoning Appeals* means the board appointed to review appeals made by individuals with regard to decisions of the Zoning Administrator in the interpretation of this ordinance.

*Breakaway wall* means a wall that is not part of the structural support of the building and is intended through its design and construction to collapse under specific lateral loading forces, without causing damage to the elevated portion of the building or supporting foundation system.

*Coastal high hazard area* means a special flood hazard area extending from offshore to the inland limit of a primary frontal dune along an open coast and any other area subject to high velocity wave action from storms or seismic sources.

*Development* means any man-made change to improved or unimproved real estate, including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations or storage of equipment or materials.

## CHINCOTEAGUE CODE

*Elevated building* means a non-basement building built to have the lowest floor elevated above the ground level by means of fill, solid foundation perimeter walls, pilings, or columns (posts and piers).

*Flood or flooding* means:

(1) A general or temporary condition of partial or complete inundation of normally dry land areas from:

(a) the overflow of inland or tidal waters; or,

(b) the unusual and rapid accumulation or runoff of surface waters from any source.

(2) The collapse or subsistence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature such as flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event which results in flooding as defined in paragraph 1(a) of this definition.

*Floodplain or flood-prone area* means any land area susceptible to being inundated by water from any source.

*Freeboard* means a factor of safety usually expressed in feet above a flood level for purposes of floodplain management. “Freeboard” tends to compensate for the many unknown factors that could contribute to flood heights greater than the height calculated for a selected size flood and floodway conditions, such as wave action, bridge openings, and the hydrological effect of urbanization in the watershed.

*Fuel oil tank* means any container greater than 10 gallons used for storage of fuel oil.

*Historic structure* means any structure that is:

(1) listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;

(2) certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;

(3) individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or,

(4) individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either:

(a) by an approved state program as determined by the Secretary of the Interior; or,

## FLOODS

(b) directly by the Secretary of the Interior in states without approved programs.

*Lowest floor* means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood-resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided, that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of Federal Code 44CFR §60.3.

*Manufactured home* means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes the term manufactured home also includes park trailers, travel trailers, and other similar vehicles placed on a site for greater than 180 consecutive days.

*New construction* means for the purposes of determining insurance rates, structures for which the "start of construction" commenced on or after the effective date of an initial Flood Insurance Rate Map on or after December 31, 1974, whichever is later, and includes any subsequent improvements to such structures. For floodplain management purposes, new construction means structures for which start of construction commenced on or after the effective date of a floodplain management regulation adopted by a community and includes any subsequent improvements to such structures.

*Propane or liquefied petroleum gas tank* means a container greater than 50 pounds used for the storage of propane.

*Recreational vehicle* means a vehicle which is:

- (1) built on a single chassis;
- (2) 400 square feet or less when measured at the largest horizontal projection;
- (3) designed to be self-propelled or permanently towable by a light duty truck; and,
- (4) designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational camping, travel, or seasonal use.

*Special flood hazard area* means the land in the floodplain subject to a one (1%) percent or greater chance of being flooded in any given year as determined in Article III, Section 30-10 of this ordinance.

*Start of construction* means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, substantial improvement or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation on the property of accessory

## CHINCOTEAGUE CODE

buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of the construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

*Substantial damage* means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before-damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

*Substantial improvement* means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before the start of construction of the improvement. This term includes structures which have incurred substantial damage regardless of the actual repair work performed. The term does not, however, include either:

(1) any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions, or

(2) any alteration of a historic structure, provided that the alteration will not preclude the structure's continued designation as a historic structure.

**Sec. 30-8. Reserved.**

## ARTICLE III. ESTABLISHMENT OF ZONING DISTRICTS

**Sec. 30-9. Description of districts.**

(a) Basis of Districts - The various floodplain districts shall include areas subject to inundation by waters of the one hundred (100)-year flood. The basis for the delineation of these districts shall be the Flood Insurance Study (FIS) for the Town prepared by the Federal Emergency Management Agency, Federal Insurance Administration, dated June 1, 1984, as amended.

(1) The Coastal Floodplain District shall be those areas identified as coastal AE or A1-30 Zones on the maps accompanying the Flood Insurance Study. Flood elevations are provided in these tidal floodplains; however, floodway data is not applicable.

(2) The Coastal High Hazard District shall be those areas identified as V1— V30, VE, or V Zones on the maps accompanying the Flood Insurance Study.

(b) Overlay Concept

(1) The Floodplain Districts described above shall be overlays to the existing underlying districts as shown on the Official Zoning Ordinance Map, and as such, the

## FLOODS

provisions for the floodplain districts shall serve as a supplement to the underlying district provisions.

(2) Any conflict between the provisions or requirements of the Floodplain Districts and those of any underlying district, the more restrictive provisions and/or those pertaining to the floodplain districts shall apply.

(3) In the event any provision concerning a Floodplain District is declared inapplicable as a result of any legislative or administrative actions or judicial decision, the basic underlying provisions shall remain applicable.

### **Sec. 30-10. Official floodplain map.**

The boundaries of the Special Flood Hazard Area and Floodplain Districts are established as shown on the Flood Boundary and Floodway Map and/or Flood Insurance Rate Map which is declared to be a part of this ordinance and which shall be kept on file at the town offices.

### **Sec. 30-11. District boundary changes.**

The delineation of any of the Floodplain Districts may be revised by the town where natural or man-made changes have occurred and/or where more detailed studies have been conducted or undertaken by the U. S. Army Corps of Engineers or other qualified agency, or an individual documents the need for such change. However, prior to any such change, approval must be obtained from the Federal Insurance Administration.

### **Sec. 30-12. Interpretation of district boundaries.**

Initial interpretations of the boundaries of the Floodplain Districts shall be made by the Zoning Officer. Should a dispute arise concerning the boundaries of any of the Districts, the Board of Zoning Appeals shall make the necessary determination. The person questioning or contesting the location of the District boundary shall be given a reasonable opportunity to present his case to the Board and to submit his own technical evidence if he so desires.

### **Sec. 30-13. Reserved.**

## **ARTICLE IV. DISTRICT PROVISIONS**

### **Sec. 30-14. Permit and application requirements.**

(a) Permit Requirement - All uses, activities, and development occurring within any floodplain district shall be undertaken only upon the issuance of a zoning permit. Such development shall be undertaken only in strict compliance with the provisions of the ordinance and with all other applicable codes and ordinances, as amended and the town subdivision regulations. Prior to the issuance of any such permit, the zoning officer shall require all applications to include compliance with all applicable state and federal laws.

## CHINCOTEAGUE CODE

(b) Site Plans and Permit Applications - All applications for development within any floodplain district and all building permits issued for the floodplain shall incorporate the following information:

(1) For structures to be elevated, the elevation of the lowest floor (including basement).

(2) For structures to be flood-proofed (non-residential only), the elevation to which the structure will be flood-proofed.

(3) The elevation of the one hundred (100)-year flood.

(4) Topographic information showing existing and proposed ground elevations.

### **Sec. 30-15. General standards.**

In all special flood hazard areas the following provisions shall apply:

(a) New construction and substantial improvements shall be anchored to prevent flotation, collapse or lateral movement of the structure.

(b) Manufactured homes shall be anchored to prevent flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This standard shall be in addition to and consistent with applicable state requirements for resisting wind forces.

(c) New construction and substantial improvements shall be constructed with materials and utility equipment resistant to flood damage.

(d) New construction or substantial improvements shall be constructed by methods and practices that minimize flood damage.

(e) Electrical, heating, ventilation, plumbing, air conditioning equipment and other service facilities, including duct work, shall be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

(f) New and replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system.

(g) New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters.

(h) On-site waste disposal systems shall be located and constructed to avoid impairment to them or contamination from them during flooding.

## FLOODS

(i) Any alteration, repair, reconstruction or improvements to a building that is in compliance with the provisions of this ordinance shall meet the requirements of “new construction” as contained in this ordinance.

(j) Any alteration, repair, reconstruction or improvements to a building that is not in compliance with the provisions of this ordinance, shall be undertaken only if said non-conformity is not furthered, extended, or replaced.

### **Sec. 30-16. Specific standards.**

In all special flood hazard areas the following provisions shall apply:

(a) Residential Construction - New construction or substantial improvement of any residential structure (including manufactured homes) shall have the lowest floor, including basement, elevated no lower than base flood elevation.

(b) Non-Residential Construction - New construction or substantial improvement of any commercial, industrial, or non-residential building (or manufactured home) shall have the lowest floor, including basement, elevated to no lower than base flood elevation.

(c) Elevated Buildings - Enclosed areas, of new construction or substantially improved structures, which are below the regulatory flood protection elevation shall:

(1) not be designed or used for human habitation, but shall only be used for parking of vehicles, building access, or limited storage of maintenance equipment used in connection with the premises. Access to the enclosed area shall be the minimum necessary to allow for parking of vehicles (garage door) or limited storage of maintenance equipment (standard exterior door), or entry to the living area (stairway or elevator). The interior portion of such enclosed area shall not be partitioned or finished into separate rooms, except to enclose storage areas;

(2) be constructed entirely of flood resistant materials below the regulatory flood protection elevation;

(3) in the Coastal High Hazard District, follow the standards for elevation outlined in Article IV, Section 30-18.

(4) include, in Zones AE, and A1-30, measures to automatically equalize hydrostatic flood forces on walls by allowing for the entry and exit of flood waters. To meet this requirement, the openings must either be certified by a professional engineer or architect or meet the following minimum design criteria:

(a) Provide a minimum of two openings on different sides of each enclosed area subject to flooding.

(b) The total net area of all openings must be at least one (1) square inch for each square foot of enclosed area subject to flooding.

## CHINCOTEAGUE CODE

(c) If a building has more than one enclosed area, each area must have openings to allow flood waters to automatically enter and exit.

(d) The bottom of all required openings shall be no higher than one (1) foot above the adjacent grade.

(e) Openings may be equipped with screens, louvers, or other opening coverings or devices, provided they permit the automatic flow of flood waters in both directions.

(f) Foundation enclosures made of flexible skirting are not considered enclosures for regulatory purposes, and, therefore, do not require openings. Masonry or wood underpinning, regardless of structural status, is considered an enclosure and requires openings as outlined above.

### (d) Standards for Manufactured Homes and Recreational Vehicles

(1) All manufactured homes placed, or substantially improved, on individual lots or parcels, in expansions to existing manufactured home parks or subdivisions, in a new manufactured home park or subdivision or in substantially improved manufactured home parks or subdivisions, must meet all the requirements for new construction, including elevation and anchoring.

