PREFACE

This Code constitutes a recodification of the general and permanent ordinances of the Town of Chincoteague, Virginia.

Source materials used in the preparation of the Code were the 1977 Code and ordinances subsequently adopted by the town council. The source of each section is included in the history note appearing in parentheses at the end thereof. The absence of such a note indicates that the section is new and was adopted for the first time with the adoption of the Code. By use of the comparative tables appearing in the back of this Code, the reader can locate any section of the 1977 Code and any subsequent ordinance included herein.

The chapters of the Code have been conveniently arranged in alphabetical order, and the various sections within each chapter have been catchlined to facilitate usage. Notes which tie related sections of the Code together and which refer to relevant state law have been included. A table listing the state law citations and setting forth their location within the Code is included at the back of this Code.

Chapter and Section Numbering System

The chapter and section numbering system used in this Code is the same system used in many state and local government codes. Each section number consists of two parts separated by a dash. The figure before the dash refers to the chapter number, and the figure after the dash refers to the position of the section within the chapter. Thus, the second section of chapter 1 is numbered 1-2, and the first section of chapter 6 is 6-1. Under this system, each section is identified with its chapter, and at the same time new sections can be inserted in their proper place by using the decimal system for amendments. For example, if new material consisting of one section that would logically come between sections 6-1 and 6-2 is desired to be added, such new section would be numbered 6-1.5. New articles and new divisions may be included in the same way or, in the case of articles, may be placed at the end of the chapter embracing the subject, and, in the case of divisions, may be placed at the end of the article embracing the subject. The next successive number shall be assigned to the new article or division. New chapters may be included by using one of the reserved chapter numbers. Care should be taken that the alphabetical arrangement of chapters is maintained when including new chapters.

Page Numbering System

The page numbering system used in this Code is a prefix system. The letters to the left of the colon are an abbreviation which represents a certain portion of the volume. The number to the right of the colon represents the number of the page in that portion. In the case of a chapter of the Code, the number to the left of the colon indicates the number of the chapter. In the case of an appendix to the Code, the letter immediately to the left of the colon indicates the letter of the appendix. The following are typical parts of codes of ordinances, which may or may not appear in this Code.
at this time, and their corresponding prefixes:

CHARTER CHT:1
CHARTER COMPARATIVE TABLE CHTCT:1
CODE CD1:1
CODE APPENDIX CDA:1
STATE LAW REFERENCE TABLE SLT:1
CHARTER INDEX CHTI:1
CODE INDEX CDI:1

Indexes

The indexes have been prepared with the greatest of care. Each particular item has been placed under several headings, some of which are couched in lay phraseology, others in legal terminology, and still others in language generally used by local government officials and employees. There are numerous cross references within the indexes themselves which stand as guideposts to direct the user to the particular item in which the user is interested.

Looseleaf Supplements

A special feature of this publication is the looseleaf system of binding and supplemental servicing of the publication. With this system, the publication will be kept up-to-date. Subsequent amendatory legislation will be properly edited, and the affected page or pages will be reprinted. These new pages will be distributed, with instructions for the manner of inserting the new pages and deleting the obsolete pages.

Keeping this publication up-to-date at all times will depend largely upon the holder of the publication. As revised pages are received, it will then become the responsibility of the holder to have the amendments inserted according to the attached instructions. It is strongly recommended by the publisher that all such amendments be inserted immediately upon receipt to avoid misplacing them and, in addition, that all deleted pages be saved and filed for historical reference purposes.

Acknowledgments

This publication was under the direct supervision of Milton E. Lefkoff, Senior Code Attorney, and Jody Wilson, Editor, of the Municipal Code Corporation, Tallahassee, Florida. Credit is gratefully given to the other members of the publisher's staff for their sincere interest and able assistance throughout the project.
The publisher is most grateful to Mr. Jon C. Poulson, Town Attorney, and Ms. Karen Hipple, Administrative Assistant, for their cooperation and assistance during the progress of the work on this publication. It is hoped that their efforts and those of the publisher have resulted in a Code of Ordinances which will make the active law of the town readily accessible to all citizens and which will be a valuable tool in the day-to-day administration of the town's affairs.
AN ORDINANCE ADOPTING AND ENACTING A NEW
CODE FOR THE TOWN OF CHINCOTEAGUE, VIRGINIA; PROVIDING
FOR THE REPEAL OF CERTAIN ORDINANCES
NOT INCLUDED THEREIN; PROVIDING A PENALTY FOR THE
VIOLATION THEREOF; PROVIDING FOR THE MANNER OF
AMENDING SUCH CODE; AND PROVIDING WHEN SUCH
CODE AND THIS ORDINANCE SHALL BECOME EFFECTIVE.

BE IT ORDAINED BY THE TOWN COUNCIL OF THE TOWN OF
CHINCOTEAGUE, VIRGINIA:

Section 1. The Code entitled “The Code of the Town of Chincoteague,
Virginia,” consisting of chapters 1 through 70, each inclusive, and appendixes A and
B, is adopted.

Section 2. All ordinances of a general and permanent nature enacted on or
before May 16, 2002 and not included in the Code or recognized and continued in
force by reference therein, are repealed.

Section 3. The repeal provided for in Section 2 hereof shall not be construed to
revive any ordinance or part thereof that has been repealed by a subsequent ordinance
that is repealed by this ordinance.

Section 4. Unless another penalty is expressly provided, every person convicted
of a violation of any provision of the town Charter, this Code or any ordinance or
resolution of the town or rule, regulation or order promulgated by an officer or
agency of the town under authority duly vested in him or it shall be punished by a fine
not exceeding $500.00 or by imprisonment for a term not exceeding 12 months, or
both such fine and imprisonment. Each act of violation and each day upon which any
such violation shall occur shall constitute a separate offense. The penalty provided
by this section, unless another penalty is expressly provided, shall apply to the
amendment of any Code section, whether or not such penalty is reenacted in the
amendatory ordinance. In addition to the penalty prescribed above, the town may
pursue other remedies such as abatement of nuisances, injunctive relief and
revocation of licenses or permits.
Section 5. Additions or amendments to the Code when passed in such form as to indicate the intention of the town council to make the same a part of the Code shall be deemed to be incorporated in the Code, so that reference to the Code includes the additions and amendments.

Section 6. Ordinances adopted May 16, 2002, that amend or refer to ordinances that have been codified in the Code shall be construed as if they amend or refer to like provision of the Code.

Section 7. This ordinance shall become effective June 1, 2002.

AT THE CHINCOTEAGUE TOWNCOUNCIL RECESSED MEETING HELD ON MAY 16, 2002, ON A MOTION BY COUNCILMAN WOLFFE AND SECONDED BY COUNCILMAN FRESE THIS ORDINANCE WAS PASSED AND ADOPTED.

(b) In any action against the town to recover damages against it for any negligence in the construction or maintenance of its streets, alleys, lanes, parks, public places, sewers, reservoirs or water mains, where any person or corporation is liable with the town for such negligence, every such person or corporation shall be joined as defendant with the town in any action brought to recover damages for such negligence, and where there is judgement or verdict against the town, as well as the other defendant, it shall be ascertained by the court or jury which of the defendants is primarily liable for the damages assessed.

(c) If it be ascertained by the judgement of the court that some person or corporation other than the town is primarily liable, there shall be a stay of execution against the town until execution against such person or persons or other corporation or corporations shall have been returned without realizing the full amount of such judgement.

(d) If the town, where not primarily liable, shall pay the said judgement in whole or in part, the plaintiff shall, to the extent that said judgement is paid by the town, assign the said judgement to the town without recourse on the plaintiff, and the town shall be entitled to have execution issued for its benefit against the other defendant or defendants who have been ascertained to be primarily liable, or may institute any suit in equity to enforce the said judgement, or an action at law, or scire facias to revive or enforce said judgement.

(e) No order shall be made, and no injunction shall be awarded, by any court or judge, to stay the proceedings of the town in the prosecution of their works, unless it be manifest that they, their officers, agents or servants are transcending the authority given them by this act [Charter], and that the
interposition of the court is necessary to prevent injury that cannot be adequately compensated in damages.

58. Except when prohibited by general law, the town may levy a tax or a license on any person, firm or corporation pursuing or conducting any trade, business, profession, occupation, employment or calling whatsoever within the boundaries of the town, whether a license may be required by the state or not, and may exceed the state license, if any be required, and may provide penalties for any violation thereof.

59. Any payment of delinquent taxes made by the tenant, unless under an expressed contract contained in his lease, shall be credit against the person to whom he owes the rent.

60. A lien shall exist on all real estate within the corporate limits for taxes, levies and assessments in favor of the town, together with all penalties and interest due thereon, assessed thereon from the commencement of the year for which the same were assessed and the procedure for collecting the said taxes, for selling real estate for town taxes and for the redemption of real estate sold for town taxes shall be the same as provided in the general law of the state to the same extent as if the provisions of said general law were herein set out at length. The said town and its treasurer shall have the benefit of all other and additional remedies for the collection of town taxes which are now or hereafter may be granted or permitted under the general law.

61. All goods and chattels wheresoever found may be distrained and sold for taxes and licenses assessed and due thereon; and no deed of trust or mortgage upon goods and chattels shall prevent the same from being distrained and sold for taxes and licenses assessed against the grantor in such deed while such goods and chattels remain in the grantor's possession.

62. Ordinances making the annual tax levy, appropriation ordinances, ordinances and resolutions pertaining to local improvements and assessments, ordinances and resolutions providing for or directing any investigation of town affairs, resolutions requesting information from administrative bodies, or directing administrative action and emergency measures shall take effect at the time indicated in such ordinances. Except as otherwise prescribed in this Charter, all ordinances and resolutions passed by the council shall take effect at the time indicated in such ordinances, but in event no effective date shall be set forth in any such ordinance, resolution or bylaw passed by the council, the same shall become effective thirty days from the date of its passage.

63. (a) There shall be set apart annually from the revenues of the town a sinking fund sufficient in amount, to be invested as hereinafter set forth, to pay the outstanding indebtedness of the town as it matures and which by its terms is not payable in one year, and the council may in its discretion annually from time to time, set aside such additional sinking funds as may be deemed proper.

(b) When taxes on real and personal property are collected for the year, the town treasurer shall take therefrom the necessary amount and any additional sum, if any, so set apart, and deposit the same in a separate account to the credit of the sinking fund in such bank or banks as the council may designate; and the
said council may, if it shall so elect, cause its sinking fund to be loaned on improved real estate situated in the Town of Chincoteague, secured by first mortgage liens thereon, provided such funds shall not be loaned to a greater amount than fifty per centum of the market value of the property, and fire insurance shall be carried on the property during the loan in an amount at least equal to the face amount of the loan, which money shall be loaned at the rate of six per centum per annum, payable semi-annually and for no longer than five years at any one time.

(c) All sinking funds shall be used exclusively in the payment or purchase and redemption of outstanding bonds of the town, and when such sinking funds are not required or may not within a reasonable time be required for payment of any bond of the town, or cannot be used to advantage in the purchase and redemption of any bonds of the town which may be outstanding, the same shall be securely invested in interest bearing municipal, state or government bonds or loaned upon otherwise unencumbered real estate, within the Town of Chincoteague upon the basis hereinbefore provided, or invested in any securities approved by the general laws of the state for the investment of such funds, or deposited in a bank on a reasonable rate of interest. Such sinking fund may be used in the payment or purchase and redemption of all bonds of the town at the discretion of the council.

(d) The town council shall act as the sinking fund commission and shall provide for the investment, deposit and application of the funds in conformity to the provisions of this Charter; and it may require of any bank or banks receiving on deposit its revenues or any of its sinking fund security satisfactory to the council.

64. Upon the death, resignation, removal or expiration of the term of any officer of the town, the council shall order an annual audit and investigation to be made of the accounts of such officer and report to be made to the council as soon as practicable. After the close of each fiscal year an audit shall be made of the accounts of all town officers; said audit shall be made by a qualified accountant, selected by the council, who shall have no personal interest, direct or indirect, in the financial affairs of the town or any of its officers or employees. The council may at any time provide for an examination or audit of the accounts of any officer or department of the town government.

65. The town council may appoint a trial justice for the said town who shall serve for two years from the date of his appointment and until his successor is appointed by the council and qualifies. The mayor, or any other qualified voter of the Town of Chincoteague whom the council deems qualified, may be appointed by it as such trial justice. If the mayor is appointed as trial justice, he shall discharge such duties as the trial justice of the town under this Charter and not as the mayor of the town, in addition to the execution of the duties of mayor imposed upon him by this Charter; and his powers, duties, authority and jurisdiction as such trial justice shall be as hereinafter provided for the trial justice. Should the mayor be appointed trial justice, he shall receive the salary of mayor provided by the
council for the discharge of his duties as mayor as well as such salary of trial justice as may be provided by the council, if any.

Said trial justice is hereby vested with all the power, authority and jurisdiction and charged with all the duties within and for the Town of Chincoteague, and in criminal matters for one mile beyond the corporate limits thereof, which are, or may hereafter be, conferred upon trial justices by the laws of the State of Virginia, so far as the same may be applicable and not in conflict with the provisions of this Charter; and any amendments of the trial justice laws of this state shall be considered as amendments also of this section of this Charter if the same are applicable hereto.

Fees and costs shall be assessed by the trial justice and shall be collected as provided by the laws of the State of Virginia relating to trial justices as the same shall now be or as hereafter amended. All fees and costs collected by the said trial justice and all fines collected for violations of all laws and ordinances of the town shall be paid into the town treasury for the use and benefit of the town.

Removals may be taken, and appeals from the decisions of the trial justice may be taken, to the Circuit Court of Accomack County in the same manner, upon the same terms and shall be tried in the same way as removals, or as appeals from the decision of trial justices, as the case may be, are provided to be taken and tried by the laws of the State of Virginia, relating to trial justice as the same shall now be or as hereafter amended.

The council may also appoint such clerk or clerks as may in their discretion be necessary, provide for just compensation therefor and provide necessary records.

The council of said town shall provide a salary to compensate such trial justice in such amount and payable at such times as the council shall deem proper, and the council may provide also for a vacation period, either with or without pay, and for such duration, as in the judgement of the council may be proper.

Like provisions may be made for a substitute justice, and when such substitute acts, he shall receive the compensation which would have been paid him had the principal acted, and which compensation shall be deducted from the salary or allowance made to the principal.

Nothing contained herein shall prevent the Town of Chincoteague from combining with the County of Accomack for the use of one trial justice and one substitute trial justice for such combined town and county, in such manner as may be provided by the laws of the State of Virginia relating to trial justices; and if the Town of Chincoteague and County of Accomack shall at any time combine for the use of one trial justice and one substitute trial justice for the said town and the said county, the laws of the State of Virginia relating to trial justices, so far as applicable, shall control and not this section of this Charter; provided, however, that the combination of the said town with the said county for the use of one trial justice and one substitute trial justice shall not prevent the council of the town at any time thereafter it shall desire so to do from withdrawing the Town of Chincoteague from such combination by a vote of the council and appointing a trial justice and a substitute trial justice for the Town of Chincoteague under the provisions of this Charter,
notwithstanding anything in the trial justice laws of Virginia to the contrary; and likewise nothing herein contained shall prevent the town, after withdrawing from such combination, to adopt again the combination with the county.

The powers and jurisdiction provided for in this subsection sixty-five (65) of this act [Charter] as to matters other than those pertaining or relating to violations of ordinances of the town may be exercised only to the extent permitted by general law.

66. The town shall have the power to extend or contract the corporate limits of the town as provided by the Constitution and general laws of Virginia in force at the time.

67. The Town of Chincoteague shall have authority to impose taxes or assessments upon abutting landowners for making and improving the walkways upon then existing streets, and improving and paving then existing alleys, and for either the construction, or for the use of sewers, and the same when imposed, shall not be in excess of the peculiar benefits resulting therefrom to such abutting landowners; and the procedure for making such assessments and the method of collecting such taxes and assessments, shall be in accordance with general law.

68. The Town of Chincoteague is hereby constituted a separate road taxing district. The said town shall have the power to own, layout, and maintain its street system. The County of Accomack shall not levy any tax on the said town, or any property or residents therein for road purposes. Nor shall said town be embraced in any road district of the County of Accomack.

69. The Town of Chincoteague may levy a tax on all subjects of taxation not prohibited to it by, nor exempted in, the Constitution and general laws of Virginia.

70. The council hereinafter created shall have full power and authority, except as herein otherwise specifically provided, to exercise herein all of the powers conferred upon the town, and pass all laws and ordinances relating to its municipal affairs, subject to the Constitution and general laws of the state and of this Charter, and shall have full and complete control of all fiscal and municipal affairs of said town and all of its real and personal properties, and may from time to time, amend, re-amend and/or repeal any or all of the said ordinances, for the proper regulation, management, and government of the said town and may impose fines and penalties for the violation or nonobservance thereof.

71. The enumeration of specific powers, privileges, and authority in this Charter shall not be deemed exclusive, but in addition to the powers and privileges herein mentioned, implied or appropriated, the said town shall have and may exercise, all other powers, which are or may hereafter be, possessed, or enjoyed, by any towns under the Constitution and laws of the Commonwealth of Virginia, or not denied by the same, as fully and completely as if herein set out at length.

Sec. 2. Daylight saving time.
CHARTER

The council may by resolution require, provide for and enforce daylight saving time in the town. Such time when so prescribed shall govern the conduct of all businesses and town elections within the corporate limits of the town. (Acts 1958, ch. 135, § 1)

CHAPTER 3. TOWN PLAN

Sec. 1. Adoption.

The council may adopt a town plan, showing the streets, highways, and parks heretofore laid out, adopted, and established, and such town plan shall be final with respect to the location, length, and width of such streets and highways, and the location and dimensions of such parks. Such town plan is hereby declared to be established for the promotion of the health, safety, and general welfare. Upon the adoption of the town plan, or any amendment thereto, a certificate to that effect, together with a plat, shall be filed immediately with the clerk of every county affected by such town plan and amendment.

Sec. 2. Appointment, etc., of planning commission.