(2) All manufactured homes placed or substantially improved in an existing manufactured home park or subdivision must be elevated so that:

(a) the lowest floor of the manufactured home is elevated no lower than base flood elevation; or,

(b) the manufactured home chassis is supported by reinforced piers or other foundation elements of at least an equivalent strength, of no less than 36 inches in height above the grade;

(c) the manufactured home must be securely anchored to the adequately anchored foundation system to resist flotation, collapse and lateral movement;

(d) in an existing manufactured home park or subdivision on which a manufactured home has incurred "substantial damage," any manufactured home placed or substantially improved must meet the standards of Article IV, Section 30-16(d)(2)(a), (b) and (c) above.

(3) All recreational vehicles placed on sites must either:

(a) be on the site for fewer than 180 consecutive days;

(b) be fully licensed and ready for highway use (a recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions); or,

## FLOODS

(c) meet all the requirements for new construction, including anchoring and elevation requirements of Article IV, Section 30-16(d)(1) or (2)(a) and (c), above.

### **Sec. 30-17. Standards for subdivision proposals.**

(a) All subdivision proposals shall be consistent with the need to minimize flood damage;

(b) All subdivision proposals shall have public utilities and facilities such as sewer, gas, electrical and water systems located and constructed to minimize flood damage;

(c) All subdivision proposals shall have adequate drainage provided to reduce exposure to flood hazards, and

(d) Base flood elevation data shall be provided for subdivision proposals and other proposed development proposals (including manufactured home parks and subdivisions) that exceed fifty lots or five acres, whichever is the lesser.

### **Sec. 30-18. Standards for the coastal high hazard district.**

The following provisions shall apply within the Coastal High Hazard District:

(a) All new construction and substantial improvements in Zones V1—V30 and VE (V if base flood elevation is available) shall be elevated on pilings or columns so that:

(1) the bottom of the lowest horizontal structural member of the lowest floor (excluding the pilings or columns) is elevated to or above the base flood level (recommend  $\geq$  one foot freeboard); and,

(2) the pile or column foundation and structure attached thereto is anchored to resist flotation, collapse, and lateral movement due to the effects of wind and water loads acting simultaneously on all building components. Wind and water loading values shall each have a one percent chance of being equaled or exceeded in any given year (one-percent annual chance).

(b) A registered professional engineer or architect shall develop or review the structural design, specifications and plans for the construction, and shall certify that the design and methods of construction to be used are in accordance with accepted standards of practice for meeting the provisions of Article IV, Section 30-18(a).

(c) Obtain the elevation (in relation to mean sea level) of the bottom of the lowest horizontal structural member of the lowest floor (excluding pilings and columns) of all new and substantially improved structures in Zones V1—V30 and VE. The Floodplain Management Administrator shall maintain a record of all such information.

(d) All new construction shall be located landward of the reach of mean high tide.

## CHINCOTEAGUE CODE

(e) Provide that all new construction and substantial improvements have the space below the lowest floor either free of obstruction or constructed with non-supporting breakaway walls, open wood-lattice work, or insect screening intended to collapse under wind and water loads without causing collapse, displacement, or other structural damage to the elevated portion of the building or supporting foundation system. For the purpose of this section, a breakaway wall shall have a design safe loading resistance of not less than 10 and no more than 20 pounds per square foot. Use of breakaway walls which exceed a design safe loading resistance of 20 pounds per square foot (either by design or when so required by local codes) may be permitted only if a registered professional engineer or architect certifies that the designs proposed meet the following conditions:

(1) Breakaway wall collapse shall result from water load less than that which would occur during the base flood; and

(2) The elevated portion of the building and supporting foundation system shall not be subject to collapse, displacement, or other structural damage due to the effects of wind and water loads acting simultaneously on all building components (structural and nonstructural). Maximum wind and water loading values to be used in this determination shall each have a one percent chance of being equaled or exceeded in any give year.

(f) The enclosed space below the lowest floor shall be useable solely for parking of vehicles, building access, or storage. Such space shall not be partitioned into multiple rooms, temperature-controlled, or used for human habitation.

(g) Prohibit the use of fill for structural support of buildings. When fill is proposed in a coastal high hazard area, appropriate engineering analyses shall be conducted to evaluate the impacts of the fill prior to issuance of a development permit.

(h) Prohibit man-made alteration of sand dunes which would increase potential flood damage.

(i) All manufactured homes to be placed or substantially improved within Zones V1—V30, V, and VE on the town's Flood Insurance Rate Map on sites must meet the standards of Article IV, Section 30-18(a) through (h) and that manufactured homes placed or substantially improved on other sites in an existing manufactured home park or subdivision with Zones V1—V30, V, and VE on the Flood Insurance Rate Map meet the requirements of Article IV, Section 30-16(e)(1) and (2), if they are located:

(1) outside of a manufactured home park or subdivision,

(2) in a new manufactured home park or subdivision,

(3) in an expansion to an existing manufactured home park or subdivision, or

(4) in an existing manufactured home park or subdivision in which a manufactured home has incurred "substantial damage."

## FLOODS

(j) Recreational vehicles placed on sites within Zones V1—V30, V, and VE on the community's Flood Insurance Rate Map must either:

(1) be on the site for fewer than 180 consecutive days,

(2) be fully licensed and ready for highway use, on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices, and has no permanently attached additions; or,

(3) meet the requirements of Article IV, Section 30-14 and Article IV, Section 30-18(a) through (h).

### **Sec. 30-19. Anchoring fuel tanks.**

(a) All new, replaced, or existing oil, and propane tanks must be anchored against floatation, collapse and lateral movement under flood conditions by means of an approved anchorage system or shall be installed at or above base flood elevation and shall be set upon a firm foundation and supports to prevent floatation, collapse and lateral movement under flood conditions. It shall be unlawful to fill or refill any such tank that is not so anchored or elevated.

(b) All new, replaced, or existing oil tanks shall have their vent pipe extended at least three feet above the top most portion of the body of the tank. This provision shall also apply to substantial improvement buildings and buildings experiencing repetitive loss.

(c) All new, replaced, or existing oil tanks must all be fitted with a fill tube screw-on tight-fit cap with gasket.

(d) This section shall be effective November 4, 2010 for existing or replaced fuel tanks.  
*(Amended 4/7/08)*

(e) Any person violating the provision of this section shall, upon conviction, be guilty of a class 4 misdemeanor and be punished by a fine of not more than two hundred and fifty dollars (\$250.00). Each day in violation shall constitute a separate offense.  
*(Adopted 11/5/07)*

## ARTICLE V. VARIANCES

### **Sec. 30-20. Factors to be considered.**

In passing upon applications for variances, the board of zoning appeals shall satisfy all relevant factors and procedures specified in other sections of the zoning ordinance and consider the following additional factors:

(a) The showing of good and sufficient cause.

## CHINCOTEAGUE CODE

(b) The danger to life and property due to increased flood heights or velocities caused by encroachments. No variance shall be granted for any proposed use, development, or activity within any Floodway District that will cause any increase in the one hundred (100)-year flood elevation.

(c) The danger that materials may be swept on to other lands or downstream to the injury of others.

(d) The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination, and unsanitary conditions.

(e) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owners.

(f) The importance of the services provided by the proposed facility to the community.

(g) The requirements of the facility for a waterfront location.

(h) The availability of alternative locations not subject to flooding for the proposed use.

(i) The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.

(j) The relationship of the proposed use to the comprehensive plan and floodplain management program for the area.

(k) The safety of access by ordinary and emergency vehicles to the property in time of flood.

(l) The expected heights, velocity, duration, rate of rise, and sediment transport of the flood waters expected at the site.

(m) The repair or rehabilitation of historic structures upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and the variance is the minimum necessary to preserve the historic character and design of the structure.

(n) Such other factors which are relevant to the purposes of this ordinance.

All applicants must obtain documentation pertaining to the request for a variance from a Virginia certified engineer to evaluate the proposed project in relation to flood heights and velocities, and the adequacy of the plans for flood protection and other related matters prior to referring such to the board of zoning appeals.

Variances shall be issued only after the board of zoning appeals has determined that the granting of such will not result in (a) unacceptable or prohibited increases in flood heights, (b) additional threats to public safety, (c) extraordinary public expense; and will not (d)

## **FLOODS**

create nuisances, (e) cause fraud or victimization of the public, or (f) conflict with local laws or ordinances.

Variances shall be issued only after the board of zoning appeals has determined that the variance will be the minimum required to provide relief from exceptional hardship to the applicant.

The board of zoning appeals shall notify the applicant for a variance, in writing, that the issuance of a variance to construct a structure below the one hundred (100)-year flood elevation (a) increases the risks to life and property and (b) will result in increased premium rates for flood insurance.

A record shall be maintained of the above notification as well as all variance actions, including justification for the issuance of the variances. Any variances that are issued shall be noted in the annual or biennial report submitted to the Federal Insurance Administrator.

## **ARTICLE VI. ENACTMENT**

### **Sec. 34-1. Issuance and service of summons in place of warrant.**

(a) Whenever any person is detained by or is in the custody of an arresting officer for any violation committed in such officer's presence, which offense is a violation of any town ordinance or of any section of this Code punishable as a class 2 misdemeanor or any other misdemeanor for which he may receive a jail sentence, except as otherwise provided in Code of Virginia, tit. 46.2 or Code of Virginia, § 18.2-266, or an arrest on a warrant charging an offense for which a summons may be issued, and when specifically authorized by the judicial officer issuing the warrant, the arresting officer shall take the name and address of such person and issue a summons or otherwise notify him in writing to appear at a time and place to be specified in such summons or notice. Upon the giving by such person of his written promise to appear at such time and place, the officer shall forthwith release him from custody. However, if any such person shall fail or refuse to discontinue the unlawful act, the officer may proceed according to the provisions of Code of Virginia, § 19.2-82.

(b) Anything in this section to the contrary notwithstanding, if any person is believed by the arresting officer to be likely to disregard a summons issued under subsection (a) of this section or if any person is reasonably believed by the arresting officer to be likely to cause harm to himself or to any other person, a magistrate or other issuing authority having jurisdiction shall proceed according to the provisions of Code of Virginia, § 19.2-82.

(c) Whenever any person is detained by or is in the custody of an arresting officer for a violation of any town ordinance or of any section of this Code, punishable as a class 3 or class 4 misdemeanor or any other misdemeanor for which he cannot receive a jail sentence, except as otherwise provided in Code of Virginia, tit. 46.2, the arresting officer shall take the name and address of such person and issue a summons or otherwise notify him in writing to appear at a time and place to be specified in such summons or notice. Upon the giving of such person of his written promise to appear at such time and place, the officer shall forthwith release him from custody. However, if any such person shall fail or refuse to discontinue the unlawful act, the officer may proceed according to the provisions of Code of Virginia, § 19.2-82.

(d) Any person so summoned shall not be held in custody after the issuance of such summons for the purpose of complying with the requirements of Code of Virginia, § 19.2-387 et seq. For the purposes of this article any device defined under § 46.2-100 as a bicycle or a moped shall be deemed not to be a motor vehicle.

**(Amended 09-02-03)**

### **Sec. 58-197. Purpose.**

(a) The purpose of this article is to prevent the accumulation of inoperable motor vehicles or parts thereof, in unapproved and inappropriate locations throughout the incorporated territory of the town, inasmuch as they constitute an unsightly, obnoxious and

## CHINCOTEAGUE CODE

unsanitary condition within such territory. The presence of such inoperable motor vehicles increases the danger of the spread of certain communicable diseases by providing a breeding place for rats, mice and other known disease carriers and otherwise constitutes a condition detrimental to the mental and general well-being of the town citizens and is declared a public nuisance.

(b) It is, therefore, determined and council so finds, that it is imperative for the preservation of health, safety, peace and the general public welfare that these provisions concerning inoperable motor vehicles be adopted requiring property owners, tenants, lessees or persons otherwise in control or possession of real estate to remove such inoperable motor vehicles from their premises.

(Code 1977, § 11-33; Ord. of 6-2-1980 (a)) (*Amended 09-02-03*)

### **Sec. 58-198. Restrictions; exemptions; removal and cost.**

(a) It shall be unlawful for any person, except as expressly provided herein, to keep on any real property within the town zoned for residential, commercial or agricultural purposes, any inoperable motor vehicle. A person may keep any number of inoperable motor vehicles within a fully enclosed building or structure, or may keep up to a maximum of two (2) motor vehicles outside a fully enclosed building or structure, but which are shielded or screened from view as provided for herein.

(b) The keeping and/or use of inoperable trailers or semi-trailers shall be regulated by applicable provisions of the town zoning provisions and inoperable trailers or semi-trailers are not regulated hereunder.

(c) Any such person shall have ten (10) days to remove any such inoperable motor vehicle after it becomes inoperable as provided for herein.

(d) This article VII shall not apply to a lawfully licensed and zoned business which is regularly engaged in business as an automotive dealer, salvage dealer, scrap processor, or commercial garage.

(e) The owner of any such real property on which any such inoperable motor vehicle is located contrary to the provisions of this article, shall be notified of such violation by registered or certified mail, return receipt requested, mailed to the last known address of such owner as shown on the current real estate tax books of the town. If, after fifteen (15) days from the date of actual receipt of such notice by the owner of said real property, or twenty (20) days after the date of mailing, whichever shall first occur, the owner of such real property has failed to remove said inoperable motor vehicle, the town, acting through its agents or employees, may enter onto such real property and remove such inoperable motor vehicle and dispose of same as hereinafter provided.

(f) After removal of any such inoperable motor vehicle pursuant to subsection (e) hereof, the town through its agents or employees may dispose of such inoperable motor vehicle, after giving a further notice as provided in subsection (e) hereof to the owner of such inoperable motor vehicle, and the failure of the owner to pay all costs attributable to such removal within five (5) days of the completion of such notice. If the owner of the inoperable motor vehicle cannot be determined by investigation through the State

## TRAFFIC AND VEHICLES

Department of Motor Vehicles or the comparable state agency in which said inoperable motor vehicle is registered, or such cannot be reasonably ascertained from the inoperable motor vehicle, or from the owner of said property from which it was removed, no such additional notice to the owner of the inoperable motor vehicle shall be required.

(g) The cost of any such removal and disposal shall be chargeable to the owner of the real property from which removed, and/or the owner of the inoperable motor vehicle, and may be collected by the town as taxes and levies are collected. Any amount which may be realized by the town from the sale of any such inoperable motor vehicle shall be applied to such costs.

(h) Every cost authorized by this section with which the owner of the premises from which an inoperable motor vehicle is removed shall be assessed, shall constitute a lien against the property from which the inoperable motor vehicle was removed, such lien to continue until actual payment of such costs have been made to the town.

(Code 1977, § 11-35; Ord. of 4-19-2001) (*Amended 09-02-03*)

### **Sec. 58-199. Penalty.**

Any person violating the provisions of this article shall, upon conviction, be guilty of a class 4 misdemeanor and be punished by a fine of not more than Two Hundred and Fifty Dollars (\$250.00). Each day in violation shall constitute a separate offense.

(Code 1977, § 11-35; Ord. of 4-19-2001) (*Amended 09-02-03*)

### **Sec. 58-200. Enabling authority.**

This article is enacted pursuant to the provisions of § 15.2-904 of the Code of Virginia of 1950, as amended. In the event of any conflict between the terms and provisions hereof and § 15.2-904, the provisions of § 15.2-904 shall control. (*Adopted 09-02-03*)

(5) Adjustments are made through the date that the repairs are made and inspected by the town to that of the corresponding quarter of the previous year.

(6) Once an adjustment has been made, no further adjustment shall be considered for the same system for a period of five years. A system is defined as one meter or account number.

being jointly owned through an association or other legal vehicle. The meter shall be placed on the parcel of the structure being served.

(c) Multiple, single-family detached dwellings or detached rental units on a single parcel and under singular ownership and without property division, such as rental trailer parks and campgrounds, shall be served with one meter and service connection on the same single parcel of the structures being served.

(d) Multiple, single-family connected dwellings on individual and separate parcels and under individual ownership, such as town homes, duplexes, and triplexes, shall have individual meters and service connections serving and located on each of the parcels.

(e) Parcels which are leased for a period in excess of one year shall be considered under ownership of the lessee and, therefore, shall comply with the requirements of subsection (a) of this section.

(Code 1977, § 15-4-1; Ord. of 4-5-1999, § 15-4-1)

### **Sec. 62-87. Service connection requirements.**

(a) Each parcel requiring a service connection to the water system shall be adjacent to a water main. Where properties are not adjacent to a water main, the following shall apply:

- (1) The water system (nearest main) shall be extended at the expense of the property owner and in accordance with the requirements of section 62-88.
- (2) A parcel may be served from a meter and connection located on the property of others, provided that the parcel owner has a recorded perpetual easement granted by the other property owner which provides for the installation and maintenance of the water meter and service line between the town's water main and the parcel to be served. The minimum width of such easement shall be five feet. The use of easements as described in this subsection shall not apply to any legal division of property occurring after November 7, 1991.
- (3) A parcel may be served from a connection, meter and service line located in an existing older easement and/or right-of-way, provided the use of such is not specifically described. The town will interpret such easements and rights-of-way to allow for total usage, which would include the right to install and maintain water utilities. Such easements and rights-of-way as described in this subsection must be adjacent to a water main and be contiguous to the involved parcel. The term "older," as used in this section, shall refer to property or divisions of property legally recorded prior to December 6, 1971.

(b) The use of nonspecific older easements and rights-of-way and perpetual easements shall only be permitted when there is no other practicable avenue available to provide water to the requiring parcel.

(c) The town is responsible for the service connection up to and inclusive of a meter serving a particular property and is not responsible for any piping or connection on the owner's property beyond the meter.

## CHINCOTEAGUE CODE

(d) Every property owner served by the water system through a service connection is required to install a valve to control the flow of water from the meter to his property. Meter valves, which are the property of the town, are not intended for such use.  
(Code 1977, § 15-4-2; Ord. of 4-5-1999, § 15-4-2)

### **Sec. 62-88. Water main extensions.**

(a) The owner and/or developer of a parcel requiring a water main extension by virtue of the requirements of subsection 62-87(a) shall request such extension from the town in writing. With the written request, the owner and/or developer shall also submit recorded drawings, plats or surveys depicting the parcel to be served by the requested extension. Such drawings shall include the delineation of the utility easements to be used by the town for the placement and maintenance of the requested water main. Delineated easements on recorded drawings shall include the finished grade elevation of the easement area. In the absence of utility easements being included in recorded drawings, easements and certification of elevation may be conveyed through separate perpetual deed of easement or agreement to the town. Utility easements shall be a minimum of ten feet in width. Pavement for roadways shall not be installed over utility easements.

(b) Upon review of the request and within 30 days of the request, the town shall design and size the appropriate extension to the water system and calculate the cost of installation of the extension. Costs shall include an administrative fee percentage, set by the town council. The requester will be notified of the cost of the installation and allowed 30 calendar days to initiate the installation by paying the provided cost. If payment is not made within the allotted time, the requester shall submit subsequent requests as necessary to allow the town to calculate the new cost. The town shall have the right to recover costs incurred from repeated design and calculation in subsequent cost calculations.

*(Amended 4/19/07)*

(c) Once payment for an extension is made, the town shall schedule and implement the work within 60 calendar days.

(d) Water main extensions shall be designed and sized on a case-by-case basis, but in no case will pipe with inside diameter sizes of less than six inches be used for mains, nor will required fire hydrants be deleted from a potential extension.

(e) Property owners assume all responsibility for delineation of property to be served by water mains and the delineation of utility easements to be used for the installation of water mains. All property markers relevant to water main installation shall be in place in the field and located prior to the town's installation work.

(f) All obstructions to the path of the water main and service connections shall be cleared by the property owner prior to installation work.  
(Code 1977, § 15-4-3; Ord. of 4-5-1999, § 15-4-3)

### **Sec. 62-89. Reimbursement of extension costs.**

(a) When a water main is extended across the frontage of unimproved parcels for the purpose of providing service to another parcel, the owner of the parcel being served shall be

## UTILITIES

entitled to recover some of the costs of the water main extension. In no case shall this entitle owners or developers of subdivisions to reimbursements.