The council is hereby authorized to appoint a town planning commission, fix the number and term of members, remove any member for cause, fill any vacancies, which may occur, and provide for the powers and duties of such commission, not in conflict with the provisions of this act [Charter].

Sec. 3. Amendments.

The council may at any time, after a public hearing, amend the town plan, by widening, relocating, or closing existing streets and highways, and by altering any existing part or by laying out new streets and highways and establishing new parks. Before amending the town plan, the council shall refer the proposed amendment to the town planning commission for a report thereon, and shall not act on such amendment until a report has been received from said commission, unless a period of thirty days has elapsed after the date of reference to the commission. Any amendment of the town plan, upon its adoption by the council, shall be final unless changed as herein provided as to the location, length, and width of any street or highway, and the location and dimensions of any park. Any widening, relocating, closing or laying out of streets and highways proposed under the provisions of law other than those contained in this article shall be deemed an amendment of the town plan, and shall be subject in all respects to the provisions of this chapter.

Sec. 4. Approval of plats for streets and highways—Generally.

No plat showing a new street or highway within the town, shall be filed or recorded in the office of the clerk of the town or of any county until such plat has been approved by the council. Before giving any approval, the council shall refer every such plat to the town
planning commission for a report, and shall not act on any plat so referred until a report has been received from the commission, unless a period of forty-five days has elapsed after the date of reference to the commission. Before reporting to the council on any plat, the commission shall hold a public hearing thereof. If any plat is disapproved by the commission, it shall report the reasons for such disapproval to the council. The council shall not approve any plan unless the streets and highways provided in such plats are of sufficient width, of proper grades, and suitably located to meet the probable traffic needs; to afford adequate light, air, and access of fire apparatus to such buildings as may be erected along the proposed streets and highways; and to insure healthful conditions on the land adjacent to such streets and highways. The council may, in appropriate cases, require that a plat, before being approved, shall provide adequate open spaces for parks, playgrounds, or other recreational uses; but the inclusion of such open spaces upon a plat does not require their dedication to public use. After a plat has been approved by the council, the streets, highways, parks, and other open spaces shall be a part of the town plan. The council, after a public hearing, may adopt general regulations in regard to the filing of plats.

**Sec. 5. Same—Conditions.**

(a) Before approving such plat, and thereby accepting the dedication of the streets, alleys, parks and public places thereon, the council shall require that the streets and alleys thereon shall be properly laid out and located with reference to the topography of the land so platted and the adjoining lands, both as to connections and widths, which widths of such streets and alleys shall be plainly marked in figures or written on such plat, and which streets and alleys shall be laid out in harmony with the general plan of the town.

(b) And, before approving such plat, and thereby accepting the dedication of the streets and alleys thereon, the council shall require the owner thereof to execute and deliver to the Town of Chincoteague a release and waiver of any claim or claims for damages which such owner, his heirs, successors or assigns may have or acquire against the Town of Chincoteague by reason of establishing proper grade lines on and along such streets and alleys and by reason of doing necessary grading or filling for the purpose of placing such streets and alleys upon the proper grade and releasing the Town of Chincoteague from building any retaining wall or walls along the streets and alleys and property lines; and the council may require such release and waiver to be written and executed on said plat and recorded therewith or by an instrument of writing to be executed and recorded in the clerk's office of the Circuit Court of Accomack County.

And the council may, in its discretion, require the owner of such platted lands to submit profiles of such streets and alleys, showing the contour thereof, together with proper grade lines laid thereon, and if and when the council is satisfied that the proper grade lines are laid on such profiles, the profiles shall be approved by the council and recorded by the owner or at his expense in the record of the profiles of the streets and alleys of the town, and the council may in its discretion, require such release and waiver to be made with reference thereto.
(c) Before approving any such plat of any subdivision of lots or lands the town council may, at its discretion, require the owner of such lot or lands to grade the streets and alleys therein, according to grade lines approved and established by the council.

Sec. 6. Issuance of building permits.

For the purpose of preserving the integrity of the plan, no permit shall hereafter be issued for the construction of any building within the street lines of any mapped street or highway, as laid down in the town plan, within the town. Provided, however, if the land within any mapped street or highway is not yielding a fair return to the owner, the board of appeals, provided for herein, by a majority vote of all its members, may issue a permit for a building within the street line of such street or highway, upon such conditions as will increase as little as possible the cost of opening such street or highway, and will protect as far as possible the rights of the public and the integrity of the town plan. The board of appeals, hereinafter authorized, before taking any action under the provisions of this section, shall hold a public hearing, of which adequate notice shall be given to all persons deemed to be affected. Any decision by the board of appeals, rendered under the provisions of this section, shall be subject to the same court review as provided for zoning decisions of the board.

Sec. 7. Conformity with plan.

If such town plan is adopted, no public sewer, water pipe, or other public utility shall be laid and no grading or paving shall be done by the town in any street or highway in the town, unless such street or highway has been placed upon the town plan by the council. No permit shall be issued for any building in the town unless such building is located adjacent to a street or highway, which has been placed upon the town plan by the council. Provided, however, where the literal enforcement of the provisions of this section would result in practical difficulty or unnecessary hardship, or where the nature or use of the proposed building does not require its location to be adjacent to a street or highway, the board of appeals, by a majority vote of all its members, may issue a permit for a building, upon such condition as the board may deem necessary to preserve the integrity of the town plan and to insure the proper location of future streets and highways in the town and the surrounding area. Any decisions of the board of appeals, rendered under the provisions of this section, shall be subject to the same court review as provided for zoning decisions of the board.

CHAPTER 4. ZONING

Sec. 1. Generally.

For the purpose stated in chapter one hundred and ninety seven of the Acts of Assembly, approved March 18, 1926, the town council is hereby empowered to pass zoning ordinances in conformity with the said act, as amended, subject, however, to the following modifications thereto:
(a) The council shall not adopt any zoning ordinance or map until it shall have appointed a town planning commission, as provided for in this act [Charter] and shall have received from said commission its recommendations as to a zoning ordinance and map, and shall have held a public hearing thereon.

(b) Any zoning ordinance, regulations, restrictions, and boundaries of districts may be changed from time to time by the council, either upon its own motion or upon petition, under such conditions as the council may prescribe, after a public hearing and adequate notice to all owners and parties affected. If a protest or protests be filed with the council, signed by the owners of twenty per centum or more of the area of the land included in the proposed change, or by the owners of twenty per centum or more of the area of the land immediately adjacent to the land included in the proposed change, within a distance of one hundred feet therefrom, or by the owners of twenty per centum or more of the area of the land directly opposite across any street or streets from the land included in the proposed change, within a distance of one hundred feet from the street lines directly opposite, then no such change shall be made except by the majority vote of all of the members of the council. No change shall be made by the council in any zoning ordinance or map until such change has been referred to the town planning commission for a report thereon, and no action shall be taken by the council until a report has been received from the commission, unless a period of thirty days has elapsed after the date of reference to the commission.

(c) Within thirty days after the adoption of any zoning ordinance and map, the council shall appoint a board of appeals, consisting of seven members, none of whom shall hold any other positions with the town. (Ord. of 7-1-1994)

The council may remove any member of the board for cause, after a public hearing. If a vacancy occurs otherwise than by the expiration of the term of the different members, it shall be filled by the council for the unexpired term.

Unless the council designates some member of the board as a chairman, the board shall select a chairman from among its own members, and may create and fill such other offices as it may choose. The board may employ such persons as the council may approve, and may expend such sums as are appropriated by the council for its work.

CHAPTER 5. ADMINISTRATION AND GOVERNMENT

Sec. 1. Town council generally.

(a) The present mayor and council of the Town of Chincoteague shall continue in office until the expiration of the terms for which they were respectively elected.
CHARTER

(b) The administration and government of the Town of Chincoteague shall be vested in one body to be called the council of the Town of Chincoteague, which shall consist of seven members, six of whom shall be known as councilmen and one to be known as mayor, all of whom shall be residents and qualified voters of the said town. No person shall be a candidate simultaneously for the office of mayor and council member. No council member shall be eligible for qualification or election to the office of mayor unless (i) the council member's term of office will expire on June 30 of the year of the election for mayor or (ii) the council member's term of office will expire after June 30 of the year of the election for mayor, the council member submits his written resignation to the council at least 120 days before the day of the election for mayor, and such resignation shall become effective on June 30 of the year of the election for mayor. The council may create, appoint, or elect such departments, bodies, boards, and other officers, or assessors or attorneys, as are hereinafter provided for, or as are permitted or required by law to be appointed by the council, or as may be deemed necessary or proper, and may fix their compensation and define their duties.

(Ord. of 7-1-1993)

Sec. 2. Mayor and vice-mayor.

(a) The mayor shall preside at the meetings of the council and perform such other duties as may be prescribed by this Charter and by general law, and such as may be imposed by the council, consistent with his office. He shall be recognized as the official head of the town for all ceremonial purposes, by the courts for the purpose of serving civil process, and by the Governor for military purposes. In time of public danger or emergency, he may take command of the police, maintain order and enforce the law. Such course of action shall be subject to review by the council.

The mayor shall have no right to vote in the council except that in every case of a tie vote of the council, the mayor shall be entitled to vote and his vote in case of a tie only shall have the same weight and effect as the vote of a councilman.

The mayor shall have no power to suspend, remove or discharge any officer, agent or employee of the town nor shall he have any power or authority to appoint or employ any officer, agent or employee of the town nor to fix the term of office or employment, or the compensation, or to increase or decrease the power and authority of any officer, agent, or employee of the town, unless such power shall have been given him by the council, but the mayor shall have such powers with respect to the chief of police, the police, the policemen and employees of the police force when and if the mayor is given the control and supervision of the chief of police.

(b) Every ordinance, or resolution having the effect of an ordinance, shall, before it becomes operative be presented to the mayor. If he approves, he shall sign it, but if not, he may return it, with his objections in writing, to the town manager who shall enter the mayor's objections at length on the minute book of the council. The council shall thereupon proceed to reconsider such ordinance or resolution. If, after such consideration, two-thirds of all the members elected to the council shall agree to pass the ordinance or resolution, it shall become operative notwithstanding the objection of the mayor. In all such cases the votes of members of the council upon such reconsideration shall be determined by "yeas"
and "nays," and the names of the members voting for and against the ordinance or resolution shall be entered on the minute book of the council. If any ordinance or resolution shall not be returned by the mayor within five days (Sunday excepted) after it shall have been presented to him, it shall become operative in like manner as if he has signed it, unless his term of office or that of the council, shall expire within said five days.

(c) The council shall at its first meeting in July following every regular municipal election, choose one of its members as vice-mayor. The vice-mayor shall perform the duties of the mayor during his absence or disability.

The member of the council who shall be chosen vice-mayor, shall continue to have all of the rights, privileges, powers, duties and obligations of councilmen even when performing the duties of mayor during the absence or disability of the mayor of the town.  
(Acts 1981, ch. 84, § 1)

Sec. 3. Election of mayor and council; terms of office; meetings of council; vacancies.

(a) At the regular municipal election to be held in the town in 1982, and every two years thereafter, there shall be elected, in the manner prescribed by law, three councilmen for terms of four years. A mayor shall be elected for a term of four years in 1984 and every four years thereafter.

Municipal elections shall be held at the time and in the manner provided for by general law. Terms of office shall begin on the first day of July next following the election. Each councilman and the mayor elected as herein above provided shall serve for the term stated or until his successor shall have been elected and qualified. The council shall be a continuing body, and no measure pending before such body shall abate or be discontinued by reason of expiration of the term of office or removal of the members of said body or any of them.

(b) The council shall, by ordinance, fix the time for their stated meetings. Special meetings shall be called by the clerk of the council upon the request of the mayor, or any three members of the council; no business shall be transacted at a special meeting but that for which it shall be called, unless the council be unanimous. The meetings of the council shall be open to the public, except when the public welfare shall require executive sessions.

If any member of the said council shall be voluntarily absent from three regular meetings of the council consecutively, his seat may be deemed vacant by resolution of the council and thereupon his unexpired term shall be filled according to the provisions of this act [Charter]. (Acts 1958, ch. 135, § 1; Acts 1981, ch. 84, § 1)

Sec. 4. Town clerk [manager].

The town clerk [manager] shall be appointed by the council, and shall attend the meetings of the council and shall keep permanent records of its proceedings; he shall be custodian of the town seal and shall affix it to all documents and instruments requiring the seal, and shall attest the same; he shall keep all papers, codes, documents, and records

pertaining to the town, the custody of which is not otherwise provided for in this Charter; he shall give notice to all parties presenting petitions, or communications to the council of the final action of the council on such communications or petitions; he shall give to the proper department or officials ample notice of the expiration or termination of any franchise, contracts or agreements; he shall publish such reports and ordinances as the council is required to publish, and such other records and ordinances as it may direct; he shall upon final passage transmit to the proper departments or officials copies of all ordinances or resolutions of the council relating in any way to such departments or to the duties of such officials, and he shall perform such other acts and duties as the council may, from time to time, allow or require.

See 5. Town treasurer.

(a) The town treasurer shall, before entering upon the duties of his office, give bond with sufficient surety to be approved by the council, in a penalty of such amount as may be fixed by the council from time to time, payable to the Town of Chincoteague, conditioned for the true and faithful performance of the duties of his office. The treasurer shall be responsible for the collection of all taxes, licenses and levies and charges for services furnished by the public utilities of the town. The council shall have authority to place in the hands of a town collector to be appointed by it, the collection of any taxes, licenses and other levies at any time if in the discretion of the council it shall be proper so to do.

(b) The town treasurer shall receive all moneys belonging to the town which it is his duty to collect from persons owing the same to the town, or which it is the duty of other officers of the town to collect and pay over to him, and pay the same out as the ordinances of the town may prescribe; to keep such moneys safely and account therefor; and to pay all drafts or orders made on him in conformity with the ordinances of the town.

(c) The funds of the town shall be deposited by the treasurer in such bank or banks as the council may direct, and such bank or banks may be required to give security in such sum or sums as the council shall fix. He shall keep books showing accurately the state of his accounts and the money of the town shall be kept distinct and separate from his own money and he is hereby expressly prohibited from using directly or indirectly the town's money, checks, or warrants in his custody and keeping for his own use and benefit, or that of any person or persons whomsoever, and any violation of this provision shall subject him to immediate removal from office.

(d) The books and accounts of the town treasurer and all papers relating to the accounts and transactions of the town, shall be at all times subject to the inspection of the mayor, the town council, and such other persons as the council may appoint, to examine the same, and all such books and accounts, together with any balance or moneys on hand, shall be transferred by the treasurer to his successor at every new appointment, or delivered up as the council may at any time require.

(e) The town treasurer shall, when required by the council, render an account to the council showing the state of the treasury and the balance of money on hand. He shall also, if required so to do by the council, accompany such account with a statement of all money
received by him and on what account, with a list of all checks paid by him during the month then closed, and shall furnish such other information, accounts and statements as the town council may direct.

(f) The town treasurer shall annually submit to the town council, at such time as directed by the council, a full and detailed account of all receipts and disbursements made during the fiscal year just closed.

(g) All taxes, levies or other sums of money of whatever nature received by the town treasurer belonging to the Town of Chincoteague shall be credited by the treasurer on his books to the Town of Chincoteague and shall be paid out by him only on a warrant of the clerk of the council, countersigned, by the mayor.

(h) The treasurer shall keep a separate account of each fund and appropriation and the debts and credits belonging thereto; provided, however, that the council shall have the right to require all town funds to be deposited to the credit of the town and may prescribe by resolution or ordinance such other method of disbursement as it shall from time to time deem proper.

(i) All moneys received on all special assessments shall be held by the treasurer as a special fund, to be applied to the payment of the matter for which the assessment was made and said moneys shall be used for no other purpose.

(j) The treasurer shall perform such additional duties as may be required of him by the council not inconsistent with the laws of the state.

(k) The town treasurer shall receive for his services such compensation, if any, as the council may deem proper.

Sec. 6. Chief of police.

There shall be appointed by the council a chief of police who shall qualify and give bond in such amount as the council may require. He shall be vested with powers of a conservator of the peace, and shall have the same powers and discharge the same duties as a constable within the corporate limits of the town and to a distance of one mile beyond the same, and shall perform such other duties as may be from time to time prescribed by the council.

(Acts 1958, ch. 135, § 1)

Sec. 7. Town officers generally.

(a) The town council may combine offices when not expressly prohibited, except that the assessing and collecting officers shall not be the same person.

(b) The town council shall grant and pay to all town officers and employees such salaries or compensation, if any, as the said council may from time to time deem just and proper, or which shall be fixed by this act [Charter], except as such salaries or compensation may be fixed by general law.

(b) In the preparation of a supplement to this Code, all portions of the Code which have been replaced shall be excluded from the Code by the omission thereof from reprinted pages.

(c) When preparing a supplement to this Code, the codifier, meaning the person, agency or organization authorized to prepare the supplement, may make formal, non substantive changes in ordinances and parts of ordinances included in the supplement, insofar as it is necessary to do so to embody them in a unified Code. This notice will be published at least once in at least one official newspaper of general circulation within the community. Sec. 2-224. Competitive bidding on state-aid projects.

No contract for the construction of any building or for an addition to or improvement of an existing building by the town or any subdivision of the town for which state funds of not more than $30,000.00 in the aggregate or for the sum of all phases of a contract or project either by appropriation, grant-in-aid or loan are used or are to be used for all or part of the cost of construction shall be let except after competitive sealed bidding or after competitive negotiation as provided under subsection 2-296(c). The procedure for the advertising for bids or for proposals and for letting of the contract shall conform, mutatis mutandis, to this division.

State law reference—Similar provisions, Code of Virginia, § 2.2-4305.
Sec. 2-225. Withdrawal of bid due to error.

(a) A bidder for a public construction contract, other than a contract for construction or maintenance of public highways, may withdraw his bid from consideration if the price bid was substantially lower than the other bids due solely to a mistake therein, provided the bid was submitted in good faith, and the mistake was a clerical mistake as opposed to a judgment mistake and was actually due to an unintentional arithmetic error or an unintentional omission of a quantity of work, labor or material made directly in the compilation of a bid, which unintentional arithmetic error or unintentional omission can be clearly shown by objective evidence drawn from inspection of original work papers, documents and materials used in the preparation of the bid sought to be withdrawn. If a bid contains both clerical and judgment mistakes, a bidder may withdraw his bid from consideration if the price bid would have been substantially lower than the other bids due solely to the clerical mistake, that was an unintentional arithmetic error or an unintentional omission of a quantity of work, labor or material made directly in the compilation of a bid which shall be clearly shown by objective evidence drawn from inspection of original work papers, documents and materials used in the preparation of the bid sought to be withdrawn. One of the following procedures for withdrawal of a bid shall be selected by the town and stated in the advertisement for bids: (i) the bidder shall give notice in writing of his claim of right to withdraw his bid within two business days after the conclusion of the bid opening procedure and shall submit original work papers with such notice; or (ii) the bidder shall submit to the town or designated official his original work papers, documents and materials used in the preparation of the bid within one day after the date fixed for submission of bids. The work papers shall be delivered by the bidder in person or by registered mail at or prior to the time fixed for the opening of bids. In either instance, such work papers, documents and materials may be considered as trade secrets or proprietary information subject to the conditions of Code of Virginia, §. The bids shall be opened one day following the time fixed by the town for the submission of bids. Thereafter, the bidder shall have two hours after the opening of bids within which to claim in writing any mistake as defined in this subsection and withdraw his bid. The contract shall not be awarded by the town until the two-hour period has elapsed. Such mistake shall be proved only from the original work papers, documents and materials delivered as required in this subsection.

(b) The town may establish procedures for the withdrawal of bids for other than construction contracts.

(c) No bid may be withdrawn under this section when the result would be the awarding of the contract on another bid of the same bidder or of another bidder in which the ownership of the withdrawing bidder is more than five percent.

(d) If a bid is withdrawn under the authority of this section, the lowest remaining bid shall be deemed to be the low bid.

(e) No bidder who is permitted to withdraw a bid shall, for compensation, supply any material or labor to or perform any subcontract or other work agreement for the person to whom the contract is awarded or otherwise benefit, directly or indirectly, from the performance of the project for which the withdrawn bid was submitted.
ADMINISTRATION

(f) If the town denies the withdrawal of a bid under this section, it shall notify the bidder in writing stating the reasons for its decision and award the contract to such bidder at the bid price, provided such bidder is a responsible and responsive bidder.

(Code 1977, § 2-15-12)

State law reference—Withdrawal of bid due to error, Code of Virginia, § 2.2-4330.

Sec. 2-226. Bid deposits.

Bid deposits or surety may be prescribed in the public notices inviting bids. Unsuccessful bidders shall be entitled to the return of that deposit or surety. A successful bidder, upon failure on his part to enter into a contract within the time specified after written notification of the bid award, shall forfeit, as liquidated damages, any surety deposited with the town.

(Code 1977, § 2-15-8)

State law reference—Bid bonds, Code of Virginia, § 2.2-4334.

Sec. 2-227. Bid bonds.

(a) Except in cases of emergency, all bids or proposals for construction contracts in excess of $100,000.00 shall be accompanied by a bid bond from a surety company selected by the bidder which is legally authorized to do business in the commonwealth, as a guarantee that if the contract is awarded to such bidder, that bidder will enter into the contract for the work mentioned in the bid. The amount of the bid bond shall not exceed five percent of the amount bid.

(b) No forfeiture under a bid bond shall exceed the lesser of the following:

(1) The difference between the bid for which the bond was written and the next low bid; or

(2) The face amount of the bid bond.

(c) Nothing in this section shall preclude the town from requiring bid bonds to accompany bids or proposals for construction contracts anticipated to be less than $100,000.00.

(Code 1977, § 2-15-14)

State law reference—Bid bonds, Code of Virginia, § 2.2-4336.

Sec. 2-228. Alternative forms of security.

(a) In lieu of a bid, payment, or performance bond, a bidder may furnish a certified check or cash escrow in the face amount required for the bond.

(b) If approved by the town, a bidder may furnish a personal bond, property bond, or bank or savings institution's letter of credit on certain designated funds in the face amount required for the bid, payment or performance bond. Approval shall be granted only upon a determination that the alternative form of security proffered affords protection to the town equivalent to a corporate surety's bond.

(Code 1977, § 2-15-14)

State law reference—Similar provisions, Code of Virginia, § 2.2-4338.
Sec. 2-229. Prequalification for construction.

(a) Any prequalification of prospective contractors for construction by the town subsequent to July 1, 1995, shall be pursuant to a prequalification process for construction projects adopted by the town. Such process shall be consistent with this section.

(b) The application form used in such process shall set forth the criteria upon which the qualifications of prospective contractors will be evaluated. The application form shall request of prospective contractors only such information as is appropriate for an objective evaluation of all prospective contractors pursuant to such criteria. Such form shall allow the prospective contractor seeking prequalification to request, by checking the appropriate box, that all information voluntarily submitted by the contractor pursuant to this section shall be considered a trade secret or proprietary information subject to Code of Virginia, § 2.2-4317.

(c) In all instances in which the town requires prequalification of potential contractors for construction projects, advance notice shall be given of the deadline for the submission of prequalification applications. The deadline for submission shall be sufficiently in advance of the date set for the submission of bids for such construction so as to allow the procedures set forth in this section to be accomplished.

(d) At least 30 days prior to the date established for submission of bids or proposals under the procurement of the contract for which the prequalification applies, the town shall advise in writing each contractor who submitted an application whether that contractor has been prequalified. If a contractor is denied prequalification, the written notification to such contractor shall state the reasons for such denial of prequalification and the factual basis of such reasons.

(e) A decision by the town denying prequalification under this section shall be final and conclusive unless the contractor appeals the decision as provided in Code of Virginia, § 2.2-4317.

(f) The town may deny prequalification to any contractor only if the town finds one of the following:

(1) The contractor does not have sufficient financial ability to perform the contract that would result from such procurement. If a bond is required to ensure performance of a contract, evidence that the contractor can acquire a surety bond from a corporation included on the United States Treasury list of acceptable surety corporations in the amount and type required by the town shall be sufficient to establish the financial ability of such contractor to perform the contract resulting from such procurement;

(2) The contractor does not have appropriate experience to perform the construction project in question;

(3) The contractor or any officer, director or owner thereof has had judgments entered against him within the past ten years for the breach of contracts for governmental
or nongovernmental construction, including but not limited to design-build or construction management;

(4) The contractor has been in substantial noncompliance with the terms and conditions of prior construction contracts with a public body without good cause. If the town has not contracted with a contractor in any prior construction contracts, the town may deny prequalification if the contractor has been in substantial noncompliance with the terms and conditions of comparable construction contracts with another public body without good cause. The town may not utilize this subsection to deny prequalification unless the facts underlying such substantial noncompliance were documented in writing in the prior construction project file and such information relating thereto given to the contractor at that time, with the opportunity to respond;

(5) The contractor or any officer, director, owner, project manager, procurement manager or chief financial official thereof has been convicted within the past ten years of a crime related to governmental or nongovernmental construction or contracting, including but not limited to a violation of (i) Code of Virginia, Article 6, § 2.2-4367 et seq., (ii) the Virginia Governmental Frauds Act (Code of Virginia, § 18.2498.1 et seq.), (iii) Code of Virginia, § 59.1-68.6 et seq., or (iv) any substantially similar law of the United States or another state;

(6) The contractor or any officer, director or owner thereof is currently debarred pursuant to an established debarment procedure from bidding or contracting by any public body, agency of another state or agency of the federal government; and

(7) The contractor failed to provide to the town in a timely manner any information requested by the public body relevant to subsections (f)(1) through (6) of this section.

(g) If the town has a prequalification ordinance which provides for minority participation in municipal construction contracts, the town may also deny prequalification based on minority participation criteria; provided, however, that nothing in this subsection shall authorize the adoption or enforcement of minority participation criteria except to the extent that such criteria, and the adoption and enforcement thereof, are in accordance with the Constitution and laws of the United States and the commonwealth.

State law reference—Similar provisions, Code of Virginia, § 2.2-4317.

Sec. 2-230. Use of brand names.

Unless otherwise provided in the invitation for bids, the name of a certain brand, make or manufacturer does not restrict bidders to the specific brand, make or manufacturer named—it conveys the general style, type, character, and quality of the article desired—and any article which the town in its sole discretion determines to be the equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted.

(Code 1977, § 2-15-11)

State law reference—Use of brand names, Code of Virginia, § 2.2-4317.
Sec. 2-231. Award of bid-based contracts.

The town council will award bid-based contracts on the recommendation of the appointed reviewing committee, which is to be created in each case, and the town manager. The award will usually be to the lowest and best responsible bidder. A full and complete statement of the reasons shall be prepared by the committee and town manager and shall be filed along with other papers relating to the transaction.

(Code 1977, § 2-15-16)

Sec. 2-232. Performance and payment bonds.

(a) Upon the award of any public construction contract exceeding $100,000.00 awarded to any prime contractor, such contractor shall furnish to the town the following bonds:

(1) A performance bond in the sum of the contract amount conditioned upon the faithful performance of the contract in strict conformity with the plans, specifications and conditions of the contract.

(2) A payment bond in the sum of the contract amount. Such bond shall be for the protection of claimants who have and fulfill contracts to supply labor or materials to the prime contractor to whom the contract was awarded or to any subcontractors, in the prosecution of the work provided for in such contract, and shall be conditioned upon the prompt payment for all such material furnished or labor supplied or performed in the prosecution of the work. The term "labor or materials" shall include public utility services and reasonable rentals of equipment, but only for periods when the equipment rented is actually used at the site.

(b) Each of such bonds shall be executed by one or more surety companies selected by the contractor which are legally authorized to do business in the commonwealth.

(c) Such bonds shall be payable to the town.

(d) Each of the bonds shall be filed with the town or a designated office or official thereof.

(e) Nothing in this section shall preclude the town from requiring payment or performance bonds for construction contracts below $100,000.00.

(f) Nothing in this section shall preclude such contractor from requiring each subcontractor to furnish a payment bond with surety thereon in the sum of the full amount of the contract with such subcontractor conditioned upon the payment to all persons who have and fulfill contracts which are directly with the subcontractor for performing labor and furnishing materials in the prosecution of the work provided for in the subcontract.

State law reference—Similar provisions, Code of Virginia, § 2.2-4337.

Sec. 2-233. Employment discrimination by contractor prohibited.
ADMINISTRATION

The town shall include in every contract of over $10,000.00 the following:

(1) During the performance of this contract, the contractor agrees as follows:

a. The contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex or national origin, except where religion, sex or national origin is a bona fide occupational qualification reasonably necessary to the normal operation of the contractor. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.

b. The contractor, in all solicitations or advertisements for employees placed by or on behalf of the contractor, will state that such contractor is an equal opportunity employer.

c. Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient for the purpose of meeting the requirements of this section.

(2) The contractor will include the provisions of subsections (1)a, (1)b and (1)c of this section in every subcontract or purchase order of over $10,000.00, so that the provisions will be binding upon each subcontractor or vendor.

(Code 1977, § 2-15-15)

State law reference—Employment discrimination by contractor prohibited, Code of Virginia, § 2.2-4311.

Sec. 2-234. Retainage on construction contracts.

(a) In any public contract for construction which provides for progress payments in installments based upon an estimated percentage of completion, the contractor shall be paid at least 95 percent of the earned sum when payment is due, with not more than five percent being retained to ensure faithful performance of the contract. All amounts withheld may be included in the final payment.

(b) Any subcontract for a public project which provides for similar progress payments shall be subject to the same limitations.

(Code 1977, § 2-15-13)

State law reference—Retainage on construction contracts, Code of Virginia, § 2.2-4333.

Sec. 2-235. Deposit of certain retained funds; failure to timely complete contract.

(a) When contracting directly with contractors for public contracts of $200,000.00 or more for construction of highways, roads, streets, bridges, parking lots, demolition, clearing, grading, excavating, paving, pile driving, miscellaneous drainage structures, and the installation of water, gas, sewer lines and pumping stations where portions of the contract price are to be retained, the town shall include in the bid proposal an option for the contractor to use an escrow account procedure for utilization of the town's retainage funds by so indicating in the space provided in the proposal documents. If the contractor elects to use the escrow account procedure, the escrow agreement form included in the bid...
proposal and contract shall be executed and submitted to the town within 15 calendar days after notification. If the escrow agreement form is not submitted within the 15-day period, the contractor shall forfeit his rights to the use of the escrow account procedure.

(b) In order to have retained funds paid to an escrow agent, the contractor, the escrow agent, and the surety shall execute an escrow agreement form. The contractor's escrow agent shall be a trust company, bank or savings institution with its principal office located in the commonwealth. The escrow agreement and all regulations promulgated by the town shall be substantially the same as that used by the commonwealth department of transportation.

(c) This section shall not apply to public contracts for construction for railroads; public transit systems; runways; dams; foundations; installation or maintenance of power systems for the generation and primary and secondary distribution of electric current ahead of the customer's meter; the installation or maintenance of telephone, telegraph or signal systems for public utilities; and the construction or maintenance of solid waste or recycling facilities and treatment plants.

Subdivision III. Competitive Negotiation

Sec. 2-296. Procedures generally.

(a) Upon a determination made in advance by the town and set forth in writing that competitive sealed bidding is either not practicable or not fiscally advantageous to the public, goods, services, or insurance may be procured by competitive negotiation. The writing shall document the basis for this determination.

State law reference—Methods of procurement, Code of Virginia, § 2.2-4303.

Sec. 2-297. Award of a service generally.

The town manager or his designee shall engage in individual discussions with all offerors deemed fully qualified, responsible and suitable on the basis of initial responses and with emphasis on professional competence to provide the required services. Such offerors shall be encouraged to elaborate on their qualifications and performance data or staff expertise pertinent to the proposed project. These discussions may encompass nonbinding estimates of total projects costs, including where appropriate design,
construction and life cycle costs. Methods to be utilized in arriving at price for services may also be discussed. At the conclusion of discussion on the basis of evaluation factors published in the request for proposals and all information developed to this point, the town manager shall select in the order of preference two or more offerors whose professional qualification and proposed services are deemed most meritorious. Negotiations shall then be conducted, beginning with the offeror ranked first. If a contract can be negotiated at a price considered fair and reasonable, the award shall be made to that offeror. Otherwise, negotiations shall be formally terminated and negotiations conducted with the offeror ranked second, and so on until such a contract can be negotiated at a fair and reasonable price.

(Code 1977, § 2-16-6)

Sec. 2-298. Procurement of professional services.

Where the cost of a professional service is expected to exceed $30,000.00 in the aggregate or for the sum of all phases of a contract or project, the town shall engage in individual discussions with two or more offerors deemed fully qualified, responsible and suitable on the basis of initial responses and with emphasis on professional competence to provide the required services. Repetitive informal interviews shall be permissible. The offerors shall be encouraged to elaborate on their qualifications and performance data or staff expertise pertinent to the proposed project, as well as alternative concepts. The request for proposal shall not, however, request that offerors furnish estimates of man hours or cost for services. At the discussion stage, the town may discuss nonbinding estimates of total project costs, including but not limited to life-cycle costing, and, where appropriate, nonbinding estimates of price for services. Proprietary information from competing offerors shall not be disclosed to the public or to competitors. At the conclusion of discussion, outlined in this section, on the basis of evaluation factors published in the request for proposal and all information developed in the selection process to this point, the town shall select in the order of preference two or more offerors whose professional qualifications and proposed services are deemed most meritorious. Negotiations shall then be conducted, beginning with the offeror ranked first. If a contract satisfactory and advantageous to the town can be negotiated at a price considered fair and reasonable, the award shall be made to that offeror. Otherwise, negotiations shall be formally terminated and negotiations conducted with the offeror ranked second, and so on until such a contract can be negotiated at a fair and reasonable price. Should the town determine in writing and in its sole discretion that only one offeror is fully qualified or that one offeror is clearly more highly qualified and suitable than the others under consideration, a contract may be negotiated and awarded to that offeror.

**ARTICLE III. UNSAFE BUILDINGS***

Sec. 14-86. Removal, repair or securing of buildings and other structures.

(a) The owners of property in the town shall, at such time as the town council may prescribe, remove, repair or secure any building, wall or any other structure which might endanger the public health or safety of other town residents.

(b) The town, through its own agents or employees, may remove, repair or secure any building, wall or any other structure which might endanger the public health or safety of other town residents if the owner and lien holder of such property, after reasonable notice and a reasonable time to do so, have failed to remove, repair or secure the building, wall or other structure. For purposes of this section, repair may include maintenance work to the exterior of a building to prevent deterioration of the building or adjacent buildings. For purposes of this section, reasonable notice includes a written notice (i) mailed by certified or registered mail, return receipt requested, sent to the last known address of the property owner and (ii) published once a week for two successive weeks in a newspaper having general circulation in the locality. No action shall be taken by the town to remove, repair or secure any building, wall or other structure for at least 30 days following the later of the return of the receipt or newspaper publication.

(c) If the town, through its own agents or employees, removes, repairs or secures any building, wall or any other structure after complying with the notice given under this section, the cost or expenses thereof shall be chargeable to and paid by the owner of such property and may be collected by the town in the manner taxes are collected.

(d) Every charge authorized by this section with which the owner of any such property has been assessed and which remains unpaid shall constitute a lien against such property ranking on a parity with liens for unpaid local taxes and enforceable in the same manner as provided in Code of Virginia, §§ 58.1-3940 et seq. and 58.1-3965 et seq. The town may waive such lien in order to facilitate the sale of the property. Such lien maybe waived only as to a

purchaser who is unrelated by blood or marriage to the owner and who has no business association with the owner. All such liens shall remain a personal obligation of the owner of the property at the time the liens were imposed.
(Code 1977, § 5-3; Ord. of 9-16-1981)

State law references—Authority for above section, Code of Virginia, § 15.2-906; authority of town council to require removal, repair, etc., of buildings and other structures, Code of Virginia, § 15.2-906.