(b) The original cost of the water main extension shall be divided equally by linear foot to apply to the frontage of property across which the main is being extended. When lots adjoin the water main on two sides, the apportioned cost will further be factored as half of the linear-foot cost. When lots along the main are improved with structures requiring service, the town shall collect the apportioned amount of the original cost of the installation with connection fees from the newly requiring parcels. The parcel owner originally initiating and paying for the extension shall then be reimbursed by the town.  
(Code 1977, § 15-4-4; Ord. of 4-5-1999, § 15-4-4)

## DIVISION 4. WATER USAGE PLAN

### **Sec. 62-116. Normal operation.**

The town's water supply and distribution system shall be operated by a qualified operator and division supervisor under the purview of the director of public works and town manager. The supervisor/operator shall report routine operations and daily water usage to the director of public works and town manager. The town manager shall further advise the public works committee of the town council and the mayor.  
(Code 1977, § 15-5-1; Ord. of 4-5-1999, § 15-5-1)

### **Sec. 62-117. Water shortages.**

For the purposes of this division, categories of water shortages shall be as follows:

- (1) *Category I: major water leaks or mechanical failures.* If a major leak or mechanical failure occurs, repairs shall be immediately initiated by the department, and the town manager shall immediately be notified of such. In conjunction with the town manager and public works committee chair, the waterworks supervisor and the director of public works shall determine if a water shortage will occur as a result of the leak or mechanical failure.
- (2) *Category II: serious water shortage.* If, through department review, a serious water shortage will occur, the town manager shall be immediately notified. After consultation with the mayor and public works committee chair, a public announcement shall be made to curtail car washing, lawn watering, garden watering, and usage by swimming pools and other recreational facilities, all on a voluntary basis.

5.1.2. If any change in title of possession or renewal of a lease of any such lot or structure occurs, the use existing may be continued.

5.1.3. If any nonconforming use (structure or activity) is discontinued for a period exceeding five years, after the enactment of this ordinance, it shall be deemed abandoned, and any subsequent use shall conform to the requirements of this ordinance.

5.1.4. Whenever a nonconforming structure, lot or activity is to be changed to another nonconforming structure, lot or activity, such proposed change may only be made following approval of the Board of Zoning Appeals by special use permit or variance, as applicable.

### **Sec. 5.2. Previously approved permits.**

The construction or use of a nonconforming building or land area for which a permit was issued legally prior to the adoption of this ordinance may proceed, provided such building is started within one year of the adoption of this ordinance and completed within one year of the start date. Extensions may be granted by the building administrator.

### **Sec. 5.3. Repairs and maintenance.**

On any building devoted in whole or in part to any nonconforming use, work may be done in any period of 12 consecutive months on ordinary repairs or on repair or replacement of nonbearing walls, fixtures, wiring or plumbing, provided that the cubic content of the structure as it existed at the time of passage or amendment of this ordinance shall not be increased.

### SECTION F. WIND ENERGY SYSTEMS

#### **Sec. 6.9. Wind Energy Systems.**

The purpose of this section is to regulate the placement, construction, and modification of small wind energy systems while promoting the safe, effective, and efficient use of small wind energy systems.

6.9.1. *Applicability.* The requirements set forth in this section shall govern the siting of small wind energy systems used to generate electricity or perform work which may be connected to the utility grid pursuant to Virginia's net metering laws, serve as an independent source of energy, or serve in a hybrid system.

6.9.2. *Siting requirements.* The requirements for siting and construction of all small wind energy systems regulated by this section shall include the following:

- (1) Small wind energy towers shall maintain a galvanized steel finish, unless FAA standards require otherwise, or if the owner is attempting to conform the tower to the surrounding environment and architecture, in which case it may be painted to reduce visual obtrusiveness. A wind energy tower may be erected, maintained and/or operated on or as an attachment to a building on a lot. A photo simulation may be required by the permitting authority.
- (2) Small wind energy systems shall not be artificially lighted unless required by the Federal Aviation Administration (FAA) or appropriate authority.
- (3) No tower should have any sign, writing, or picture that may be construed as advertising by the building and zoning administrator or their designee.
- (4) The applicant shall provide evidence that the proposed height of the small wind energy system tower does not exceed the height recommended by the manufacturer or distributor of the system. The tower height shall not exceed a maximum height of seventy (70) feet on a parcel. When situated on or attached to a building the total height shall not exceed seventy (70) feet. requirement.

- (5) The applicant shall provide evidence that the provider of electric utility service to the site has been informed of the applicant's intent to install an interconnected customer-owned electricity generator, unless the applicant intends, and so states on the application, that the system will not be connected to the electricity grid. This notification will take place by having the electric utility provider sign the conditional use permit application. This signature does not construe approval for net metering by the electric utility.
- (6) Small wind energy systems shall adhere to noise limits as delineated in Section 22-35 of the Code of the Town of Chincoteague. These levels, however, may be exceeded during short-term events such as utility outages and/or severe windstorms.
- (7) The applicant will provide information demonstrating that the system will be used primarily to reduce on-site consumption of electricity.
- (8) The minimum distance between the ground and any protruding blade utilized on a small wind energy system shall be fifteen (15) feet, as measured at the lowest point of the arc of the blades. The lowest point of the arc of the blades shall also be ten feet above the height of any structure within seventy-five (75) feet of the base. The supporting tower shall also be enclosed with a six-foot tall fence or the base of the tower shall not be climbable for a distance of ten (10) feet.
- (9) The applicant will provide proof of adequate liability insurance for a small wind energy system. Whether or not the applicant is participating in the net metering program, the applicant will be required to meet the insurance coverage requirements as set forth in 20 VAC 5-315-60.
- (10) The small wind energy system generators and alternators should be constructed so as to prevent the emission of radio and television signals and shall comply with the provisions of Section 47 of the Federal Code of Regulations, Part 15 and subsequent revisions governing said emissions.

6.9.3. *Wind energy system permit.* No such system shall be constructed, maintained and/or operated by any person or entity unless a conditional use permit is issued by the town council pursuant to Article IX of the zoning ordinance.

6.9.4. *Federal and state requirements.*

- (1) Compliance with the Uniform Statewide Building Code: Building

## CHINCOTEAGUE CODE

- (3) Compliance with National Electric Code: Building permit applications for wind energy systems shall be accompanied by a line drawing of the electrical components in sufficient detail to allow for a determination that the manner of installation conforms to the National Electrical Code.
- (4) Compliance with regulations governing energy net metering: Wind energy systems connected to the utility grid must comply with the Virginia Administrative Code 20 VAC 5-315: Regulations Governing Energy Net Metering.

6.9.5. *Setbacks.* The wind energy system shall be set back a distance at least equal to one hundred ten (110) percent of the height of the tower plus the blade length from all adjacent property lines and a distance equal at least to one hundred fifty (150) percent of the tower height plus blade length from any dwelling inhabited by humans on neighboring property. Additionally no portion of the small wind energy system, including guy wire anchors may be extended closer than ten (10) feet to the property line.

8.1.1. A board consisting of seven members shall be appointed by the circuit court of the county. The board shall serve without pay other than for traveling expenses. Appointments for vacancies occurring other than by expiration of term shall in all cases be for the unexpired term.

8.1.2. The term of office shall be for five years, except that original appointments shall be made for such terms that the term of at least one member shall expire each year. Members of the board of zoning appeals appointed and qualified at the time of the enactment hereof shall continue to serve the balance of the term for which they were appointed.

8.1.3. Any board member may be removed for malfeasance, misfeasance or nonfeasance in office, or for other just cause, by the court that appointed him, after a hearing held after at least 15 days' notice.

8.1.4. Any member of the board shall be disqualified to act upon a matter before the

## APPENDIX A–ZONING

board with respect to property in which the member has an interest.

8.1.5. The board shall choose annually its own chairperson and vice-chairperson who shall act in the absence of the chairperson.

**Cross reference**–Boards and commissions, § 2-106 et seq.

### **Sec. 8.2. Powers of the board of zoning appeals.**

The board of zoning appeals shall have the following powers and duties:

8.2.1. To hear and decide appeals from any order, requirement, decision or determination made by an administrative officer in the administration or enforcement of this ordinance.

8.2.2. To authorize upon appeal or original application in specific cases such variance as defined in section 2.173 from the terms of this ordinance as will not be contrary to the public interest, when, owing to special conditions, a literal enforcement of the provisions will result in unnecessary hardship; provided that the spirit of this ordinance shall be observed and substantial justice done, as follows:

When a property owner can show that his property was acquired in good faith and where by reason of the exceptional narrowness, shallowness, size or shape of a specific piece of property at the time of the effective date of this ordinance, or where by reason of exceptional topographic conditions or other extraordinary situation or condition of the piece of property, or of the condition, situation, or development of property immediately adjacent thereto, the strict application of the terms of this ordinance would effectively prohibit or unreasonably restrict the utilization of the property or where the board is satisfied, upon the evidence heard by it, that the granting of the variance will alleviate a clearly demonstrable hardship approaching confiscation, as distinguished from a special privilege or convenience sought by the applicant, provided that all variances shall be in harmony with the intended spirit and purpose of this ordinance.

The board of zoning appeals shall require the applicant for a special use permit to submit written comments from all property owners within 300 feet of the boundary line of the property upon which action is to be taken, when application is made to appeal for a variance, the applicant shall submit signatures from all adjoining property owners including the property owners across the street or across bodies of water adjacent to or dividing two properties. The Board of Zoning Appeals may require the applicant to submit written comments from additional property owners.

No such variance shall be authorized by the board unless it finds:

- (1) That the strict application of this ordinance would produce undue hardship.
- (2) That the hardship is not shared generally by other properties in the same zoning district and the same vicinity.

## CHINCOTEAGUE CODE

- (3) That the authorization of the variance will not be of substantial detriment to adjacent property and that the character of the district will not be changed by the granting of the variance.

No variance shall be authorized except after notice and hearing as required by Code of Virginia, § 15.2-2204. However, when giving any required notice to the owners, their agents or the occupants of abutting property and property immediately across the street or road from the property affected, the board may give such notice by first class mail rather than by registered or certified mail.

No variance shall be authorized unless the board finds that the condition or situation of the property concerned is not of so general or recurring a nature as to make reasonably practicable the formulation of a general regulation to be adopted as an amendment to this ordinance.

In authorizing a variance the board may impose such conditions regarding the location, character and other features of the proposed structure or use as it may deem necessary in the public interest, and may require a guarantee or bond to ensure that the conditions imposed are being and will continue to be complied with.

8.2.3. To hear and decide appeals from the decision of the zoning administrator after notice and hearing as provided by Code of Virginia, § 15.2-2204. However, when giving any required notice to the owners, their agents or the occupants of abutting property and property immediately across the street or road from the property affected, the board may give such notice by first class mail rather than by registered or certified mail.