(a) This section shall apply to buildings and structures which are or may be determined to be unsafe under the terms of this section, notwithstanding that buildings and structures erected after the enactment of the Uniform Statewide Building Code shall be regulated under the provisions of that code. However, if the construction of such buildings or structures were exempt from that code, this section shall apply.

(b) All buildings or structures that are or shall become unsafe, unsanitary or deficient in adequate exit way facilities or that constitute a fire hazard or are otherwise dangerous to human life or the public welfare or that, because of illegal or improper use, occupancy or maintenance, shall be deemed unsafe buildings or structures. All unsafe buildings shall be taken down and removed or made safe and secure, as the town building official may deem necessary and as provided in this section. A vacant building, unguarded or open at door or window, shall be deemed a fire hazard and unsafe within the meaning of this section.

(c) Whenever the building official shall find any building or structure or portion thereof to be unsafe, he shall give the owner, agent or person in control of such building or structure written notice stating the defects thereof. This notice shall require the owner, within a stated time, either to complete specified repairs or improvements or to demolish or remove the building or structure or portion thereof. Such notice shall require the person thus notified to immediately declare to the building official his acceptance or rejection of the terms of the order. If no such person can be found within the town, the notice shall be sent by registered or certified mail to the owner of such real estate, as shown on the town tax records or, if the property is not assessed for taxation, to the last known address of the owner, agent or person in control of such building or structure, and a copy of such notice shall be posted in a conspicuous place on the premises, and such procedure shall be deemed the equivalent of personal notice.

(d) If necessary, such notice shall also require the building, structure or portion thereof to be vacated forthwith and not reoccupied until the specified repairs and improvements are completed, inspected and approved by the building official. The building official shall cause to be posted at each entrance to such building a notice stating: "This building is unsafe and its use or occupancy has been prohibited by the town building official." Such notice shall remain posted until the required repairs are made or demolition is completed. It shall be unlawful for any person or his agents or other servants to remove such notice without written permission of the building official or for any person to enter the building except for the purpose of making the required repairs or of demolishing the building, structure or portion thereof.
(e) The owner, agent or person in control shall have the right, except in cases of emergency, to appeal from the decision of the building official, as provided in this section, and to appear before the board of building code appeals at a specified time and place to show cause why he should not comply with the notice. Such appeal shall be made by notification to the building official in writing within 30 days of receipt of the notice required by this section or within 30 days of the mailing of such notice if such person cannot be found.

(f) If the owner, agent or person in control cannot be found within the stated time limit or if such owner, agent or person in control shall fail, neglect or refuse to comply with the notice to repair, to rehabilitate or to demolish and remove the building or structure or portion thereof, the building official, after having ascertained the cost, shall cause such building or structure or portion thereof to be demolished, secured or required to remain vacant.

(g) The decision of the building official shall be final in cases of emergency, which, in his opinion, involve imminent danger to human life or health. He shall promptly cause such building, structure or portion thereof to be made safe or removed. For this purpose, he may at once enter such structure or land on which it stands or abutting land or structures, with such assistance and at such cost as he may deem advisable. He may vacate adjacent structures and protect the public by an appropriate fence or such other means as may be necessary and for this purpose may close a public or private way.

(h) Any cost or expenses in connection with the enforcement of this section shall be the responsibility of the owner of such real estate, and any portion which shall have been billed to such owner and which remains unpaid after having been billed for 30 days shall constitute a lien against such real estate and may be collected by the town in the same manner as taxes are collected. A bill mailed to the last mailing address of the owner shall constitute billing for the purpose of this section.

(Code 1977, § 10-36)

Sec. 18-2. Tattooing; operating tattoo business.

(a) The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Tattoo artist means any person who actually performs the work of tattooing.

(Amended 11-07-16)

(c) Any person who shall violate this section shall be guilty of a misdemeanor.
(Code 1977, § 13-4)

(b) Before advertising any going out of business sale; such person desiring to so advertise shall secure a permit from the town, which permit shall be issued by the town manager upon application and payment of a fee of $50.00 for such permit. The permit shall be issued for such period as may be reasonably necessary to enable the applicant to close out his business, not exceeding 30 days, and may be renewed for two additional periods not exceeding 30 days each upon application therefore, payment of the fee of $50.00 for the renewal permit and the production of evidence satisfactory to the council that the applicant is bona fide going out of business. Secs. 18-4—18-30. Reserved.

ARTICLE II. LICENSES

DIVISION 1. GENERALLY

Sec. 18-31. Statement of policy.

It is the purpose of the town in enacting this article to pursue the collection of license taxes and the enforcement therefore required in a most uniform, strenuous and honest manner and to equalize as far as practicable the burden of license taxation among those liable therefore, by adopting a system of license taxes measured by the gross receipts of the business, trade or occupation in respect of which the tax is levied, except as may be otherwise provided. All information, estimates and records provided in compliance with this article shall be considered privileged information entitled to all the protection provided by the Privacy Protection Act of 1976 (Code of Virginia, § 2.1-377 et seq.) except as specifically excluded in this article.

(Code 1977, § 10-2)

Sec. 18-32. Definitions.

As used in this article and as applied to the business, trade or occupation subject to the license taxes set forth in this article and not specifically otherwise taxed, the following words and terms shall have the respective meanings ascribed to them:

Amusement means every business or trade enumerated in section 18-123.

Builder. Every person who shall build, erect or construct a house or building for the purpose of selling or renting the house or building and who shall not employ therefore in writing a contractor or person who shall act as superintendent of the whole construction and who has paid the license tax required by this article shall, himself, be deemed a contractor and shall be subject to all the applicable sections of this article. Any person who shall erect or construct a house or building and later sell or offer to sell or rent the house or building without having himself resided in the house or building for not less than 90 days shall be prima facie deemed to have erected or constructed that house or building for the purpose of selling or renting the house or building.

Business service means every business or trade enumerated in section 18-124.

Contractor means any person:
BUSINESSES

(1) Accepting or offering to accept orders or contracts for doing any work on or in any building or structure, requiring the use of paint, stone, brick, mortar, wood, cement, structural iron or steel, sheet iron, galvanized iron, metallic piping, tin, lead, or other metal or any other building material;

(2) Accepting or offering to accept contracts to do any paving, curbing or other work on sidewalks, streets, alleys or highways or public or private property, using asphalt, brick, stone, cement, concrete, wood or any composition;

(4) Accepting or offering to accept an order or contract to construct any sewer of stone, brick, terracotta or other material;

(5) Accepting or offering to accept orders or contracts for doing any work on or in any building or premises involving the erecting, installing, altering, repairing, servicing, or maintaining electric wiring, devices or appliances permanently connected to such wiring or the erecting, repairing or maintaining of lines for the transmission or distribution of electric light and power; or

(6) Engaging in the business of plumbing and steam fitting.

Gross receipts means the whole, entire, total receipts, without deduction, for the preceding year from any business, profession, trade, occupation, vocation, calling or activity, including fees, commissions, brokerage charges and rentals on property of any kind (excluding any property consisting of land, house or mobile home used as a permanent residence), nature or description from either sales made or services rendered without any deduction there from on account of cost of property sold and the cost of materials, labor or services or other costs, interest or discounts paid or any expense whatsoever and includes for merchants the amount of the sale price of supplies and goods furnished or to be used by the licensee or his family or other persons for which no charge is made. However, the term "gross receipts" with respect to licensees dealing in articles or services upon which there is levied a direct excise tax payment to the United States government and any local sales or excise tax collected for the state or town may be excluded from gross receipts.

The term "gross receipts" shall be used in connection with or in respect to financial transactions for the preceding year involving the sale of notes, stocks, bonds or other securities or the loan, collection or advance of money or the discounting of notes, bills or other discount, gross commission or the other gross receipts earned by means of or resulting from such financial transactions, but the term "gross receipts" shall not include amounts received as payments of debts. The calculation of gross receipts for license tax purposes shall be on either a cash accrual basis; provided, however, that the basis used must coincide with the system of accounts used by the taxpayer and with the method employed by the taxpayer for federal and state income tax purposes. The preceding year's gross receipts may be either the fiscal year used by the business or the calendar year, provided that the year employed must also coincide with the year used for federal and state income tax purposes.

Merchant means any person who is both a retail merchant and a wholesale merchant,
as they are defined in this section, and who is required to obtain both classes of license. However, any retail merchant who desires to do a wholesale business, also, may elect to do such wholesale business under his retailer's license by paying license taxes as a retailer on both his retail and wholesale business, but this shall not apply to any retail merchant, the greater part of whose business at the licensed place during the preceding year was wholesale, nor to a beginner, the greater part of whose business it is estimated will be wholesale for the period covered by the license.

*Personal service* means every business or trade enumerated in section 18-127.

*Professional occupation* means every person engaged in an occupation enumerated in section 18-128.

*Purchases* mean all goods, wares and merchandise received for sale at each definite place of business of a wholesale merchant. The term also includes the cost of manufacture of all goods, wares and merchandise manufactured by any wholesale merchant and sold or offered for sale. A wholesale merchant may elect to report the gross receipts from the sale of manufactured goods, wares and merchandise if he cannot determine the cost of manufacture or chooses not to disclose the cost of manufacture.

*Repair service* means the business of repairing, renovating or servicing any or several of those items or articles enumerated in section 18-129.

*Retail merchant* means every person engaged in the conduct of business enumerated in section 18-130. The term "retail merchant" is further defined to mean every merchant who sells to others for retail, only, and not for resale. Every person engaged in the business of selling goods, wares or merchandise through the use of coin-operated vending machines shall be classified as a "retail merchant."

*Superintendent.* Every person other than the owner of a house or building who shall act as superintendent of the erection, construction or repair of buildings for which a building or other permit is required shall be deemed a contractor and shall pay the annual license tax required of a contractor by this article.

*Wholesale merchant* means every person engaged in the conduct of a business enumerated in section 18-131. The term "wholesale merchant" is further defined to mean every merchant who sells to others for resale, only, or who sells to institutional, commercial or industrial users. (Code 1977, § 10-3)

Cross reference—Definitions generally, § 1-2.

Sec. 18-33. Rules of construction and interpretation; adoption of state laws.

As to all questions in regard to the duty and conduct of town officers in collecting and enforcing the license taxes imposed by this article and in regard to questions of construction, for definitions of terms used in this article and the rules and regulations applicable to putting them in operation, reference is made to the laws of the state for the assessment, levy and collection of license taxes for the current year or to so much thereof as is applicable to this article and is not inconsistent with this article and this Code. For the conduct and guidance of the town officers and other parties affected by this article and for fixing their powers, rights, duties and obligations, the provisions of such laws, so far as applicable, are adopted without being specifically quoted in this article.
BUSINESSES

(Code 1977, § 10-4)

Sec. 18-34. Applicability to business, employment or profession not included.

Nothing contained in this article shall be construed to repeal any license tax imposed by this article upon persons, property, admissions or any subject not mentioned in this article. In every case in which a license is imposed by the state on any business, employment or profession not specifically mentioned, a town license tax equal to the amount of the state tax is imposed for the privilege of conducting such business, employment or profession in the town.
(Code 1977, § 10-5)

Sec. 18-35. Violations; penalties.

It shall be unlawful and shall constitute a misdemeanor for any person to conduct a business or to engage in a profession, trade or occupation before procuring a license as required under this article or then and there having a valid license. It shall also be unlawful and shall constitute a misdemeanor for any person to violate any of the sections of this article.
(Code 1977, § 10-6; Ord. of 8-5-1996)

Sec. 18-36. Required.

Every person shall apply for a license for each business or profession when engaging in a business in this jurisdiction if:

1. The person has a definite place of business in this jurisdiction;
2. There is no definite place of business anywhere and the person resides in this jurisdiction; or
3. There is no definite place of business in this jurisdiction but the person operates amusement machines or is classified as an itinerant merchant, peddler, carnival, circus, or contractor subject to Code of Virginia, § 58.1-3715 or a public service corporation.

(Code 1977, § 10-7; Ord. of 8-5-1996)

Sec. 18-37. Application; issuance.

(a) Every person desiring to obtain a license to pursue any business, trade or occupation or to do anything for which a license is required shall make application therefore in writing to the town manager. The application shall state the residence of the applicant; the social security number or tax identification number of the applicant; the nature of the business, employment, profession or thing to be done; and the place where it is proposed to be prosecuted. Where the license tax is to be measured by gross receipts, the applicant shall make a statement under oath as required by subsection (b) of this section. The town manager shall assess such applicant or other person of whom a license is required with the license tax required by law and shall issue a license to the applicant to practice the business, trade or occupation or other thing therein named, which license shall not be valid or effective unless and until the license tax required shall be paid to the town. If it is a business for which a license can be granted only on the certificate of a court or
other officer, such license shall not be valid or effective until such certificate shall be obtained.

(b) When the license tax is based upon gross receipts, the town manager shall require a signed statement from the applicant as to the amount of such gross receipts, except for a beginner. After computing the amount of the license tax in each case, the town manager shall retain one copy of the license tax form and shall furnish the applicant with one copy. Upon payment of the required license tax by the licensee, the manager shall receipt the payment upon both the original and the copy presented by the licensee, after which the manager shall give the original to the licensee and retain the copy of the receipted form.

(c) Any business owned and operated by a full-time student under the age of 23 having gross receipts, as defined in section 18-32, for the preceding year of less than $5,000.00 shall require a license but shall be exempt from payment of license tax.

(d) No business license shall be issued, new or renewal, until the applicant has produced satisfactory evidence that all delinquent business license, personal property, meals, transient occupancy, severance and admissions taxes owed by the business to the town have been paid which have been properly assessed against the applicant by the town. (Code 1977, § 10-8; Ord. of 5-17-2001, (c); Ord. of 8-5-1996, (d))

Sec. 18-38. Separate license required for each place of business.

A separate license shall be required for each place of business and for each business. A person engaged in two or more businesses or professions carried on at the same place of business may elect to obtain one license for all such businesses and professions if all of the following criteria are satisfied:

(1) Each business or profession is subject to licensure at the location and has satisfied any requirement imposed by state law or other sections of this Code or provisions of town ordinances.

(2) All of the businesses or professions are subject to the same tax rate, or, if subject to different tax rates, the licensee agrees to be taxed on all businesses and professions at the highest rate.

(3) The taxpayer agrees to supply such information as the assessor may require concerning the nature of the several businesses and their gross receipts. (Code 1977, § 10-9; Ord. of 8-5-1996)

Sec. 18-39. Businesses, trades or occupations prohibited by zoning.

The town manager shall not issue a license for conducting any business, trade or occupation at a location where the conducting of such business, trade or occupation at such location is prohibited by the town zoning ordinance. (Code 1977, § 10-10)
BUSINESSES

Every person required to pay a license tax or to obtain any tag or sign under this article shall keep the license tag or sign in a convenient place and, whenever required to do so, shall exhibit the license, tag or sign to any authorized town representative. No license measured by volume of business shall be required to be publicly displayed.
(Code 1977, § 10-11)

Sec. 18-41. Transferability.

Licenses issued under this article shall be transferable, except where otherwise provided, but in no case shall any transfer of a license be legal or valid unless and until notice in writing of such transfer shall have been given to the town manager, who shall have approved the transfer in writing on the license. The notice shall state the time of the transfer, the place of business and the name of the person to whom transferred. The town manager shall keep a record of such transfers and shall submit a copy of each such transfer to the proper enforcement officer.
(Code 1977, § 10-12)

Sec. 18-42. Suspension.

The enforcement officer, unless otherwise specified, is authorized and empowered to suspend any license issued under this article for violation of the terms of the license granted, and such suspension shall continue until the cause is removed. Such action shall be reported immediately to the town council. Such suspension, when written notice thereof is received by the licensee or any person in charge of the place of business, shall place the licensee in the same position as if he had never obtained a license. Any such license shall, further, be immediately suspended upon the failure of the licensee to comply with section 54-259 of article IV of chapter 54 pertaining to the transient occupancy tax or section 54-301 of article V of chapter 54 pertaining to the meals tax.
(Code 1977, § 10-13; Ord. of 8-5-1996)

Sec. 18-43. Expiration.

All licenses issued pursuant to this article shall expire on December 31 of each year, except where it is otherwise specifically provided.
(Code 1977, § 10-14)

Sec. 18-44. Nonresident businesses, trades or occupations.

It is the declared intent of the town to avoid either discrimination or protective license taxation as it affects any business, trade or occupation, regardless of location or type of transaction, and to this end businesses, trades or occupations carried on in part within the town, but having no regularly constituted place of business in the town, shall be subject to equal conditions and equal rates of license taxation as those businesses, trades or occupations having a regularly constituted place of business within the town. For nonresident businesses, trades or occupations, the license tax liability shall be measured by only that portion of the business, trade or occupation carried on within the town.
(Code 1977, § 10-15)

Sec. 18-45. Tax imposed on privilege of doing business.
CHINCOTEAGUE CODE

Each and all of the license taxes imposed pursuant to this article are in all cases imposed upon the privilege of doing business in the town, including all phases and activities of the business, trade or occupation conducted in the town.
(Code 1977, § 10-17)

Sec. 18-46. Levy, collection; term; use of money received.

For each and every year beginning with January 1 of each year and ending December 31 following, until otherwise changed, there are levied and there shall be collected the annual license taxes set forth in this article, except as otherwise provided in this article, on persons, firms, corporations, companies and associations conducting or engaging in the businesses, trades or occupations in the town for the support of the town government, the payment of the town debt and for other municipal purposes.
(Code 1977, § 10-18)

Sec. 18-47. Determination of taxes of new businesses.

Whenever any person begins a business, trade or occupation on or after January 1 of the license year, that person shall pay a licensing fee for the year of application of $50.00. Each following year shall be measured in accordance with this article as specified.
(Code 1977, § 10-19) (Amended 6/17/10) (Effective 7/1/10)

Sec. 18-48. Proration of taxes.

There shall be no abatement from or proration of any license tax imposed under this article, except that any person who pays a flat-rate license tax and who shall begin business after the beginning of the license tax year shall pay to the town a license tax for the whole of the year. However, such portion of the license tax as the period between the first day of the year and the date of issuing the license shall bear to the whole year shall be deducted from the license tax to be assessed against the person for the privilege of doing the same business for the ensuing year when the tax becomes payable, and in computing the license tax, no deduction shall be made there from for any fractional part of a month. This section shall not apply to any gross receipts licenses issued under this article or to any license tax computed upon the amount of sales or contracts made or done by the licensee during the preceding year, nor shall this section apply to any such license taxes, the proration of which is expressly prohibited under other sections of this article.
(Code 1977, § 10-20)

Sec. 18-49. Corporations, partnerships and sole proprietors.

When the business, trade or occupation is conducted by a corporation, partnership or sole proprietor, the license tax shall be imposed upon the gross receipts of the corporation, partnership or sole proprietor and paid by it. When so paid and, also, when paid by an individual employing persons who otherwise would be liable for a license, it shall be deemed to discharge the license tax liability of the officers and partners of such corporation or firm and of such persons employed by any employer who otherwise would be liable for such tax, insofar as the licensed business is concerned.
(Code 1977, § 10-21)
Sec. 18-50. Due date of tax.

All license taxes imposed by this article shall be deemed to be due and payable on or before April 1 of each license year by persons who had a license for the preceding year. A person who did not have a license for the preceding year shall pay the license tax at the time of the application for the license.

(Code 1977, § 10-22)

Sec. 18-51. Interrogatories, other evidence used in determining amount of tax.

As one of the means of ascertaining the amount of any license tax, the town council may propound interrogatories to each applicant and use such other evidence as it may procure. Such interrogatories shall be answered under oath.

(Code 1977, § 10-23)

Sec. 18-52. Oath of applicant.

Every person liable for a license tax under this article, based upon the amount of his actual gross receipts or graduated in any other way, shall, before he shall be granted a certificate for obtaining such license, be required to make oath in writing before a notary public or the town manager upon the forms to be prepared by the town manager, stating his business, occupation or profession or any other matter that may be pertinent to the assessment of the tax on such license. For an incorporated company, such oath shall be made by the chief officers or agent resident in the town or in charge of the business of the company, and for firms by any member thereof.

(Code 1977, § 10-24)

Sec. 18-53. Assessment of additional license taxes.

Whenever the town manager shall ascertain that any person shall be assessed with an additional license tax pursuant to this article, it shall be his duty to assess such person with such additional license tax. The town manager shall mail a copy of such assessment to the person against whom assessed and distribution of copies shall be further made as provided in subsection 18-37(b). If the additional license tax so assessed shall not have been paid within 30 days after such assessment, the town manager shall proceed to collect the license tax as delinquent taxes.

(Code 1977, § 10-25)

Sec. 18-54. Records required on gross receipts.

All such records and general books of account shall be open to inspection and examination by any authorized town representative.

(b) Each person subject to a license shall apply no later than March 1 of the license year to the town manager if he had been issued a license for the preceding year and shall at such time submit a report of his gross receipts of the preceding year if such license is based upon gross receipts.
CHINCOTEAGUE CODE

(c) If any licensee shall fail to maintain the records required in this section, the proper town enforcement officer is authorized and directed to estimate the taxpayer's gross receipts on the basis of the best evidence he can obtain, and the town manager shall make an assessment on the basis of such determination.
(Code 1977, § 10-26; Ord. of 8-5-1996 (b))

Sec. 18-55. Gross receipts records.

(a) Town's authority to audit and examine. The town shall have the right and authority to audit and examine any return or report of gross receipts and/or purchases from any business, occupation or profession. In connection with such audit, the town is further authorized and empowered to examine the records, books and papers of any person required by this article to have a license.

(b) Failure to produce. The penalties for failure to produce gross receipts records as required shall be as follows:

(1) Any person who shall be liable for a license tax measured upon gross receipts shall, upon request of the town council, produce and exhibit to the manager at the manager's office his records, books and papers pertaining to the gross receipts of such person. Any person failing to produce his records, books and papers upon request of the town council shall, in addition to any other liability imposed, suffer an immediate revocation of his license, if already issued, and, if not already issued, no such license shall be issued unless or until such person shall have produced and exhibited to the town manager at the manager's office his records, books and papers pertaining to his gross receipts and unless or until such person shall have fully complied with the other sections of this article.

(2) Any person who shall refuse to permit the town to examine and audit his records, books and papers pertaining to the gross receipts of such person shall be guilty of a violation of this article.
(Code 1977, §§ 10-27, 10-28; Ord. of 8-5-1996, § 10-27)

Sec. 18-56. Penalty for late payment and/or late application.

A penalty of ten percent of the license tax may be imposed upon the failure to file an application or the failure to pay the tax by the appropriate due date. Only the late filing penalty shall be imposed by the assessing official if both the application and payment are late; however, both penalties may be assessed if the assessing official determines that the taxpayer has a history of noncompliance. For an assessment of additional tax made by the assessing official, if the application and, if applicable, the return were made in good faith and the understatement of the tax was not due to any fraud or reckless or intentional disregard of the law by the taxpayer, there shall be no late penalty assessed with the additional tax. If any assessment of the tax by the assessing official is not paid within 30 days, the treasurer or other collecting official may impose a ten-percent late payment penalty. If the failure to file or pay was not the fault of the taxpayer, the penalties shall not be imposed or, if imposed, shall be abated by the official who assessed them. In order to
demonstrate lack of fault, the taxpayer must show that he acted responsibly and that the failure was due to events beyond his control. (Code 1977, § 10-29; Ord. of 8-5-1996)

Sec. 18-57. Appeals and rulings.

(a) Any person assessed with a local license tax as a result of an audit may apply within 90 days from the date of such assessment to the assessor for a correction of the assessment. The application must be filed in good faith and shall sufficiently identify the taxpayer, audit period, remedy sought, each alleged error in the assessment, the grounds upon which the taxpayer relies, and any other facts relevant to the taxpayer's contention. The assessor may hold a conference with the taxpayer, if requested by the taxpayer, or require submission of additional information and documents, a further audit, or other evidence deemed necessary for a proper equitable determination of the application. The assessment shall be deemed prima facie correct. The assessor shall undertake a full review of the taxpayer's claims and shall issue a determination to the taxpayer setting forth its position. Every assessment pursuant to an audit shall be accompanied by a written explanation of the taxpayer's right to seek correction and the specific procedure to be followed in the jurisdiction (e.g., the name and address to which an application should be directed).

(b) Provided a timely and complete application is made, collection activity shall be suspended until a final determination is issued by the assessor, unless the assessor determines that collection would be jeopardized by delay or that the taxpayer has not responded to a request for relevant information after a reasonable time. Interest shall accrue in accordance with the provisions of Code of Virginia, § 58.1-3703.1(A)(2)e, but no further penalty shall be imposed while collection action is suspended. The term 'Jeopardized by delay'' includes a finding that the application is frivolous or that a taxpayer desires to (i) depart quickly from the locality, (ii) remove his property there from, (iii) conceal himself or his property therein, or (iv) do any other act tending to prejudice, or to render wholly or partially ineffectual, proceedings to collect the tax for the period in question.

(c) Any person assessed with a local license tax as a result of an audit may apply within 90 days of the determination by the assessing official on an application pursuant to subsection (a) of this section to the tax commissioner for a correction of such assessment. The tax commissioner shall issue a determination to the taxpayer within 90 days of receipt of the taxpayer's application, unless the taxpayer and the assessing official are notified that a longer period will be required. The application shall be treated as an application pursuant to Code of Virginia, § 58.1-1821, and the tax commissioner may issue an order correcting such assessment pursuant to Code of Virginia, § 58.1-1822. Following such an order, either the taxpayer or the assessing official may apply to the appropriate circuit court pursuant to Code of Virginia, § 58.1-3984. However, the burden shall be on the party making the application to show that the ruling of the tax commissioner is erroneous. Neither the tax commissioner nor the state department of taxation shall be made a party to an application to correct an assessment merely because the tax commissioner has ruled on it.

(d) On receipt of a notice of intent to file an appeal to the tax commissioner under subsection (c) of this section, the assessing official shall further suspend collection activity until a final determination is issued by the tax commissioner, unless the assessor
determines that collection would be jeopardized by delay or that the taxpayer has not responded to a request for relevant information after a reasonable time. Interest shall accrue in accordance with the provisions of Code of Virginia, § 58.1-3703.1(A)(2)e, but no further penalty shall be imposed while collection action is suspended. The term "jeopardized by delay" shall have the same meaning as set forth in subsection (b) of this section.

(e) Any taxpayer may request a written ruling regarding the application of a local license tax to a specific situation from the assessor. Any person requesting such a ruling must provide all the relevant facts for the situation and may present a rationale for the basis of an interpretation of the law most favorable to the taxpayer. Any misrepresentation or change in the applicable law or the factual situation as presented in the ruling request shall invalidate any such ruling issued. A written ruling may be revoked or amended prospectively if (i) there is a change in the law, a court decision, or the guidelines issued by the state department of taxation upon which the ruling was based on; or (ii) the assessor notifies the taxpayer of a change in the policy or interpretation upon which the ruling was based. However, any person who acts on a written ruling, which later becomes invalid shall be deemed to have acted in good faith during the period in which such ruling was in effect.

(Code 1977, § 10-29.1; Ord. of 8-5-1996)

ARTICLE III. FALSE ALARMS.

Sec. 26-40. Purpose.

The purpose of this article is to reduce the number of nuisance fire alarms and thereby protect public safety by minimizing unnecessary use of the town’s emergency services (Volunteer Fire Company and Emergency Medical Services Division). This article governs
FIRE PREVENTION AND PROTECTION

the installation and maintenance of alarm systems, establishes service fees for false alarms
and provides a system of administration.

Sec. 26-41. Definitions.

The following words, terms and phrases, when used in this article, shall have the
meaning ascribed to them herein, except where the context clearly indicates a different
meaning;

*Alarm system* means any device or system, including but not limited to an answering
service, automatic dialing service or indirect alarm transmittal system, which transmits a
signal visibly, audibly, electronically, mechanically or by any combination of these
methods which indicates a hazard or occurrence requiring urgent attention and to which
law enforcement personnel or firefighters are expected to respond. The term “alarm
system” shall not include a personal direct telephonic call requesting emergency services.

*Alarm user or user* means the owner or occupant of premises protected by an alarm
system.

*Answering service* means a telephone answering service that receives emergency signals
from alarm systems and inform the Eastern Shore of Virginia 911 Communications Center.

*Automatic dialing service* means a device interconnected to a telephone line and
programmed to select a predetermined telephone number and transmit by voice message or
code signal an emergency message indicating a need for emergency response.

*Chief* means any one of the volunteer fire department fire chiefs or their designee.

*Commercial* means any building/business required to have a town business license (Sec.
18-36).

*False alarm* means any alarm signal received by the Eastern Shore of Virginia 911 Communications Center which is not in response to an actual or possible emergency. False alarms include negligently activated signals, signals due to faulty, malfunctioning or
improperly installed or maintained equipment, and signals purposely activated to summon
fire, rescue and/or law enforcement personnel in non-emergency situations. False alarms
do not include signals activated by unusually severe weather conditions, utility conditions
or other causes which the chief determines were beyond the user’s control.

*Indirect alarm transmittal* means any alarm system which causes a third party or
answering service to notify the Eastern Shore of Virginia 911 Communications Center of
an alarm activation.

*Installer* means any person who installs, services, monitors, sells or leases any alarm
system.

*Interconnect* means to connect an alarm system to a voice-grade telephone line, either
directly or through a mechanical device that utilizes a standard telephone, for the purpose
of using the telephone line to transmit an emergency message upon the activation of the alarm system.

Negligently activated signals means signals transmitted due to carelessness or negligence in installation, maintenance or operation of an alarm system, such signals being the result of the doing of an act where ordinary care suggests that the act should not have been done at all or that it should have been done in some other way.

Non-emergency situations means situations where an immediate response to a hazard or occurrence by fire personnel and/or rescue personnel is not deemed necessary to protect life or property.

Sec. 26-42. Penalty.

Violations of Sections 26-43, 26-44, 26-45 and 26-48 shall be punishable as a class 1 misdemeanor.

Any other violation of this article shall constitute a class 4 misdemeanor.

The user shall also be responsible for maintaining the alarm system in proper working order.

Sec. 26-44. Automatic dialing devices.

It shall be unlawful for any person to install, sell, lease, use or cause or allow to be installed, sold, leased or used, within the town, automatic dialing devices or systems which are set or programmed to directly contact the Eastern Shore of Virginia 911 Communications Center without the prior approval of the Eastern Shore of Virginia 911 Communications Center and the town’s Building and Zoning Department.

Sec. 26-45. Deliberate false alarms.

It shall be unlawful for any person to knowingly activate or cause to be activated an alarm system in a non-emergency situation without just case. This shall not prohibit periodic testing of direct transmittal systems when the Eastern Shore of Virginia 911
FIRE PREVENTION AND PROTECTION

Emergency Communications Center has been notified in advance.

Sec. 26-26. Service fee for false alarms.

Response by fire and/or rescue personnel to a false alarm shall result in fees in the following amount being assessed against alarm system users for false alarms resulting in response by fire and/or rescue personnel and occurring during any period of 365 successive days. ARTICLE VII. ENACTMENT
FLOODS

ARTICLE I. GENERAL PROVISIONS

Sec. 30-1. Statutory authority and purpose.

This ordinance is adopted pursuant to the authority granted to localities by the Flood Damage Reduction Act, Code of Virginia, § 10.1-600 et seq.

The purpose of these provisions is to prevent the loss of life and property, the creation of health and safety hazards, the disruption of commerce and governmental services, the extraordinary and unnecessary expenditure of public funds for flood protection and relief, and the impairment of the tax base by:

(a) regulating uses, activities, and development which, alone or in combination with other existing or future uses, activities, and development, will cause unacceptable increases in flood heights, velocities, and frequencies.

(b) restricting or prohibiting certain uses, activities, and development from locating within districts subject to flooding.

(c) requiring all those uses, activities, and developments that do occur in flood-prone districts to be protected and/or flood-proofed against flooding and flood damage.

(d) protecting individuals from buying land and structures which are unsuited for intended purposes because of flood hazards.

The special flood hazard areas are generated for storm surges and coastal flood hazards, and then designated on the Flood Insurance Rate Maps (FIRMs) as zones AE (base flood elevation data has been provided), Coastal A Zone (area subject to wave heights between 1.5 feet and 3 feet) and zones VE (Coastal high hazard base flood elevation data has been provided). References to other special flood hazard areas have been omitted from this ordinance since they are not identified on the Town of Chincoteague (Accomack County) FIRMs. If other special flood hazard areas are added as revisions to the FIRMs, this ordinance will be revised to reflect the additional zones. Since the FIRMs are based on storm surges and coastal flood hazards, paragraph 60.3 (c)(10) of the CFR 44 (cumulative effects of proposed developments), which does not apply along lakes, bay shores, estuaries, and the ocean coast, has been omitted from this ordinance as not being applicable.

Amended 4-7-14.

Sec. 30-2. Applicability.

These provisions shall apply to all lands within the jurisdiction of the town and identified as areas of special flood hazard according to the flood insurance rate map (FIRM) that is provided to the town (Accomack County) by FEMA.

Amended 4-7-14.

Sec. 30-3. Compliance and liability.
(a) No land shall hereafter be developed and no structure shall be located, relocated, constructed, reconstructed, enlarged, or structurally altered except in full compliance with the terms and provisions of this ordinance and any other applicable ordinances and regulations which apply to uses within the jurisdiction of this ordinance.

(b) The degree of flood protection sought by the provisions of this ordinance is considered reasonable for regulatory purposes and is based on acceptable engineering methods of study. Larger floods may occur on rare occasions. Flood heights may be increased by man-made or natural causes, such as ice jams and bridge openings restricted by debris. This ordinance does not imply that districts outside the floodplain district, or that land uses permitted within such district, will be free from flooding or flood damages.

(c) Records of actions associated with administering this ordinance will be kept on file and maintained by the zoning administrator.

(d) This ordinance shall not create liability on the part of the town or any officer or employee thereof for any flood damages that result from reliance on this ordinance and/or any administrative decision made in good faith thereunder.

Amended 4-7-14.

Sec. 30-4. Abrogation and greater restrictions.

This ordinance supersedes Chapter 30 Floods of the Code of the Town of Chincoteague previously in effect prior to the adoption of these provisions. However, any underlying ordinance shall remain in full force and effect to the extend that its provisions are more restrictive that this ordinance.

Amended 4-7-14.

Sec. 30-5. Severability.

If any section, subsection, paragraph, sentence, clause, or phrase of this ordinance shall be declared invalid for any reason whatever, such decision shall not affect the remaining portions of this ordinance. The remaining portions shall remain in full force and effect; and for this purpose, the provisions of this ordinance are hereby declared to be severable.

Sec. 30-6. Penalty for violation.

Any person who fails to comply with any of the requirements or provision of this article or directions of the town manager or any authorized employee of the town shall be guilty of a Class 3 misdemeanor and subject to the penalties therefore. In addition to the above criminal penalties, all other actions by the town for enforcement hereunder are hereby reserved, including but not limited to injunctive relief in the Circuit Court of Accomack County. Violations and associated penalties are addressed in Appendix A, Article 10 of this code.

The imposition of a fine or penalty for any violation of, or noncompliance with, this article shall not excuse the violation or noncompliance or permit it to continue; and all such
persons shall be required to correct or remedy such violations or noncompliance within such time as reasonably determined by the officer charged with the enforcement hereof, based on the nature and seriousness of the violation, and other material circumstance. Any structure constructed, reconstructed, enlarged, altered or relocated in noncompliance with this article may be declared by the town to be a public nuisance and abatable as such. Flood insurance may be withheld from structures constructed in violation of this article.