8.2.4. To hear and decide applications for interpretation of the district map where there is any uncertainty as to the location of a district boundary. After notice to the owners of the property affected by the question, and after public hearing with notice as required by Code of Virginia, § 15.2-2204, the board may interpret the map in such way as to carry out the intent and purpose of this ordinance for the particular section or district in question. However, when giving any required notice to the owners, their agents or the occupants of abutting property and property immediately across the street or road from the property affected, the board may give such notice by first class mail rather than by registered or certified mail. The board shall not have the power to change substantially the locations of district boundaries as established by ordinance.

8.2.5. No provision of this section shall be construed as granting any board the power to rezone property.

8.2.6. To hear and decide applications for special exceptions as may be authorized in this ordinance. The board may impose such conditions relating to the use for which a permit is granted as it may deem necessary in the public interest, including limiting the duration of a permit, and may require a guarantee or bond to ensure that the conditions imposed are being and will continue to be complied with.

No special exception may be granted except after notice and hearing as provided by Code

## APPENDIX A–ZONING

of Virginia, § 15.2-2204. However, when giving any required notice to the owners, their agents or the occupants of abutting property and property immediately across the street or road from the property affected, the board may give such notice by first class mail rather than by registered or certified mail.

Before issuance of a special use permit the board of zoning appeals shall consider the general character of the surrounding neighborhood in order to facilitate the preservation and creation of an attractive and harmonious community. The board of zoning appeals shall also consider the environmental effect on scenic, historic and waterfront areas including the property rights and values of adjoining and nearby property owners.

The board of zoning appeals shall have the authority to establish such conditions as it may deem necessary to assure and protect the health, safety, convenience and welfare of the general public within the district. Conditions may include, but need not be limited to, additional requirements for area, frontage, setback, side and rear yard, lighting, noise and odor control and location of streets including ingress and egress.

The board of zoning appeals may also impose such other conditions relating to the use for which a special use permit is granted as it may deem necessary in the public interest, including time limitations.

The board of zoning appeals shall not extend or renew any special use permit, or any conditional use permit previously granted, without the applicant complying with the procedures as set forth in section 8.4 of this ordinance.

All special use permits granted by the board of zoning appeals shall expire one year after the date of issuance unless construction or the use for which said permit was granted has actually commenced.

The board of zoning appeals may require a guarantee or bond with sufficient surety to ensure that any of the conditions which may be imposed pursuant to this article are being and will continue to be complied with.

8.2.7. To revoke a special exception if the board determines that there has not been compliance with the terms or conditions of the permit. No special exception may be revoked except after notice and hearing as provided by Code of Virginia, § 15.2-2204. However, when giving any required notice to the owners, their agents or the occupants of abutting property and property immediately across the street or road from the property affected, the board may give such notice by first class mail rather than by registered or certified mail.

**State law reference**—Similar provisions, Code of Virginia, § 15.2-2309.

### **Sec. 8.3. Rules and regulations.**

The appeal period shall not commence until the statement is given. The appeal shall be taken within 30 days after the decision appealed from by filing with the zoning administrator, and with the board, a notice of appeal specifying the grounds thereof. The zoning administrator shall forthwith transmit to the board all the papers constituting the record upon which the action appealed from was taken.

8.4.2. An appeal shall stay all proceedings in furtherance of the action appealed from unless the zoning administrator certifies to the board that by reason of facts stated in the certificate a stay would in his opinion cause imminent peril to life or property, in which case proceedings shall not be stayed otherwise than by a restraining order granted by the board or by a court of record, on application and on notice to the zoning administrator and for good cause shown.

8.4.3. In no event shall a written order, requirement, decision or determination made by the zoning administrator or other administrative officer be subject to change, modification or reversal by any zoning administrator or other administrative officer after 60 days have elapsed from the date of the written order, requirement, decision or determination where the person aggrieved has materially changed his position in good faith reliance on the action of the zoning administrator or other administrative officer unless it is proven that such written order, requirement, decision or determination was obtained through malfeasance of the

## CHINCOTEAGUE CODE

8.7.3. The board of zoning appeals shall not be required to return the original papers acted upon by it but it shall be sufficient to return certified or sworn copies thereof or of the portions thereof as may be called for by the writ. Because of their nature, size, unique characteristics, particular demands on public facilities and resources, and the potential for substantial impact on neighboring properties, the surrounding area, and the general public, certain proposed uses will require a close consideration of whether a specific use should be permitted in a particular location within a zoning district, and if so, what special conditions or safeguards should be applied to protect the overall public welfare.

### **Sec. 9.2. Requirements of conditional use permits.**

No temporary or permanent use of land, buildings, or structures, except such uses as are expressly permitted under this Code as a matter of right or permitted by a special use permit by the Board of Zoning Appeals within the applicable zoning district shall be permitted within such district, except such use or uses as may be permitted by the Town Council of the Town of Chincoteague as a conditional use pursuant to the provisions of this Article 9.

- (4) *Effect of approval.* The issuance of a conditional use permit shall authorize the applicant to construct only such structure(s) or conduct only such uses as are specifically requested and made part of the permit. No deviations, expansion, or other changes whatsoever shall be made from the terms of the permit without the expressed written approval of the Town Council.

## CHINCOTEAGUE CODE

Regardless of the existence of purported copies of the official zoning map which may from time to time be made or published, the official zoning map, which shall be located in the office of the zoning administrator, shall be the final authority as to the current zoning status of land, structures, and other uses in the town.

12.4.2. *Amendment of the official zoning map.* Whenever any amendment is made to the official zoning map by action of the governing body, such change shall be incorporated onto said map at such time and in such manner as the governing body may prescribe. Said changes shall be validated with reference to correct notation by the town manager, who shall affix his signature thereto, thereby certifying that approved amendments to the official zoning map have been correctly incorporated. The date of official action and nature of the change shall be entered on the map. Any such change shall have the effect of law at 12:01 a.m. on the day following its legal adoption or on its effective date, if such effective date is officially established as other than the day following its legal adoption, whether or not it has been shown on the official zoning map.

12.4.3. *Unauthorized changes.* No changes of any nature shall be made on the official zoning map or any matter shown thereon, except in conformity with the procedures and requirements of this ordinance. It shall be unlawful for any person to make unauthorized changes on the official zoning map. Violations of this provision shall be punishable as provided in article X.

12.4.4. *Replacement of the official zoning map.* In the event that the official zoning map becomes damaged, destroyed, lost, or difficult to interpret because of the nature or number of changes and additions, the governing body may by resolution adopt a new official zoning map. The new official zoning map may correct drafting or other errors or omissions in the prior official zoning map, but no such correction shall have the effect of amending the original official zoning map or any subsequent amendments thereof.

The new official zoning map shall be identified by the signature of the mayor of the Town of Chincoteague, attested to by the town manager of the Town of Chincoteague, and shall bear the seal of the Town of Chincoteague under the following words, "This is to certify that this Official Zoning Map was adopted on JANUARY 3, 1994 as part of the Zoning Ordinance of The Town of Chincoteague." Unless the prior official zoning map has been lost, or totally destroyed, the prior map or any significant parts thereof remaining shall be preserved, together with all available records pertaining to its adoption or amendments.

12.4.5. *Interpretation of district boundaries.* Where uncertainty exists with respect to the boundaries of any of the zoning districts as shown on the official zoning map, the following rules shall apply:

- (2) Where district boundaries are so indicated that they are approximately

## APPENDIX A–ZONING

paralleled to the centerlines or street lines or streets, or the centerlines or right-of-way of highways, such district boundaries shall be construed as being parallel thereto and at such distance therefrom as indicated on the official zoning map. If no distance is given, such dimensions shall be determined by the use of the scale shown on the official zoning map.

- (3) Where district boundaries are so indicated that they approximately follow the lot lines, such lot lines shall be construed to be said boundaries.
- (4) Where a district boundary is indicated to follow a river, creek, branch, or other body of water, said boundary shall be construed to follow the centerline at low water or the limit of the jurisdiction, and in the event of change in the shoreline such boundary shall be construed as moving with the actual shoreline.
- (5) If no distance, angle, curvature description, or other means is given to determine a boundary line accurately and the foregoing provisions do not apply, the boundary line shall be a property line or extension of a property line determined by the use scale shown on the official zoning map. In case of subsequent dispute, the matter shall be referred to the board of zoning appeals, which shall determine the boundary.

## **INTRODUCTION**

An ordinance to regulate the subdivision of property into lots, parcels, streets and other public areas, to provide for the making and recording of plats of such subdivisions and the certification of same and provide for approval of plats.

WHEREAS, in article 6 of the Virginia Planning Act, found in Code of Virginia, § 15.2-2240 et seq., as amended, the town council of Chincoteague, Virginia is authorized to adopt a subdivision ordinance to provide:

1. For plat details which shall meet the standard for plats as adopted under § 42.1-82 of the Virginia Public Records Act (Code of Virginia, § 42.1-76 et seq.).
2. For the coordination of streets within and contiguous to the subdivision with other existing or planned streets within the general area as to location, widths, grades and drainage, including, for ordinances and amendments thereto adopted on or after January 1, 1990, for the coordination of such streets with existing or planned streets in existing or future adjacent or contiguous to adjacent subdivisions.
3. For adequate provisions for drainage and flood control and other public purposes, and for light and air, and for identifying soil characteristics.
4. For the extent to which and the manner in which streets shall be graded, graveled or otherwise improved and water and storm and sanitary sewer and other public utilities or other community facilities are to be installed.
5. For the acceptance of dedication for public use of any right-of-way located within any subdivision or section thereof, which has constructed or proposed to be constructed within the subdivision or section thereof, any street, curb, gutter, sidewalk, bicycle trail, drainage or sewerage system, water line as part of a public system or other improvement dedicated for public use, and maintained by the locality, the commonwealth, or other public agency, and for the provision of other site-related improvements required by local ordinances for vehicular ingress and egress, including traffic signalization and control, for public access streets, for structures necessary to ensure stability of critical slopes, and for stormwater management facilities, financed or to be financed in whole or in part by private funds only if the owner or developer (i) certifies to the governing body that the construction costs have been paid to the person constructing such facilities; (ii) furnishes to the governing body a certified check or cash escrow in the amount of the estimated costs of construction or a personal, corporate or property bond, with surety satisfactory to the governing body or its designated administrative agency, in an amount sufficient for and conditioned upon the construction of such facilities, or a contract for the construction of such facilities and the contractor's bond, with like surety, in like amount and so conditioned; or (iii) furnishes to the governing body a bank or savings institution's letter of credit on certain designated funds satisfactory to the governing body or its designated administrative agency as to the bank or savings institution, the amount and the form. The amount of such certified check, cash escrow, bond, or letter of credit shall not exceed the

## CHINCOTEAGUE CODE

total of the estimated cost of construction based on unit prices for new public or private sector construction in the locality and a reasonable allowance for estimated administrative costs, inflation, and potential damage to existing roads or utilities, which shall not exceed 25 percent of the estimated construction costs.