Amended 4-7-14.

ARTICLE II. FLOODPLAIN MANAGEMENT

Sec. 30-7. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

*Base flood*, means the flood having a one percent chance of being equaled or exceeded in any given year.

*Base flood elevation* means the water surface elevations of the base flood, that is, the flood level that has a one (1) percent or greater chance of occurrence in any given year. The water surface elevation of the base flood in relation to the datum specified on the community’s Flood Insurance Rate Map. For the purpose of this ordinance, the base flood is the 1% annual chance flood.

*Basement* means any area of the building having its floor sub-grade (below ground level) on all sides.

*Board of Zoning Appeals* means the board appointed to review appeals made by individuals with regard to decisions of the Zoning Administrator in the administration of this ordinance.

*Breakaway wall* means a wall that is not part of the structural support of the building and is intended through its design and construction to collapse under specific lateral loading forces, without causing damage to the elevated portion of the building or supporting foundation system.

*Coastal A zone* means flood hazard areas that have been delineated as subject to wave heights between 1.5 feet and 3 feet.

*Coastal high hazard area* means a special flood hazard area extending from offshore to the inland limit of a primary frontal dune along an open coast and any other area subject to high velocity wave action from storms or seismic sources.

*Development* means any man-made change to improved or unimproved real estate, including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations or storage of equipment or materials.
Elevated building means a non-basement building built to have the lowest floor elevated above the ground level by means of fill, solid foundation perimeter walls, pilings, or columns (posts and piers).

Existing construction means structures for which the “start of construction” commenced before March 1, 1977, within the former town limits prior to the 1989 annexation, and June 1, 1984 within the areas annexed from Accomack County in 1989. “Existing construction” may also be referred to as “existing structures”. (Amended 5/18/2015)

Flood or flooding means:

1. A general or temporary condition of partial or complete inundation of normally dry land areas from:
   a. the overflow of inland or tidal waters; or,
   b. the unusual and rapid accumulation or runoff of surface waters from any source.

2. The collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature such as flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event which results in flooding as defined in paragraph 1(a) of this definition.

Flood Insurance Rate Map (FIRM) means an official map of a community, or which the administrator has delineated both the special hazard areas and the risk premium zones applicable to the community. A FIRM that has made available digitally is called a Digital Flood Insurance Rate Map (DFIRM).

Flood insurance study (FIS) means an examination, evaluation and determination of flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation and determination of mudflow and/or flood-related erosion hazards.

Floodplain means any land area subject to a one (1) percent or greater chance of being flooded in any given year as determined in Article III, §30-10 of this ordinance.

Flood proofing means any combination of structural and non-structural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.

Freeboard means a factor of safety usually expressed in feet above a flood level for purposes of floodplain management. “Freeboard” tends to compensate for the many unknown factors that could contribute to flood heights greater than the height calculated.
FLOODS

for a selected size flood and floodway conditions, such as wave action, bridge openings, and the hydrological effect of urbanization in the watershed.

*Fuel oil tank* means any container greater than 10 gallons used for storage of fuel oil.

*Highest adjacent grade* means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

*Historic structure* means any structure that is:

1. listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;

2. certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;

3. individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or,

4. individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either:

   a. by an approved state program as determined by the Secretary of the Interior; or,

   b. directly by the Secretary of the Interior in states without approved programs.

*Letters of map change (LOMC)* means an official FEMA determination, by letter, that amends or revises an effective FIRM or FIS. Letters of Map Change include:

a. **Letter of Map Amendment (LOMA):** an amendment based on technical data showing that a property was incorrectly included in a designated *special flood hazard area*. A LOMA amends the current effective *Flood Insurance Rate Map* and establishes that a land as defined by meets and bounds or *structure* is not located in a special flood hazard area.

b. **Letter of Map Revision (LOMR):** a revision based on technical data that may show changes to flood zones, flood elevations, floodplain and floodway delineations, and planimetric features. A Letter of Map Revision based on fill (LOMR-F) is a determination that a structure or parcel of land has been elevated by fill above the base flood elevation and is, therefore, no longer exposed to flooding associated with the base flood. In order to qualify for this determination, the fill must have been permitted and placed in accordance with the town’s floodplain management regulations.

c. **Conditional Letter of Map Revision (CLOMR):** a formal review and comment as to whether a proposed flood protection project or other project complies with the minimum
NFIP requirements for such projects with respect to delineation of special flood hazard areas. A CLOMR does not revise the effective Flood Insurance Rate Map or Flood Insurance Study.

*Lowest adjacent grade* means the lowest natural elevation of the ground surface next to the walls of a structure.

*Lowest floor* means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood-resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building’s lowest floor; provided, that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of Federal Code 44CFR §60.3.

*Manufactured home* means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes the term manufactured home also includes park trailers, travel trailers, and other similar vehicles placed on a site for greater than 180 consecutive days.

*Manufactured home park or subdivision* means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

*New construction* means for the purposes of determining insurance rates, structures for which the “start of construction” commenced on or after March 1, 1977, within the former town limits prior to the 1989 annexation, and June 1, 1984, within the areas annexed from Accomack County in 1989, and includes any subsequent improvements to such structures. For floodplain management purposes, new construction means structures for which start of construction commenced on or after June 1, 1984 within the areas annexed from Accomack County in 1989 and on or after February 2, 1989 for area within the former town limits prior to the 1989 annexation and includes any subsequent improvements to such structures.

*(Amended 5/18/2015)*

*Post-FIRM structures* means a structure for which construction or substantial improvement occurred after March 1, 1977 within the former town limits prior to the 1989 annexation, and June 1, 1984 within the areas annexed from Accomack County in 1989.

*(Amended 5/18/2015)*

*Pre-FIRM structures* means a structure for which construction or substantial improvement occurred on or before March 1, 1977 within the former town limits prior to 1989 annexation, and June 1, 1984 within the areas annexed from Accomack County in 1989.

*(Amended 5/18/2015)*

*Primary frontal dune* means a continuous or nearly continuous mound or ridge of sand with relatively steep seaward and landward slopes immediately landward and adjacent to the beach and subject to erosion and overtopping from high tides and waves during major...
FLOODS
coastal storms. The inland limit of the primary frontal dune occurs at the point where there is a distinct change from a relatively steep slope to a relatively mild slope.

Propane or liquefied petroleum gas tank means a container greater than 50 pounds used for the storage of propane.

Recreational vehicle means a vehicle which is:

(1) built on a single chassis;

(2) 400 square feet or less when measured at the largest horizontal projection;

(3) designed to be self-propelled or permanently towable by a light duty truck; and,

(4) designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational camping, travel, or seasonal use.

Repetitive loss structure means a building covered by a contract for flood insurance that has incurred flood-related damages on two occasions within a 10-year period, in which the cost of the repair, on the average equaled or exceeded 25 percent of the market value of the structure at the time of each such flood event; and at the time of the second incident of flood-related damage, the contract for flood insurance contains increased cost of compliance coverage.

(Amended 5/18/2015)

Severe repetitive loss structure means a structure that:

(1) is covered under a contract for flood insurance made available under the NFIP; and

(2) has incurred flood related damage

(a) for which four (4) or more separate claims payments have been made under flood insurance coverage with the amount of each such claim exceeding $5,000 and with the cumulative amount of such claims payment exceeding $20,000; or

(b) for which at least two (2) separate claims payment have been made under such coverage, with the cumulative amount of such claims exceeding the market value of the insured structure.

Special flood hazard area means the land in the floodplain subject to a one (1%) percent or greater chance of being flooded in any given year as determined in Article III, Section 30-10 of this ordinance.

Start of construction means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, substantial improvement or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site,
such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of the construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

Structure means for floodplain management purposes, a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home. “Structure” for insurance coverage purposes means

(1) a building with two or more outside rigid walls and a fully secured roof, that is affixed to a permanent site;

(2) a manufactured home, also known as a mobile home, is a structure: built on a permanent chassis, transported to its site in one or more sections and affixed to a permanent foundation or

(3) a travel trailer without wheels, built on a chassis and affixed to a permanent foundation, that is regulated under the town’s floodplain management and building ordinance or laws.

For insurance purposes “structure” does not mean a recreational vehicle or a park trailer or other similar vehicle except as described in paragraph (3) of this definition, or a gas or liquid storage tank.

Substantial damage means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before-damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

Substantial improvement means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before the start of construction of the improvement. This term includes structures which have incurred substantial damage regardless of the actual repair work performed. The term does not, however, include either:

(1) any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions, or

(2) any alteration of a historic structure, provided that the alteration will not preclude the structure’s continued designation as a historic structure.
FLOODS

Violation means the failure of a structure or other development to be fully compliant with the town’s floodplain management regulations, as applicable.

Sec. 30-8. Reserved.

ARTICLE III. ESTABLISHMENT OF ZONING DISTRICTS

Sec. 30-9. Description of districts.

(a) Basis of Districts - The various floodplain districts shall include special flood hazard areas subject to a one percent (1%) or greater chance of being flooded in any given year. The basis for the delineation of these districts shall be the Flood Insurance Study (FIS) and the Flood Insurance Rate Map (FIRM) for the Town of Chincoteague (Community number 510002) prepared by the Federal Emergency Management Agency, Federal Insurance Administration, dated May 18, 2015, and any subsequent revisions or amendments thereto.

(Amended 5/18/2015)

(1) The Coastal Floodplain District shall be those areas identified as coastal AE Zones on the maps accompanying the Flood Insurance Study. Flood elevations are provided in these tidal floodplains; however, floodway data is not applicable.

(2) The Coastal A District shall be those flood hazard areas that have been delineated as subject to wave heights between 1.5 feet and 3 feet.

(3) The Coastal High Hazard District shall be those areas identified as VE, or V Zones that have been delineated as subject to wave heights in excess of 3 feet or subject to high-velocity wave action or wave-induced erosion.

(b) Overlay Concept

(1) The Floodplain Districts described above shall be overlays to the existing underlying districts as shown on the Official Zoning Ordinance Map, and as such, the provisions for the floodplain districts shall serve as a supplement to the underlying district provisions.

(2) Any conflict between the provisions or requirements of the Floodplain Districts and those of any underlying district, the more restrictive provisions and/or those pertaining to the floodplain districts shall apply.

(3) In the event any provision concerning a Floodplain District is declared inapplicable as a result of any legislative or administrative actions or judicial decision, the basic underlying provisions shall remain applicable.

Sec. 30-10. Official floodplain map.
CHINCOTEAGUE CODE

The boundaries of the Special Flood Hazard Area and Floodplain Districts are established as shown on the Flood Insurance Rate Map panels 51001C0065G, 51001C0070G, 51001C0260G, 51001C0270G, 51001C0280G, 51001C0285G, 51001C0290G, 51001C0485G and 51001C0505G which are declared to be a part of this ordinance and which shall be kept on file at the town offices.

(Amended May 18, 2015)

Sec. 30-11. District boundary changes.

The delineation of any of the Floodplain Districts may be revised by the town where natural or man-made changes have occurred and/or where more detailed studies have been conducted or undertaken by the U. S. Army Corps of Engineers or other qualified agency, or an individual documents the need for such change. However, prior to any such change, approval must be obtained from the Federal Emergency Management Agency (FEMA).

Sec. 30-12. Interpretation of district boundaries.

(a) Initial interpretations of the boundaries of the Floodplain Districts shall be made by the Zoning Administrator. Should a dispute arise concerning the boundaries of any of the Districts, the Board of Zoning Appeals shall make the necessary determination. The person questioning or contesting the location of the District boundary shall be given a reasonable opportunity to present his case to the Board and to submit his own technical evidence if he so desires.

(b) The town base flood elevations may increase or decrease resulting from physical changes affecting flooding conditions. As soon as practicable, but not later than six (6) months after the date such information becomes available, the town shall notify the Federal Insurance Administrator of the changes by submitting technical or scientific data. Such a submission is necessary so that upon confirmation of those physical changes affecting flooding conditions, risk premium rates and floodplain management requirements will be based upon current data.

Sec. 30-13. Reserved.

ARTICLE IV. DISTRICT PROVISIONS

Sec. 30-14. Permit and application requirements.

(a) Floodplain Administrator - the Zoning Administrator is designated to administer and implement the provisions of this ordinance. Any decision of the zoning administrator may be appealed to the Board of Zoning Appeals pursuant to the Code of Virginia, Sec. 15.2-2311.

(b) Duties and responsibilities of the Floodplain Administrator - the duties and responsibilities of the Floodplain Administrator shall include, but are not limited to:
FLOODS

(1) review applications for permits to determine whether proposed activities will be located in the Special Flood Hazard Area (SEHA),

(2) interpret floodplain boundaries and provide available base flood elevation and flood hazard information.

(3) review applications to determine whether proposed activities will be reasonably safe from flooding and require new construction and substantial improvements to meet the requirements of these regulations.

(4) review applications to determine whether all necessary permits have been obtained from the Federal, State or local agencies from which pitot or concurrent approval is required.

(5) use discretion to exempt obviously insignificant activities from the permit requirements.

(c) Permit Requirement - All uses, activities, and development occurring within any floodplain district shall be undertaken only upon the issuance of a floodplain zoning permit. Such use, activity, or development shall be undertaken only in compliance with the provisions of this Chapter 30, the Virginia Uniform Statewide Building Code, and all other applicable codes and ordinances, including any subdivision regulations, if applicable.

Prior to the issuance of any such permit, the zoning administrator shall require all applications to include compliance with all applicable state and federal laws and shall review all sites for the purpose of determining that they will be in compliance with the issued permit in his reasonable discretion, upon completion of such work.

(d) Site Plans and Permit Applications - All applications for development within any floodplain district and all building permits issued for the floodplain shall incorporate the following information:

(1) the elevation of the lowest floor (including basement).

(2) or structures to be flood-proofed (non-residential only), the elevation to which the structure will be flood-proofed and the supporting engineering certificate.

(3) the elevation of the one percent (1%) chance or 100 year flood.

(4) topographic information showing existing and proposed ground elevations.

Sec. 30-15. General standards.

In all special flood hazard areas the following provisions shall apply:

(a) New construction and substantial improvements shall be anchored to prevent flotation, collapse or lateral movement of the structure.
(b) Manufactured homes shall be anchored to prevent flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This standard shall be in addition to and consistent with applicable state requirements for resisting wind forces.

(c) New construction and substantial improvements shall be constructed with materials and utility equipment resistant to flood damage.

(d) New construction and substantial improvements shall be constructed by methods and practices that minimize flood damage.

(e) Electrical, heating, ventilation, plumbing, air conditioning equipment and other service facilities, including duct work, shall be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

(f) New and replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system.

(g) New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters.

(h) On-site waste disposal systems shall be located and constructed to avoid impairment to them or contamination from them during flooding.

(i) Any alteration, repair, reconstruction or improvements to a building that is in compliance with the provisions of this ordinance shall meet the requirements of “new construction” as contained in this ordinance.

(j) Any alteration, repair, reconstruction or improvements to a building that is not in compliance with the provisions of this ordinance, shall be undertaken only if said non-conformity is not furthered, extended, or replaced.

(k) Prior to any proposed alteration or relocation of any channels or of any watercourse, stream, etc. within the town a permit shall be obtained, if required from the U.S. Corps of Engineers, the Virginia Department of Environmental Quality, and the Virginia Marine Resources Commission (a joint permit application is available from any of these organizations). The flood carrying capacity within an altered or relocated portion of any watercourse shall be maintained.

Sec. 30-16. Specific standards.

In all special flood hazard areas the following provisions shall apply:

(a) Residential Construction - New construction or substantial improvement of any residential structure (including manufactured homes) shall have the lowest floor, including basement, elevated no lower than base flood elevation. New construction or substantial
FLOODS

improvement of any residential structure (including manufactured homes) after May 18, 2015 shall have the lowest floor, including basement, elevated no lower than base flood elevation plus two (2) feet of freeboard.

(Amended 5/18/2015)

(b) Non-Residential Construction - New construction or substantial improvement of any commercial, industrial, or non-residential building (or manufactured home) shall have the lowest floor, including basement, elevated to no lower than base flood elevation. New construction or substantial improvement of any commercial, industrial, or non-residential building (or manufactured home) after May 18, 2015, shall have the lowest floor, including basement, elevated to no lower than base flood elevation plus two (2) feet of freeboard. Non-residential construction may be flood-proofed in lieu of being elevated provided that all areas of the building components below the elevation corresponding to the BFE plus two (2) feet are water tight with walls substantially impermeable to the passage of water, and use structural components having the capability of resisting hydrostatic and hydrodynamic loads and the effect of buoyancy. A registered professional engineer or architect shall certify that the standards of this subsection are satisfied. Such certification, including the specific elevation (in relation to mean sea level) to which such structures are flood-proofed, shall be maintained by the zoning administrator.

(Amended 5/18/2015)

(c) Elevated Buildings - Enclosed areas, of new construction or substantially improved structures, which are below the lowest floor elevation shall:

(1) not be designed or used for human habitation, but shall only be used for parking of vehicles, building access, or limited storage of maintenance equipment used in connection with the premises. Access to the enclosed area shall be the minimum necessary to allow for parking of vehicles (garage door) or limited storage of maintenance equipment (standard exterior door), or entry to the living area (stairway or elevator). The interior portion of such enclosed area shall not be partitioned or finished into separate rooms, except to enclose storage areas;

(2) be constructed entirely of flood resistant materials below the regulatory flood protection elevation;

(3) in the Coastal High Hazard District, follow the standards for elevation outlined in Article IV, Section 30-19.

(4) in the Coastal A Zone, follow the standards outlined in Section 30-18(a).

(5) include, in Zones AE measures to automatically equalize hydrostatic flood forces on walls by allowing for the entry and exit of flood waters. To meet this requirement, the openings must either be certified by a professional engineer or architect or meet the following minimum design criteria:

(a) Provide a minimum of two openings on different sides of each enclosed area subject to flooding.
(b) The total net area of all openings must be at least one (1) square inch for each square foot of enclosed area subject to flooding.