If a developer records a final plat which may be a section of a subdivision as shown on an approved preliminary plat and furnishes to the governing body a certified check, cash escrow, bond, or letter of credit in the amount of the estimated cost of construction of the facilities to be dedicated within said section for public use and maintained by the locality, the commonwealth, or other public agency, the developer shall have the right to record the remaining sections shown on the preliminary plat for a period of five years from the recordation date of the first section, or for such longer period as the local commission or other agent may, at the approval, determine to be reasonable, taking into consideration the size and phasing of the proposed development, subject to the terms and conditions of this subsection and subject to engineering and construction standards and zoning requirements in effect at the time that each remaining section is recorded. In the event a governing body of a county, wherein the highway system is maintained by the department of transportation, has accepted the dedication of a road for public use and such road due to factors other than its quality of construction is not acceptable into the secondary system of state highways, then such governing body may, if so provided by its subdivision ordinance, require the subdivider or developer to furnish the county with a maintenance and indemnifying bond, with surety satisfactory to the governing body or its designated administrative agency, in an amount sufficient for and conditioned upon the maintenance of such road until such time as it is accepted into the secondary system of state highways. In lieu of such bond, the governing body or its designated administrative agency may accept a bank, or savings institution's letter of credit on certain designated funds satisfactory to the governing body or its designated administrative agency as to the bank or savings institution, the amount and the form, or accept payment of a negotiated sum of money sufficient for and conditioned upon the maintenance of such road until such time as it is accepted into the secondary system of state highways and assume the subdivider's or developer's liability for maintenance of such road. "Maintenance of such road," as used in this section, means maintenance of the streets, curb, gutter, drainage facilities, utilities or other street improvements, including the correction of defects or damages and the removal of snow, water or debris, so as to keep such road reasonably open for public usage.

6. For conveyance, in appropriate cases, of common or shared easements to franchised cable television operators furnishing cable television and public service corporations furnishing cable television, gas, telephone and electric service to the proposed subdivision. Such easements, the location of which shall be adequate for use by public service corporations and franchised cable television operators which may be expected to occupy them, may be conveyed by reference on the final plat to a declaration of the terms and conditions of such common easements and recorded in the land records of the county or city.

## APPENDIX B—LAND SUBDIVISION AND DEVELOPMENT

7. For monuments of specific types to be installed establishing street and property lines.
8. That unless a plat is filed for recordation within six months after final approval thereof or such longer period as may be approved by the governing body, such approval shall be withdrawn and the plat marked void and returned to the approving official; however, in any case where construction of facilities to be dedicated for public use has commenced pursuant to an approved plan or permit with surety approved by the governing body or its designated administrative agency, or where the developer has furnished surety to the governing body or its designated administrative agency by certified check, cash escrow, bond, or letter of credit in the amount of the estimated cost of construction of such facilities, the time for plat recordation shall be extended to one year after final approval or to the time limit specified in the surety agreement approved by the governing body or its designated administrative agency, whichever is greater.
9. For the administration and enforcement of such ordinance, not inconsistent with provisions contained in this chapter [appendix], and specifically for the imposition of reasonable fees and charges for the review of plats and plans, and for the inspection of facilities required by any such ordinance to be installed; such fees and charges shall in no instance exceed an amount commensurate with the services rendered taking into consideration the time, skill and administrator's expense involved. All such charges heretofore made are hereby validated.
10. For payment by a subdivider or developer of land of the pro rata share of the cost of providing reasonable and necessary sewerage, water, and drainage facilities, located outside the property limits of the land owned or controlled by the subdivider or developer but necessitated or required, at least in part, by the construction or improvement of the subdivision or development; however, no such payment shall be required until such time as the governing body or a designated department or agency thereof has established a general sewer, water, and drainage improvement program for an area having related and common sewer, water, and drainage conditions and within which the land owned or controlled by the subdivider or developer is located or the governing body has committed itself by ordinance to the establishment of such a program. Such regulations or ordinance shall set forth and establish reasonable standards to determine the proportionate share of total estimated cost of ultimate sewerage, water, and drainage facilities required to adequately serve a related and common area, when and if fully developed in accord with the adopted comprehensive plan, that shall be borne by each subdivider or developer within the area. Such share shall be limited to the proportion of such total estimated cost which the increased sewage flow, water flow, and/or increased volume and velocity of stormwater runoff to be actually caused by the subdivision or development bears to total estimated volume and velocity of such sewage, water, and/or runoff from such area in its fully developed state. In calculating the volume and velocity of stormwater runoff, the governing body shall take into account the effect of all on-site stormwater facilities or best management practices constructed or required to be constructed by the subdivider or developer and give appropriate credit therefor.

Each such payment received shall be expended only for necessary engineering and related studies and the construction of those facilities identified in the established sewer, water, and drainage program; however, in lieu of such payment the governing body may

## CHINCOTEAGUE CODE

provide for the posting of a personal, corporate or property bond, cash escrow or other method of performance guarantee satisfactory to it conditioned on payment at commencement of such studies or construction. The payments received shall be kept in a separate account for each of the individual improvement programs until such time as they are expended for the improvement program. All bonds, payments, cash escrows or other performance guarantees hereunder shall be released and used, with any interest earned, as a tax credit on the real estate taxes on the property if construction of the facilities identified in the established water, sewer and drainage programs is not commenced within 12 years from the date of the posting of the bond, payment, cash escrow or other performance guarantee.

11. (a) For reasonable provisions permitting a single division of a lot or parcel for the purpose of sale or gift to a member of the immediate family of the property owner, subject only to any express requirement contained in the Code of Virginia and to any requirement imposed by the local governing body that all lots of less than five acres have reasonable right-of-way of not less than ten feet or more than 20 feet providing ingress and egress to a dedicated recorded public street or thoroughfare. Only one such division shall be allowed per family member, and shall not be for the purpose of circumventing this subsection. For the purpose of this provision, a member of the immediate family is defined as any person who is a natural or legally defined offspring, spouse, sibling, grandchild, grandparent, or parent of the owner. In addition, any such locality may include aunts, uncles, nieces and nephews in its definition of immediate family.
  - (b) Notwithstanding provision (A) of this subsection, in a county having the urban county executive form of government, for reasonable provisions permitting a single division of a lot or parcel for the purpose of sale or gift to a member of the immediate family of the property owner, subject only to any express requirement contained in the Code of Virginia and to any requirement imposed by the local governing body that all lots of less than five acres have frontage of not less than ten feet or more than 20 feet on a dedicated recorded public street or thoroughfare. Only one such division shall be allowed per family member, and the division shall not be for the purpose of circumventing a local subdivision ordinance. For the purpose of this provision, a member of the immediate family is defined as any person who is a natural or legally defined offspring or parent of the owner.
  - (c) Notwithstanding provisions (A) and (B) of this subsection, reasonable provisions permitting divisions of lots or parcels for the purpose of sale or gift to a member of the immediate family of the property owner in (i) any county or city which has had population growth of ten percent or more from the next-to-latest to latest decennial census year, based on population reported by the United States Bureau of the Census; (ii) any city or county adjoining such city or county; (iii) any towns located within such county; and (iv) any county contiguous with at least three such counties, and any town located in that county. Such divisions shall be subject to all requirements of the Code of Virginia and to any requirements imposed by the local governing body.
12. (a) For the periodic partial and final complete release of any bond, escrow, letter of

## APPENDIX B—LAND SUBDIVISION AND DEVELOPMENT

credit, or other performance guarantee required by the governing body under this article [introduction] within 30 days after receipt of written notice by the subdivider or developer of completion of part or all of any facilities required to be constructed hereunder unless the governing body or its designated administrative agency notifies the subdivider or developer in writing of nonreceipt of approval by an applicable state agency, or of any specified defects or deficiencies in construction and suggested corrective measures prior to the expiration of the 30-day period.

If no such action is taken by the governing body or administrative agency within the time specified above, the request shall be deemed approved, and a partial release granted to the subdivider or developer. No final release shall be granted until after expiration of such 30-day period and there is an additional request in writing sent by certified mail return receipt to the chief administrative officer of such governing body. The governing body or its designated administrative agency shall act within ten working days of receipt of the request; then if no action is taken the request shall be deemed approved and final release granted to the subdivider or developer.

After receipt of the written notices required above, if the governing body or administrative agency takes no action within the times specified above and the subdivider or developer files suit in the local circuit court to obtain partial or final release of a bond, escrow, letter of credit, or other performance guarantee, as the case may be, the circuit court, upon finding the governing body or its administrative agency was without good cause in failing to act, shall award such subdivider or developer his reasonable costs and attorneys' fees.

No governing body or administrative agency shall refuse to make a periodic partial or final release of a bond, escrow, letter of credit, or other performance guarantee for any reason not directly related to the specified defects or deficiencies in construction of the facilities covered by said bond, escrow, letter of credit or other performance guarantee.

Upon written request by the subdivider or developer, the governing body or its designated administrative agency shall be required to make periodic partial releases of such bond, escrow, letter of credit, or other performance guarantee in a cumulative amount equal to no less than 90 percent of the original amount for which the bond, escrow, letter of credit, or other performance guarantee was taken, and may make partial releases to such lower amounts as may be authorized by the governing body or its designated administrative agency based upon the percentage of facilities completed and approved by the governing body, local administrative agency, or state agency having jurisdiction. Periodic partial releases may not occur before the completion of at least 30 percent of the facilities covered by any bond, escrow, letter of credit, or other performance guarantee. The governing body or administrative agency shall not be required to execute more than three periodic partial releases in any 12-month period. Upon final completion and acceptance of the facilities, the governing body or administrative agency shall release any remaining bond, escrow, letter of credit, or other performance guarantee to the subdivider or developer. For the purpose of final release, the term "acceptance" means: when the public facility is accepted by and taken over for operation and

## CHINCOTEAGUE CODE

maintenance by the state agency, local government department or agency, or other public authority which is responsible for maintaining and operating such facility upon acceptance.