(c) If a building has more than one enclosed area, each area must have openings to allow flood waters to automatically enter and exit.

(d) The bottom of all required openings shall be no higher than one (1) foot above the adjacent grade.

(e) Openings may be equipped with screens, louvers, or other opening coverings or devices, provided they permit the automatic flow of flood waters in both directions.

(f) Foundation enclosures made of flexible skirting are not considered enclosures for regulatory purposes, and, therefore, do not require openings. Masonry or wood underpinning, regardless of structural status, is considered an enclosure and requires openings as outlined above.

(d) Standards for Manufactured Homes and Recreational Vehicles

(1) All manufactured homes placed, or substantially improved, on individual lots or parcels, in expansions to existing manufactured home parks or subdivisions, in a new manufactured home park or subdivision or in substantially improved manufactured home parks or subdivisions, must meet all the requirements for new construction, including elevation and anchoring.

(2) All manufactured homes placed or substantially improved in an existing manufactured home park or subdivision must be elevated so that:

(a) the lowest floor of the manufactured home is elevated no lower than base flood elevation; or,

(b) the manufactured home chassis is supported by reinforced piers or other foundation elements of at least an equivalent strength, of no less than 36 inches in height above the grade, only in parks and subdivisions with no record of flood damage;

(c) the manufactured home must be securely anchored to the adequately anchored foundation system to resist flotation, collapse and lateral movement;

(d) in an existing manufactured home park or subdivision on which a manufactured home has incurred “substantial damage,” any manufactured home placed or substantially improved must meet the standards of Article IV, Section 30-16(d)(2)(a) and (c) above.

(3) All recreational vehicles placed on sites must either:
FLOODS

(a) be on the site for fewer than 180 consecutive days;

(b) be fully licensed and ready for highway use (a recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions); or,

(c) meet all the requirements for new construction, including anchoring and elevation requirements of Article IV, Section 30-16(d)(1) or (2)(a) and (c), above.

Sec. 30-17. Standards for subdivision proposals.

(a) All subdivision proposals shall be consistent with the need to minimize flood damage;

(b) All subdivision proposals shall have public utilities and facilities such as sewer, gas, electrical and water systems located and constructed to minimize flood damage;

(c) All subdivision proposals shall have adequate drainage provided to reduce exposure to flood hazards, and

(d) Base flood elevation data shall be provided for subdivision proposals and other proposed development proposals (including manufactured home parks and subdivisions) that exceed fifty lots or five acres, whichever is the lesser.

Sec. 30-18. Standards for the coastal ‘A’ zone.

The Coastal A Zone shall be those areas, as defined by the Virginia USBC, that are subject to wave heights between 1.5 and 3 feet, and identified on the FIRM by Limits of Moderate Wave Action (LiMWA). For these areas, the following provisions shall apply:

(a) Buildings and structures within this zone shall have the lowest floor elevated to or above the base flood elevation plus one foot of freeboard, and must comply with all other applicable provisions of this ordinance.

Sec. 30-19. Standards for the coastal high hazard district.

The VE or V Zones shall be those areas that are known as Coast High Hazard having been determined to be subject to wave heights in excess of 3 feet or subject to high-velocity wave action or wave-induced erosion. For these areas, the following provisions shall apply:

(a) All new construction and substantial improvements in Zones VE and V to be elevated on pilings or columns so that:

(1) the bottom of the lowest horizontal structural member of the lowest floor (excluding the pilings or columns) is elevated to or above the base flood level if the lowest
horizontal structural member is parallel to the direction of wave approach or elevated at least one foot above the base flood level if the lowest horizontal structural member is perpendicular to the direction of wave approach; and,

(2) the pile or column foundation and structure attached thereto is anchored to resist flotation, collapse, and lateral movement due to the effects of wind and water loads acting simultaneously on all building components. Wind and water loading values shall each have a one percent chance of being equaled or exceeded in any given year (one-percent annual chance).

(b) A registered professional engineer or architect shall develop or review the structural design, specifications and plans for the construction, and shall certify that the design and methods of construction to be used are in accordance with accepted standards of practice for meeting the provisions of Article IV, Section 30-19(a).

(c) Obtain the elevation (in relation to mean sea level) of the bottom of the lowest horizontal structural member of the lowest floor (excluding pilings and columns) of all new and substantially improved structures in Zones V and VE. The Floodplain Management Administrator shall maintain a record of all such information.

(d) All new construction shall be located landward of the reach of mean high tide.

(e) Provide that all new construction and substantial improvements have the space below the lowest floor either free of obstruction or constructed with non-supporting breakaway walls, open wood-lattice work, or insect screening intended to collapse under wind and water loads without causing collapse, displacement, or other structural damage to the elevated portion of the building or supporting foundation system. For the purpose of this section, a breakaway wall shall have a design safe loading resistance of not less than 10 and no more than 20 pounds per square foot. Use of breakaway walls which exceed a design safe loading resistance of 20 pounds per square foot (either by design or when so required by local codes) may be permitted only if a registered professional engineer or architect certifies that the designs proposed meet the following conditions:

(1) Breakaway wall collapse shall result from water load less than that which would occur during the base flood; and

(2) The elevated portion of the building and supporting foundation system shall not be subject to collapse, displacement, or other structural damage due to the effects of wind and water loads acting simultaneously on all building components (structural and nonstructural). Maximum wind and water loading values to be used in this determination shall each have a one percent chance of being equaled or exceeded in any give year.

(f) The enclosed space below the lowest floor shall be useable solely for parking of vehicles, building access, or storage. Such space shall not be partitioned into multiple rooms, temperature-controlled, or used for human habitation.
FLOODS

(g) Prohibit the use of fill for structural support of buildings. When fill is proposed in a coastal high hazard area, appropriate engineering analyses shall be conducted to evaluate the impacts of the fill prior to issuance of a development permit.

(h) Prohibit man-made alteration of sand dunes which would increase potential flood damage.

(i) All manufactured homes to be placed or substantially improved within Zones V and VE on the town’s Flood Insurance Rate Map on sites must meet the standards of Article IV, Section 30-19(a) through (h) and that manufactured homes placed or substantially improved on other sites in an existing manufactured home park or subdivision with Zones V and VE on the Flood Insurance Rate Map meet the requirements of Article IV, Section 30-16(d)(1) and (2), if they are located:

   (1) outside of a manufactured home park or subdivision,

   (2) in a new manufactured home park or subdivision,

   (3) in an expansion to an existing manufactured home park or subdivision, or

   (4) in an existing manufactured home park or subdivision in which a manufactured home has incurred “substantial damage” due to flooding.

(j) Recreational vehicles placed on sites within Zones V and VE on the community’s Flood Insurance Rate Map must either:

   (1) be on the site for fewer than 180 consecutive days,

   (2) be fully licensed and ready for highway use, on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices, and has no permanently attached additions; or,

   (3) meet the requirements of Article IV, Section 30-14 and Article IV, Section 30-19(a) through (h).

Sec. 30-20. Anchoring fuel tanks.

(a) The owner of any new, replaced, or existing oil, and propane tanks must be anchored fuel tanks against floatation, collapse and lateral movement under flood conditions by means of an approved anchorage system or shall be installed at or above base flood elevation and shall be set upon a firm foundation and supports to prevent floatation, collapse and lateral movement under flood conditions. It shall be unlawful to fill or refill any such tank that is not so anchored or elevated.

(Amended 04/04/11)

(b) All new, replaced, or existing oil tanks shall have their vent pipe extended at least three feet above the top most portion of the body of the tank. This provision shall also apply to substantial improvement buildings and buildings experiencing repetitive loss.
CHINCOTEAGUE CODE

(c) All new, replaced, or existing oil tanks must all be fitted with a fill tube screw-on tight-fit cap with gasket.

(d) The installation requirements for strapping and anchoring fuel tanks shall follow FEMA recommended guidelines.

(e) If ownership of a fuel tank is unknown or unclaimed, the property owner shall be responsible.

(Amended 04/04/11)

(f) This section shall be effective November 4, 2012 for new, existing or replaced fuel tanks.

(Amended 4/7/08, 09/16/10)

ARTICLE V. EXISTING STRUCTURES IN FLOODPLAIN AREAS

Sec. 30-21. Existing structures.

A structure or use of a structure or premises which lawfully existed before the enactment of these provisions, but which is not in conformity with these provisions, may be continued subject to the following conditions:

(a) Any modification, alteration, repair, reconstruction, or improvement of any kind to a structure and/or use located in any floodplain areas to an extend or amount of less than fifty (50) percent of its market value shall conform to the VA USBC and the appropriate provisions of this ordinance.

(b) The modification, alteration, repair, reconstruction, or improvement of any kind to a structure and/or use, regardless of its location in a floodplain area to an extent or amount of fifty (5) percent or more of its market value shall be undertaken only in full compliance with this ordinance and shall require the entire structure to conform to the VA USBC.

ARTICLE VI. VARIANCES

Sec. 30-22. Factors to be considered.

In passing upon applications for variances, the board of zoning appeals shall satisfy all relevant factors and procedures specified in other sections of the zoning ordinance and consider the following additional factors:

(a) The showing of good and sufficient cause.
FLOODS

(b) The danger to life and property due to increased flood heights or velocities caused by encroachments. No variance shall be granted for any proposed use, development, or activity within any Floodway District that will cause any increase in the one (1) percent chance in one hundred (100)-year flood elevation.

(c) The danger that materials may be swept on to other lands or downstream to the injury of others.

(d) The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination, and unsanitary conditions.

(e) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owners.

(f) The importance of the services provided by the proposed facility to the community.

(g) The requirements of the facility for a waterfront location.

(h) The availability of alternative locations not subject to flooding for the proposed use.

(i) The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.

(j) The relationship of the proposed use to the comprehensive plan and floodplain management program for the area.

(k) The safety of access by ordinary and emergency vehicles to the property in time of flood.

(l) The expected heights, velocity, duration, rate of rise, and sediment transport of the flood waters expected at the site.

(m) The repair or rehabilitation of historic structures upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and the variance is the minimum necessary to preserve the historic character and design of the structure.

(n) Such other factors which are relevant to the purposes of this ordinance.

All applicants must obtain documentation pertaining to the request for a variance from a Virginia certified engineer to evaluate the proposed project in relation to flood heights and velocities, and the adequacy of the plans for flood protection and other related matters prior to referring such to the board of zoning appeals.

Variances shall be issued only after the board of zoning appeals has determined that the granting of such will not result in
CHINCOTEAGUE CODE

(1) unacceptable or prohibited increases in flood heights,
(2) additional threats to public safety,
(3) extraordinary public expense; and will not
(4) create nuisances,
(5) cause fraud or victimization of the public, or
(6) conflict with local laws or ordinances.

Variances shall be issued only after the board of zoning appeals has determined that the variance will be the minimum required to provide relief from exceptional hardship to the applicant.

The board of zoning appeals shall notify the applicant for a variance, in writing, that the issuance of a variance to construct a structure below the one hundred (100)-year flood elevation (a) increases the risks to life and property and (b) will result in increased premium rates for flood insurance.

A record shall be maintained of the above notification as well as all variance actions, including justification for the issuance of the variances. Any variances that are issued shall be noted in the annual or biennial report submitted to the Federal Insurance Administrator.

ARTICLE VII. ENACTMENT

This ordinance shall become effective upon passage on April 7, 2014. Amendments approved on April 6, 2015 with an effective date of May 18, 2015.

Cross reference—Administration, ch. 2.

Sec. 54-93. Eligibility.

Under this subdivision, the exemption shall be granted to persons subject to the following:

1. The title to the property for which exemption is claimed is held or partially held, on December 31, immediately preceding the taxable year by the person claiming exemption. 2. The head of the household occupying the dwelling and owning title or partial title thereto is 65 years or older on December 31 of the year immediately preceding the taxable year, or such person is permanently and totally disabled as defined in this subdivision and was so on December 31 of the year immediately preceding the...
taxable year. Such dwelling must be occupied as the sole dwelling of the person claiming exemption.

(3) The total combined income of the owners during the year immediately preceding the taxable year shall be determined by the town manager to be an amount not to exceed $17,500.00. Total combined income shall include from all sources of the owners, spouses, and of the owner's relatives living in the dwelling for which exemption is claimed; provided, however, that the first $6,500.00 of annual income of the owner's relatives living in the dwelling other than the spouse's shall be excluded in computing total combined income.

(4) The net combined financial worth as of December 31 of the year immediately preceding the taxable year of the owners and of the spouse of any owner shall be determined by the town manager to be an amount not to exceed $50,000.00. Net combined financial worth shall include the value of all assets, including equitable interests of the owners and the spouse of any owner, excluding the fair market value of the dwelling and the land, not exceeding one acre, upon which it is situated and for which exemption is claimed.

(5) The person claiming exemption files annually with the commissioner of the revenue an affidavit as required and shall present to the town manager certification of such affidavit as provided in this subdivision.

(6) In making the determinations provided for in this section, the town manager may rely on such determinations as may be made by the commissioner of the revenue for exemptions from county taxes.

(Code 1977, § 6-54; Ord. of 3-15-1993 (3), (4)) (Amended 07/07/03)

Sec. 54-94. Application.

(a) Annually after January 1 and before April 1 of the taxable year, the person claiming an exemption pursuant to this subdivision shall file with the commissioner of the revenue, on forms supplied by the commissioner of the revenue, an affidavit setting forth the location and assessed value of the property, the names of all the related persons occupying such real estate, the total combined income of the persons as specified in section 54-93(3), and the net combined financial worth of the persons as specified in section 54-93(4). If such person is under 65 years of age, such form shall have attached thereto a certification by the Social Security Administration, the Department of Veterans' Affairs or the railroad retirement board or, if such person is not eligible for certification by any of these agencies, a sworn affidavit by two medical doctors who are either licensed to practice medicine in the commonwealth or are military officers on active duty who practice medicine with the United States armed forces, to the effect that the person is permanently and totally disabled, as defined in Code of Virginia, § 58.1-3217; however, a certification pursuant to 42 USC 423(d) by the Social Security Administration so long as the person remains eligible for such social security benefits shall be deemed to satisfy such definition in Code of Virginia, § 58.1-3217. The affidavit of at least one of the doctors shall be based upon a physical examination of the person by such doctor. The affidavit of one of the doctors may be based upon medical information contained in the records of the civil service commission which is relevant to the standards for determining permanent and total disability as defined in Code
TAXATION

of Virginia, § 58.1-3217. The commissioner of the revenue shall also make such further inquiry of persons seeking an exemption requiring answers under oath, as may reasonably be necessary to determine qualifications therefor, including qualifications as permanently and totally disabled. The commissioner of the revenue is authorized to require the production of certified tax returns to establish the income or financial worth of any applicant for the exemption.

(b) If, after audit and investigation, the commissioner of the revenue determines that the person is qualified for exemption, he may so certify by letter to the applicant applying for exemption, and the applicant shall present a copy of such certifying letter to the town manager. The town manager may deduct the amount of the exemption from the claimant's real estate tax liability for the taxable year in question or may conduct such further investigation as he may deem necessary as stated in section 54-92.

(Code 1977, § 6-55) (Amended 07/07/03)

Sec. 54-95. Schedule.

Where the person claiming exemption pursuant to this subdivision conforms to the standards and does not exceed the limitation contained in this subdivision, the real estate tax exemption shall be as shown on the following schedule:

</tr>
<tr>
<td>$0.00 to $12,500.00</td>

</tbody>
</table>

Sec. 54-96. Additional considerations.

(a) The fact that persons who are otherwise qualified for tax exemption pursuant to this subdivision are residing in hospitals, nursing homes, convalescent homes or other facilities for physical or mental care for extended periods of time shall not be construed to mean that the real estate for which exemption is sought does not continue to be the sole dwelling of such persons during such extended periods of other residence so long as such real estate is not used by or leased to others for consideration.

(b) Changes in respect to income, financial worth, ownership of property or other factors occurring during the taxable year for which the affidavit is filed and having the effect of exceeding or violating the limitations and conditions provided in this subdivision shall nullify any exemption for the remainder of the current taxable year and the taxable year immediately following.

(c) For purposes of this subdivision, a mobile home shall be real estate if the owner's intention that it be permanently affixed is shown by the facts that it is anchored, skirted and connected to permanently installed water and sewer lines or facilities. It can be located on land belonging to persons described in section 54-93 or on rented land.

(Code 1977, § 6-57)

Sec. 54-97. Penalty for violation.

Any person falsely claiming an exemption or knowingly and intentionally furnishing
false information under this subdivision or otherwise violating this subdivision shall be guilty of a misdemeanor and, upon conviction, may be punished by a fine not exceeding $1000.00 or by confinement in jail not exceeding 12 months or both. (Code 1977, § 6-58) (Amended 07/07/03)

Subdivision III. Partial Exemption for Certain Rehabilitated, Renovated, or Replaced Structures or Improvements on Real Estate

Sec. 54-110. Definitions.

The following words, terms and phrases, when used in this subdivision, shall have the meanings ascribed to them in this subdivision, except where the context clearly indicated a different meaning:

Amount of Exemption means the amount equal to the increase in assessed value resulting from the rehabilitation, renovation, or replacement of qualified real estate as described hereunder as determined by the town assessment officer on January 1 of the year following the completion of the rehabilitation, renovation, or replacement of any structure or improvement on such real estate. An increase in the assessment occurring after the first year subsequent to such rehabilitation, renovation, or replacement, shall not result in an increase in such partial exemption or otherwise affect same.

Partial Exemption means exemption from a portion of the town real estate tax assessment and resulting tax that would otherwise be due by reason of said real estate being otherwise fully assessed and billed for real estate taxation purposes.

Qualifying Real Estate means:

1. Any real estate used for residential purposes located within a qualifying zone or district on which any structure or other improvements, at least fifteen (15) years of age, has undergone substantial rehabilitation, renovation or replacement, and which results in an increase in the assessed value of said real estate as a result of such rehabilitation, renovation, or replacement, such replaced structure or improvement shall not exceed the total square footage of the replaced structure or improvement by more than thirty percent (30%) in order to qualify hereunder. Expressly provided that when rehabilitation is achieved through demolition and replacement of an existing structure, the exemption shall not apply when the structure demolished is a registered Virginia landmark or is determined by the Department of Historic Resources to contribute to the significance of a registered historic district.