For the purposes of this subsection, a certificate of partial or final completion of such facilities from either a duly licensed professional engineer or land surveyor, as defined in and limited to Code of Virginia, § 54.1-400, or from a department or agency designated by the locality may be accepted without requiring further inspection of such facilities.

(b) A subdivision ordinance may include:

- (1) Provisions for variations in or exceptions to the general regulations of the subdivision ordinance in cases of unusual situations or when strict adherence to the general regulations would result in substantial injustice or hardship.
- (2) A requirement for the furnishing of a preliminary opinion from the applicable health official regarding the suitability of a subdivision for installation of subsurface sewage disposal systems where such method of sewage disposal is to be utilized in the development of a subdivision.
- (3) A requirement that, in the event streets in a subdivision will not be constructed to meet the standards necessary for inclusion in the secondary system of state highways or for state street maintenance moneys paid to municipalities, the subdivision plat and all approved deeds of subdivision, or similar instruments, must contain a statement advising that the streets in the subdivision do not meet state standards and will not be maintained by the department of transportation or the localities enacting the ordinances. Grantors of any subdivision lots to which such statement applies must include the statement on each deed of conveyance thereof. However, localities in their ordinances may establish minimum standards for construction of streets that will not be built to state standards.

For streets constructed or to be constructed, as provided for in this provision, a subdivision ordinance may require that the same procedure be followed as that set forth in Code of Virginia, § 15.2-2241(5). Further, the subdivision ordinance may provide that the developer's financial commitment shall continue until such time as the local government releases such financial commitment in accordance with Code of Virginia, § 15.2-2241(11).

- (4) Reasonable provision for the voluntary funding of off-site road improvements and reimbursements of advances by the governing body. If a subdivider or developer makes an advance of payments for or construction of reasonable and necessary road improvements located outside the property limits of the land owned or controlled by him, the need for which is substantially generated and reasonably required by the construction or improvement of his subdivision or development, and such advance is accepted, the governing body may agree to reimburse the subdivider or developer from such funds as

## APPENDIX B—LAND SUBDIVISION AND DEVELOPMENT

the governing body may make available for such purpose from time to time for the cost of such advance together with interest, which shall be excludable from gross income for federal income tax purposes, at a rate equal to the rate of interest on bonds most recently issued by the governing body on the following terms and conditions:

- a. The governing body shall determine or confirm that the road improvements were substantially generated and reasonably required by the construction or improvement of the subdivision or development and shall determine or confirm the cost thereof, on the basis of a study or studies conducted by qualified traffic engineers and approved and accepted by the subdivider or developer.
  - b. The governing body shall prepare, or cause to be prepared, a report accepted and approved by the subdivider or developer, indicating the governmental services required to be furnished to the subdivision or development and an estimate of the annual cost thereof for the period during which the reimbursement is to be made to the subdivider or developer.
  - c. The governing body may make annual reimbursements to the subdivider or developer from funds made available for such purpose from time to time, including but not limited to real estate taxes assessed and collected against the land and improvements on the property included in the subdivision or development in amounts equal to the amount by which such real estate taxes exceed the annual cost of providing reasonable and necessary governmental services to such subdivision or development.
- (5) In a county having the urban county executive form of government, in any city located within or adjacent thereto, or any county adjacent thereto or a town located within such county, in any county with a population between 57,000 and 57,450, or in any county with a population between 60,000 and 63,000, and in any city with a population between 140,000 and 160,000, provisions for payment by a subdivider or developer of land of a pro rata share of the cost of reasonable and necessary road improvements, located outside the property limits of the land owned or controlled by him but serving an area having related traffic needs to which his subdivision or development will contribute, to reimburse an initial subdivider or developer who has advanced such costs or constructed such road improvements. Such ordinance may apply to road improvements constructed after July 1, 1988, in a county having the urban county executive form of government; in a city located within or adjacent to a county having the urban county executive form of government, or in a county adjacent to a county having the urban county executive form of government or town located within such county and in any county with a population between 57,000 and 57,450, or in any county with a population between 60,000 and 63,000, such ordinance may only apply to road improvements constructed after the effective date of such ordinance.

## CHINCOTEAGUE CODE

Such provisions shall provide for the adoption of a pro rata reimbursement plan which shall include reasonable standards to identify the area having related traffic needs, to determine the total estimated or actual cost of road improvements required to adequately serve the area when fully developed in accordance with the comprehensive plan or as required by proffered conditions, and to determine the proportionate share of such costs to be reimbursed by each subsequent subdivider or developer within the area, with interest (i) at the legal rate or (ii) at an inflation rate prescribed by a generally accepted index of road construction costs, whichever is less.

For any subdivision ordinance adopted pursuant to provision (5) of this subsection after February 1, 1993, no such payment shall be assessed or imposed upon a subsequent developer or subdivider if (i) prior to the adoption of a pro rata reimbursement plan the subsequent subdivider or developer has proffered conditions pursuant to Code of Virginia, § 15.2-2303 for off-site road improvements and such proffered conditions have been accepted by the locality, (ii) the locality has assessed or imposed an impact fee on the subsequent development or subdivision pursuant to Code of Virginia, § 15.2-2317 et seq., or (iii) the subsequent subdivider or developer has received final site plan, subdivision plan, or plan of development approval from the locality prior to the adoption of a pro rata reimbursement plan for the area having related traffic needs.

The amount of the costs to be reimbursed by a subsequent developer or subdivider shall be determined before or at the time the site plan or subdivision is approved. The ordinance shall specify that such costs are to be collected at the time of the issuance of a temporary or final certificate of occupancy or functional use and occupancy within the development, whichever shall come first. The ordinance also may provide that the required reimbursement may be paid (i) in lump sum, (ii) by agreement of the parties on installment at a reasonable rate of interest or rate of inflation, whichever is less, for a fixed number of years, or (iii) on such terms as otherwise agreed to by the initial and subsequent subdividers and developers.

Such ordinance provisions may provide that no certificate of occupancy shall be issued to a subsequent developer or subdivider until (i) the initial developer certifies to the locality that the subsequent developer has made the required reimbursement directly to him as provided above or (ii) the subsequent developer has deposited the reimbursement amount with the locality for transfer forthwith to the initial developer.

(6)Provisions for establishing and maintaining access to solar energy to encourage the use of solar heating and cooling devices in new subdivisions. The provisions shall be applicable to a new subdivision only when so requested by the subdivider.

- (c) Site plans or plans of development which are required to be submitted and approved in accordance with Code of Virginia, § 15.2-2286(8) shall be subject to the

provisions of Code of Virginia, §§ 15.2-2241-15.2-2245, *mutatis mutandis*.

and does not necessitate the preparation of a separate instrument, reference shall be made thereto on the plat.

12. Signature panels shall be provided for the chairman of the Chincoteague Planning Commission, the zoning administrator, and for the health officer and the resident highway engineer.
  13. Temporary cul-de-sacs where needed. (See addendum 6.)

2. The amount of such certified check, cash escrow, bond, or letter of credit shall not exceed the total of the estimated cost of construction based on unit prices for new public or private sector construction in the locality and a reasonable allowance for estimated administrative costs, inflation, and potential damage to existing roads or utilities.
3. If a developer records a final plat which may be a section of a subdivision as shown on an approved preliminary plat and furnishes to the governing body a certified check, cash escrow, bond, or letter of credit in the amount of the estimated cost of construction of the facilities to be dedicated within said section for public use and maintained by the locality, the commonwealth, or other public agency, the developer shall have the right to record the remaining sections shown on the preliminary plat for a period of five years from the recordation date of the first section, subject to the terms and conditions of this subsection and subject to engineering and construction standards and zoning requirements in effect at the time that each remaining section is recorded. In the event a governing body of a county, wherein the highway system is maintained by the Virginia Department of Transportation, has accepted the dedication of a road for public use and such road due to factors other than its quality of construction is not acceptable into the state highway system, then the governing body may require the subdivider or developer to furnish the town with a maintenance of such road until such time as it is accepted into the state highway system. In lieu of such bond, the governing body may accept a bank or savings and loan association's letter of credit on certain designated funds satisfactory to the governing body as the bank or savings and loan association, the amount and the form. "Maintenance of such road" shall be deemed to mean maintenance of the streets, curb, gutter, drainage facilities, utilities or other street improvements, including the correction of defects of damages and the removal of snow, water or debris, so as to keep such road reasonably open for public usage.
4. The developer shall set a time, subject to the approval of the governing body, or its agent, by which it is estimated the improvements shall be installed or complied [completed]. Unless an extension of that time is approved by the town council, or its agent, and a new estimated date of completion established, the town council or its agent shall take the necessary steps to proceed with the accomplishment and completion of the improvements, making use of the certified check or calling on the surety of the bond. No building permit shall be issued until final approval of the plat and all inspections have been made.
5. Upon the completion of the installation of all subdivision improvements, the subdivider shall furnish a statement under oath that all construction conforms to the requirements of this ordinance and the plan as approved by the town council or its

agent, to the best of its knowledge and belief.

6. When all required improvements have been properly inspected and certified satisfactory, the town councilor its agent shall release or cancel the bond as the case may be, except that the town councilor its agent may retain ten percent of the bond or bonds after completion of the construction work to insure that such work was properly installed; and to be held until such time as the roads are accepted into the secondary system of roads of Virginia Department of Transportation.
7. Upon written request of the developer, the town council may release or cancel a portion of the bond to reflect the satisfactory completion of a usable portion of the required improvements, as outlined below. The town council has 30 days after receipt of such written request to release any bond, escrow, letter of credit, or other performance guarantee required by the governing body unless the governing body or its designated administrative officer notifies the subdivider or developer in writing of nonreceipt of approval by applicable state agency, or of any specified defects or deficiencies in construction and suggested corrective measures prior to the expiration of the 30-day period.

If no such action is taken by the governing body or administrative agency within the time specified above, the request shall be deemed approved, and a partial release granted to the subdivider or developer. No final release shall be granted until after expiration of such 30-day period and there is an additional request in writing sent by certified mail return receipt to the chief administrative officer of such governing body. The governing body or its designated administrative agency shall act within ten working days of receipt of the request; then if no action is taken the request shall be deemed approved and final release granted to the subdivider or developer.

No governing body or administrative agency shall refuse to make a periodic partial or final release of a bond, escrow, letter of credit, or other performance guarantee for any reason not directly related to the specified defects or deficiencies in construction of the facilities covered by said bond, escrow, letter of credit or other performance guarantee.

Upon written request by the subdivider or developer, the governing body or its designated administrative agency shall be required to make periodic partial releases of such bond, escrow, letter of credit, or other performance guarantee in a cumulative amount equal to no less than 80 percent of the original amount for which the bond, escrow, letter of credit, or other performance guarantee was taken, based upon the percentage of facilities completed and approved by the governing body, local administrative agency, or state agency having jurisdiction. Periodic partial releases may not occur before the completion of at least 30 percent of the facilities covered by any bond, escrow, letter of credit, or other performance guarantee, or after completion of more than 80 percent of said facilities. The governing body or administrative agency shall not be required to execute more than three periodic partial releases in any 12-month period. Upon final completion and acceptance of said facilities, the governing body or administrative agency shall release any remaining bond, escrow, letter of credit, or other performance guarantee to the

subdivider or developer. For the purpose of final release the term "acceptance" is deemed to mean: when said public facility is accepted by and taken over for operation and maintenance by the state agency, local government department of agency, or other public authority which is responsible for maintaining and for operating such facility upon acceptance.

14.08. *Effect of recordation of the final plat.* Upon the recordation of final plat, and only after such recordation, the developer may transfer or sell lots included within such final plat, and the developer may exhibit such final plat in promoting the sale of such lots. Furthermore, the developer or a subsequent owner may acquire a building permit for construction on a lot covered by such final plat. In all advertising of lots covered by a final plat, the developer shall:

- (a) State whether officially approved water and sewerage facilities are available or not.
- (b) State whether roads are public or private.
- (c) State whether [the] lot is located in the floodplain.

14.09. *Improvements required to be provided in a major subdivision.* The following improvements shall be provided by the developer in a major subdivision as a prerequisite for recordation of the final plat, as may be required:

- (a) Public roads developed in accordance with the Virginia Department of Transportation 2005 Subdivision Street Requirements, as may be amended from time to time, and eligible for addition to the secondary system of state highways maintained by the Virginia department of Transportation and/or the town, if the developer intends for said roads to be public and not maintained by the developer and/or the owners of lots, parcels, or units within the subdivision; or alternatively, in the event that the developer does not intend such roads to be added to the secondary system, and with the expressed written agreement of the subdivision agent, private roads satisfying the following requirements or criteria..

1. Street width and right-of-way. If there is to be "no parking on street" then there shall be a minimum of 18 feet of pavement width and a 30 foot right-of-way.

If there is to be parking on one side of the street then there shall be a minimum of 24 feet of pavement width and a 36 foot right-of-way.

If there is to be parking on both sides of the street then there shall be a minimum of 28 feet of pavement width and a 40 foot right-of-way.

Larger widths may be required by the subdivision agent as deemed necessary due to use volumes, traffic densities, the inclusion, or engineering judgment.

2. Road structure. Paved surfaces shall be constructed in accordance with the current

edition of the Virginia Department of Transportation (VDOT) "Pavement Design Guide for Subdivision and Secondary Roads." Other surface materials may be approved for use by the subdivision agent if they are deemed appropriate for the soil characteristics and the intended use of the road.

3. Location. Placement of streets will be considered in relation to existing and planned streets as well as pedestrian or other uses. Land use permits shall be required for connections to public roads.
4. Cul-de-sacs. An adequate turnaround shall be provided at the end of each cul-de-sac, with additional right-of-way required as needed.
5. Sidewalks, curbs, gutters and driveway aprons. Concrete structures shall be installed within the right-of-way and conform to the specifications of the Town of Chincoteague Drawing Number 35, "Miscellaneous Concrete Work." If curb ramps are utilized they shall conform to the requirements of the Americans with Disabilities Act.
6. Drainage. The developer shall provide the subdivision agent with an engineer's drawing for approval depicting elevations, impervious surfaces and proposed drainage facilities. The developer shall construct all drainage facilities in accordance with the requirements of the current edition of the VDOT Drainage Manual. If those requirements are not possible to fulfill, they may be waived by the subdivision agent. When required drainage construction necessitates an easement through property outside the right-of-way, such easement shall be obtained by the developer and shall not be less than ten feet in width. If the development site includes a drainageway that is considered vital for the stormwater management of areas outside the subdivision, the subdivision agent may require the developer to deed a maintenance easement to the town.
7. Traffic control. Signage and other traffic control devices shall be required in accordance with the current edition of the U.S. Department of Transportation, Federal Highway Administration's "Manual on Uniform Traffic Control Devices." 911 signs shall be installed at intersections and street names subject to town approval. The acquisition and installation costs for traffic control devices will be borne by the developer. If a traffic signal is required, it shall be installed at the developer's expense and in accordance with the requirements of the VDOT resident engineer.
8. Utilities. Easements and utility installations shall be designed in accordance with the current requirements of the Code of the Town of Chincoteague as well as any other applicable governmental body, agency or utility provider. It shall be the developer's responsibility to obtain all necessary permits or approvals.
9. Street Lights. Installation of street lights may be required by the subdivision agent at intersections to public roads. Installation shall be the responsibility of the developer and completed in a manner that meets the current requirement of the town, VDOT and the electric utility.

## APPENDIX B—LAND SUBDIVISION AND DEVELOPMENT

10. Performance and Surety Bonds. Performance and surety bonds shall be required in a form mandated by the subdivision agent.
11. Maintenance. A legally enforceable covenant or agreement, not subject to modification or revocation, whereby the owners of such lots, parcels or units or an association comprised of such owners shall be financially obligated to maintain such private road in a manner that preserves the conditions created by the above requirements and criteria as deemed necessary by sound engineering judgment.
12. Other conditions. In making the determination whether to require public roads or permit private roads in any subdivision and the enforcement of the requirements or criteria set forth above, the subdivision agent shall give consideration to the number of lots involved in said subdivision, the relationship of said road to existing or planned roads, traffic density and volume, the convenience and safety of the public as well as the lot owners in the proposed subdivision, and to other considerations that may have a specific application to the proposed development site. In making the determinations required hereunder the subdivision agent shall consult with the roads engineer and other sources as deemed necessary. The subdivision agent reserves the right to require the developer to obtain professional engineering or consulting services as deemed necessary.
13. The subdivision agent with the concurrence of the road engineer may make reasonable modifications or deviations from the above requirements or criteria as site conditions may deem necessary based on sound engineering judgment.

*(Adopted 9/4/07)*

- (b) Drainage improvements.
- (c) Installation of water and/or sewer mains, if public service is available.
- (d) Surveying monuments.
- (e) Street signs on public roads.
- (f) Such other improvements as the planning commission may have made a part of its approval of the final plat.
- (g) Maintenance of parking bay and accessway. A legally enforceable covenant or agreement, not subject to modification or revocation, whereby the owners of such lots, parcels or units, or an association comprised of such owners shall be financially obligated to maintain such parking bays and/or accessways in such manner that reasonably preserves their conditions as required by the provisions of Appendix A, Zoning, Article VI, Section C-Parking of the Code of the Town of Chincoteague, and which actions would include but not be limited to, fixing potholes and eliminating prolonged water ponding, or other conditions as deemed reasonably necessary by sound engineering judgment.

***(Amended 9/18/08)***

All such improvements shall be made in conformance with the construction plans and specifications approved with the final plat.

### **Section 16. Design standards.**

16.01. *Mutual responsibility.* There is a mutual responsibility between the developer and the Town of Chincoteague to divide the land in any subdivision so as to provide for a harmonious and efficient land use pattern.

16.02. *Zoning and other requirements.* No land shall be subdivided unless such subdivision conforms to the provisions of the zoning ordinance of the Town of Chincoteague and other applicable town and state regulations.

16.03. Repealed 9/4/07.

16.04. Repealed 9/4/07.

16.05. *Drainage.* The developer shall construct all necessary drainage ditches and other drainage improvements along private roads and along public roads as specified on the final plat and in accordance with Virginia Department of Highways [Transportation] specifications and requirements. 16.06. *Monuments.* Permanent monuments shall be placed by the developer in the ground at

all comers and angle points in the outer lines of the subdivision. Such permanent monuments shall be constructed with a stable material not less than four inches in diameter and at least 30 inches long. Permanent monuments shall also be placed at all lot comers within the subdivision and at all points of angles and curvature in the right-of-way lines of all streets. Such monuments shall be iron or steel pipe not less than two inches nor more than three inches in diameter, and at least 30 inches long. The top of all permanent monuments shall be set not less than one-half inch, nor more than four inches above the finished grade at their respective locations.

16.07. *Water / sewerage service.* The following standards shall apply (also, see addendum 1):

Fire hydrants shall be installed where the water supply is adequate. All such water system improvement shall be constructed in accordance with state health department regulations.
- (b) Where a public sewerage system is made available at the perimeter of the subdivision, the service shall be extended to all lots within the subdivision, and private on-lot sewage disposal shall not be permitted.
- (c) Where public water and/or public sewerage services are not available, private (on-lot or community) systems shall be permitted; provided, however, that such installations shall meet requirements of the state water control board, the state health department and all other applicable county and state regulations.
- (d) Lots using on-site sewage disposal and private well systems shall provide one primary drainfield site and an additional nonoverlapping replacement drainfield site.

16.08. *Easements.* Easements for drainage and utility service shall be provided wherever necessary for proper maintenance. Such easements shall be not less than 15 feet in width.

16.09. *Lots.* In addition to the requirements of the zoning ordinance, lots shall be arranged in order that the following considerations are satisfied:

- (a) The lot arrangement, design and shape shall be such that lots will provide satisfactory and desirable sites for buildings and be properly related to topography. Side lot lines shall be approximately at right angles or radial to the road lines. Lots shall not contain peculiarly shaped elongations solely to provide necessary area, which would be unusable for normal purposes. Lots intended for business or industrial use shall be designed for such purposes with adequate space for off-street parking and loading.
- (b) No remnants shall be permitted. All such lands shall be combined with adjacent usable lots, unless the town permits another means of disposal.
- (c) Blocks shall be laid out to facilitate access to all lots. Block length greater than 1,200 feet shall be prohibited, unless permitted by the roads engineer. Blocks shall be wide enough to allow two tiers of lots, except where it is desirable to avoid frontage on collector roads or arterial highways or where topographic feature or parcel size prevent such arrangement.

17.01. Should any section or provision of this ordinance be declared by a court of competent jurisdiction to be invalid or unconstitutional, such decision shall not affect the validity or constitutionality of this ordinance as a whole or any part thereof other than the part so declared to be invalid or unconstitutional.