2. Any real estate used for commercial or industrial purposes located within a Qualifying Zone or District on which any structure or other improvements, at least twenty (20) years of age, has undergone substantial rehabilitation, renovation or replacement, and which results in an increase in the assessed value of said real
TAXATION

estate as a result of such rehabilitation renovation or replacement of at least thirty percent (30%). When such rehabilitation is by replacement, such replaced structure or improvements shall not exceed the total square footage of the replaced structure or improvement by more than one hundred percent (100%) in order to qualify hereunder Expressly provided that when rehabilitation, renovation or replacement is achieved through demolition and replacement of an existing structure, the exemption shall not apply when the structure demolished is a registered Virginia landmark or is determined by the Department of Historic Resources to contribute to the significance of a registered historic district.

Qualifying Zone or District means real estate located within the boundaries of the CDBG Downtown Revitalization Project as delineated in the Downtown Revitalization Plan dated March 2001, on file in the town offices.

Taxable Year means the calendar year from January 1 through December 31, inclusive, for which exemption is claimed.

Sec. 54-111. Partial exemption declared.

There is hereby declared a partial exemption for town real estate taxation purposes for qualifying real estate as delineated herein, in accordance with the schedule provided for under §54-112, effective for taxable years beginning 2002 and completed pursuant to a building permit issued subsequent to the effective date hereof.

Sec. 54-112. Schedule of partial exemption.

Any such real estate taxpayer rehabilitating, renovating, or replacing any structure or other improvements on qualified real estate within any qualifying zone or district as herein above provided shall be entitled to apply for and claim the amount of partial exemption in accordance with the following schedule:

1. One hundred percent (100%) of the increase in assessed value for the first taxable year following the completion of such rehabilitation, renovation, or replacement.

2. Eighty percent (80%) of the increase in assessed value for the second taxable year following the completion of such rehabilitation, renovation, or replacement.

3. Sixty percent (60%) of the increase in assessed value for the third taxable year following the completion of such rehabilitation, renovation, or replacement.

4. Forty percent (40%) of the increase in assessed value for the fourth taxable year following the completion of such rehabilitation, renovation, or replacement.

5. Twenty percent (20%) of the increase in assessed value for the fifth taxable year following the completion of such rehabilitation, renovation, or replacement.

The increase in assessed value as a result of the rehabilitation, renovation or replacement of any such structure or improvement shall not cause the assessed value of such real estate
CHINCOTEAGUE CODE

to be reduced on the real estate tax records of the town.

Sec. 54-113. Other requirements.

No such real estate taxpayer shall be entitled to apply for and claim such partial exemption unless such real estate taxpayer materially complies with the following additional requirements:

1. Obtain a building permit from the town prior to the initiation of the permitted work.

2. File the application for partial exemption on a form prescribed by the town manager prior to January 1 of the first taxable year subsequent to the completion of the work, and for which the partial exemption is to be claimed.

3. Submit an application fee in the amount of fifty dollars ($50.00) with said application. Any application for which the processing fee of fifty dollars ($50.00) is not paid prior to January 1 of the first taxable year subsequent to such rehabilitation, renovation or replacement, shall be deemed to not be timely filed.

Sec. 54-114. Administration.

The partial exemption granted under this subdivision shall be administered by the town manager who is deemed the assessing officer for purposes of this subdivision. The town manager is authorized and empowered to prescribe, adopt and enforce rules and regulations, including the requirement of answers under oath, as may be reasonably necessary to determine qualifications for exemption. The town manager may require production of assessments or other documents to establish the increase in assessed value due to the approved rehabilitation. No partial exemption shall be approved until such time as the assessing officer has verified that the rehabilitation, renovation or replacement indicated on the application has been completed. The billing to the taxpayer shall contain sufficient information to show the partial exemption and the computation of the adjusted tax bill.

Sec. 54-115. Penalty.

Failure to remit the required tax payment to the Town for such qualified real estate by the due date of the applicable taxable year shall void partial exemption for such taxable year and all tax years remaining under the Schedule for such claimed rehabilitation, renovation, or replacement.

Sec. 54-116. Conflict with state law.

In the event of any conflict between the provisions hereof and §58.1-3220 and §58.1-3221 relative to the interpretation and application hereof, state law shall supersede and govern.

Sec. 54-153. Procedures.

(a) Definitions. All words and terms used in this section shall, for purposes of this section, have the same meaning as set forth in Code of Virginia, § 58.1-3516, except when the context clearly indicates a different meaning.

(b) Proration of tax. Pursuant to Code of Virginia, § 58.1-3516, there shall be a personal property tax at a rate established each year by the town council on automobiles which have a situs within the town on January 1 of each year and additionally on automobiles (referred to as "prorated property"), which acquires a situs within the town on or after January 2 of each year. When prorated property acquires a situs within the town on or after January 2, the personal property tax for the year shall be assessed to the owner prorated on a monthly basis for the portion of the tax year during which the prorated property has a situs within the town. For purposes of proration, a period of more than one-half of a month shall be counted as a full month, and a period of less than one-half of a month shall not be counted. The owner of any property constituting prorated property acquiring a situs within the town or to which prorated property is transferred shall file a declaration of property ownership with the county commissioner of the revenue within 30 days of the date on which the property acquired a situs within the town or has its title transferred to the new owner.

†Cross reference—Traffic and vehicles, ch. 58.
(c) **Transfer of property.** Any taxpayer shall be relieved from personal property tax and amount of any tax paid on any such defined tangible personal property, which shall be prorated on a monthly basis as provided in subsection (b) of this section, when such tangible personal property loses its situs within the town after the tax day or after the day on which it acquires situs as provided in this section. However, no such relief shall be had nor refund shall be made if the defined tangible personal property acquires a situs within the commonwealth in a nonprorating town. When any person sells or otherwise transfers title to any such defined tangible personal property with a situs in the town after the tax day or situs day, the tax shall be relieved, prorated on a monthly basis, and the appropriate amount of tax paid, if any, shall be refunded or credited, at the option of the taxpayer, against the tax due on any such personal property owned by the taxpayer during the same tax year and taxed, provided that the taxpayer makes application to the town and provided that such application is made within three years of the last day of the tax year in which the property lost its situs or was transferred. Any refunds by the town shall be made within 30 days of the date such tax is relieved. No refund of less than $5.00 shall be issued to a taxpayer unless specifically requested by the taxpayer.

(d) **Relocation of taxpayer from nonprorating locality to town during tax year:** Any person who moves from a nonprorating locality in a single tax year shall be entitled to a property tax credit in the town as to any such item of defined tangible personal property if the person was liable for personal property taxes on a motor vehicle and has paid those taxes to the nonprorating jurisdiction. Further, as to any replacement vehicle acquired by any taxpayer who has moved, the taxpayer shall be entitled to a credit against the tax due on any such replacement vehicle to the town in an amount equal to the tax paid to the nonprorating locality on the original motor vehicle replaced for the period of time commencing with the disposition of the original vehicle and continuing through the close of tax year in which the taxpayer incurred tax liability to the nonprorating locality for the original vehicle.

(e) **Exemption of certain taxed personal property.** No tax shall be imposed on and any such defined tangible personal property shall be exempt for any tax year or portion thereof during which the property was legally assessed by another jurisdiction in the commonwealth and the tax was paid.

(f) **Billing of prorated property taxes.** Notwithstanding any other day provided by law for the billing and payment of local personal property tax, the town may bill all personal property taxes on prorated defined tangible personal property assessed for a portion of the tax year on or after December 15 of any such year, which tax shall be due and payable in not less than 30 days after the date of the tax bill.

(g) **Conflicting provisions.** If any conflict occurs between any subsection of this section and Code of Virginia, § 58.1-3516, the provisions of Code of Virginia, § 58.1-3516 shall be deemed to supersede such inconsistent provision.

Such easements and rights-of-way as described in this subsection must be adjacent to a water main and be contiguous to the involved parcel. The term "older," as used in this section, shall refer to property or divisions of property legally recorded prior to December 6, 1971.

(b) The use of nonspecific older easements and rights-of-way and perpetual easements shall only be permitted when there is no other practicable avenue available to provide water to the requiring parcel.

(c) The town is responsible for the service connection up to and inclusive of a meter serving a particular property and is not responsible for any piping or connection on the owner's property beyond the meter.

(d) Every property owner served by the water system through a service connection is required to install a valve to control the flow of water from the meter to his property. Meter valves, which are the property of the town, are not intended for such use.

(Code 1977, § 15-4-2; Ord. of 4-5-1999, § 15-4-2)

Sec. 62-88. Water main extensions.

(a) The owner and/or developer of a parcel requiring a water main extension by virtue of the requirements of subsection 62-87(a) shall request such extension from the town in writing. With the written request, the owner and/or developer shall also submit recorded drawings, plats or surveys depicting the parcel to be served by the requested extension. Such drawings shall include the delineation of the utility easements to be used by the town for the placement and maintenance of the requested water main. Delineated easements on recorded drawings shall include the finished grade elevation of the easement area. In the absence of utility easements being included in recorded drawings, easements and certification of elevation may be conveyed through separate perpetual deed of easement or agreement to the town. Utility easements shall be a minimum of ten feet in width. Pavement for roadways shall not be installed over utility easements.

(b) Upon review of the request and within 30 days of the request, the town shall design and size the appropriate extension to the water system and calculate the cost of installation of the extension. Costs shall include an administrative fee percentage, set by the town council. The requester will be notified of the cost of the installation and allowed 30 calendar days to initiate the installation by paying the provided cost. If payment is not made within the allotted time, the requester shall submit subsequent requests as necessary to allow the town to calculate the new cost. The town shall have the right to recover costs incurred from repeated design and calculation in subsequent cost calculations.

(Amended 4/19/07)

(c) Once payment for an extension is made, the town shall schedule and implement the work within 60 calendar days.

(d) Water main extensions shall be designed and sized on a case-by-case basis, but in no
case will pipe with inside diameter sizes of less than six inches be used for mains, nor will required fire hydrants be deleted from a potential extension.

(e) Property owners assume all responsibility for delineation of property to be served by water mains and the delineation of utility easements to be used for the installation of water mains. All property markers relevant to water main installation shall be in place in the field and located prior to the town's installation work.

(f) All obstructions to the path of the water main and service connections shall be cleared by the property owner prior to installation work.

Sec. 62-89. Reimbursement of extension costs.

(a) When a water main is extended across the frontage of unimproved parcels for the purpose of providing service to another parcel, the owner of the parcel being served shall be entitled to recover some of the costs of the water main extension. In no case shall this entitle owners or developers of subdivisions to reimbursements.

(b) The original cost of the water main extension shall be divided equally by linear foot to apply to the frontage of property across which the main is being extended. When lots adjoin the water main on two sides, the apportioned cost will further be factored as half of the linear-foot cost. When lots along the main are improved with structures requiring service, the town shall collect the apportioned amount of the original cost of the installation with connection fees from the newly requiring parcels. The parcel owner originally initiating and paying for the extension shall then be reimbursed by the town.

DIVISION 4. WATER USAGE PLAN

The town's water supply and distribution system shall be operated by a qualified operator and division supervisor under the purview of the director of public works and town manager. The supervisor/operator shall report routine operations and daily water usage to the director of public works and town manager. The town manager shall further advise the public works committee of the town council and the mayor.

Sec. 62-117. Water shortages.

For the purposes of this division, categories of water shortages shall be as follows:

1. Category I: major water leaks or mechanical failures. If a major leak or mechanical failure occurs, repairs shall be immediately initiated by the department, and the town manager shall immediately be notified of such. In conjunction with the town manager and public works committee chair, the waterworks supervisor and the director of public works shall determine if a water shortage will occur as a result of the leak or mechanical failure.
(2) **Category II: serious water shortage.** If, through department review, a serious water shortage will occur, the town manager shall be immediately notified. After consultation with the mayor and public works committee chair, a public announcement shall be made to curtail car washing, lawn watering, garden watering, and usage by swimming pools and other recreational facilities, all on a voluntary basis.

(3) **Category III: critical water shortage.** In critical water shortages the public announcement shall curtail the water usage as provided in subsection (2) of this section and additionally restrict the use by motels, hotels, tourist homes, campgrounds, trailer parks and all commercial establishments. Such establishments shall be required to notify their customers and restrict water usage for bathing and other purposes to a bare minimum. Restaurants and food service establishments will provide water to customers only when requested. All curtailments during the critical water shortage will be mandatory. During critical water shortages a moratorium shall be placed on all new water service connections.

(Code 1977, § 15-5-2; Ord. of 4-5-1999, § 15-5-2)

**Sec. 62-118. Public announcements.**

All announcements of water shortage shall be made through local radio stations or through the town's EOC established procedures. Announcements shall establish restrictions and assign an effective date for restrictions. Restrictions shall not be removed until so announced by radio.

(Code 1977, § 15-5-3; Ord. of 4-5-1999, § 15-5-3)

**Sec. 62-119. Enforcement.**

The town police and/or special police shall issue tickets to violators of subsection 62-117(3). Upon conviction, a violator shall guilty of a class 4 misdemeanor, and each incident shall be considered a separate offense.

(Code 1977, § 15-5-4; Ord. of 4-5-1999, § 15-5-4)

DIVISION 5. WATER CONSERVATION

**Sec. 62-130. Definitions.**

The following terms, when used in this section, shall have the meanings ascribed herein:

*Impervious surface* means any artificially created surface which cannot be penetrated by water or which causes water to run off the surface, including streets, driveways, sidewalks and rooftops.

*Person* means any individual, partnership, firm, corporation, limited liability company, or other legal entity in whose name water is provided and billed by the town.
UTILITIES

Repeated or flagrant wasting of water means and includes those situations where persons who have received notice that they are wasting water continue to do so in the same manner. It does not mean those persons who waste water on solitary or isolated occasions.

Town water means all water that passes through the town’s water distribution system. This term does not include town water that is sold by the town to other governmental entities.

Water waste means any of the following:

(1) Using town water so that it falls directly onto impervious surfaces to the extent that running water leaves the property and enters gutters, storm drains, ditches and other conveyances; or

(2) Using town water to the extent that it is allowed to accumulate on the surface of the ground and leave the property and enter gutters, storm drains, ditches and other conveyances.

(3) Knowingly allowing town water to escape through leaks, breaks, or malfunctions within the water user’s plumbing or distribution system for any period of time beyond which such a leak or break should reasonably have been repaired or corrected.

(4) Willfully or negligently wasting water in any other manner.

(a) The governing body affirmatively finds that a water supply emergency is reasonably likely to occur within the town given the limited supply of public water available to the town and the high demand for such water especially during certain periods of the year if water conservation measures are not taken or imposed as provided herein.

(b) The public works director or designee shall identify persons who waste water.

(c) Whenever the director finds that any person wastes water, the director shall give such person oral or written notice of that fact.

(d) Whenever the director finds that any person repeatedly or flagrantly wastes water, the director shall serve upon such person a written notice (“notice of water waste” or “notice”). Such notice shall identify the person and the location at which water is being wasted, shall identify the manner in which the water is being wasted, and shall specify a time within which the wasting of water shall cease. The notice shall also warn that more severe measures (such as imposition of civil penalties or restriction or termination of water service) may be assessed or brought against the person unless the wasting of water ceases within the time provided. The time given to cease wasting water may range from a requirement for immediate compliance to 30 days, depending upon the facts and circumstances of each case.

(e) Any person who continues to waste water after the period of time specified in the notice for ceasing such activity shall be issued a citation and shall be subject to the civil penalty and enforcement procedures specified in Sec. 62-133 below. The civil penalty shall be paid within 30 days of receipt of the citation.
(f) This ordinance is adopted pursuant to the provisions of §15.2-923 and §15.2-924 of the Code of Virginia of 1950, as amended.

Sec. 62-132, Penalties.

(a) Civil penalties. Violations of this section shall subject the offender to a civil penalty as set forth in the town budget fee schedule, to be recovered by the town in a civil action in the nature of debt if the offender does not pay the penalty within the prescribed period of time after he or she has been cited. A violation shall be deemed continuing if the same wasting of water takes place on one or more days at the same location described in the notice and citation.

(b) Other enforcement action. Additionally, the director may restrict or terminate water service in accordance with law.

Sec. 62-133. Recycling.

(a) Carwashes. All new carwash installations shall be equipped with an approved water recycling system.

(b) Continuous flow equipment. All new construction, or repair/replacement, of continuous flow devices requiring a continuous water flow of five gallons per minute or more, not elsewhere covered by this section, shall be equipped with an approved water recycling system.

Backflow means the flow of water, liquids, mixtures, gases or other substances into the distribution piping of a potable supply of water from any source.

Connection means the terminal end or a service line from the waterworks. If a meter is installed at the end of the service connection, the connection means the downstream end of the meter.

Consumer: The owner or person in control of any premises supplied by or any manner connected to the waterworks.

Consumer's water system: any water system located on the consumer's premises, supplied

by or in any manner connected to a waterworks.

Cross connection: any unprotected connection between any part of a water system used or intended to supply water for drinking purposes and any source or system containing water or substances that are not or cannot be approved as safe, wholesome and potable for human consumption.

Water purveyor: An individual, group of individuals, partnership, firm, association, institution, corporation, municipal corporation, county, or authority which supplies water to any person within this state from or by means of any waterworks.

Waterworks means a system that serves piped water for drinking or domestic use to (i) the public, (ii) at least 15 connections or (iii) an average of 25 individuals for at least 60 days out of the year. The term "waterworks" includes all structures, equipment and appurtenances used in the storage, collection, purification, treatment and distribution of pure water except the piping and fixtures inside the building where such water is delivered, as set forth in Code of Virginia, § 32.1-167.

Sec. 62-147. Scope.

(b) Also made part of this division by reference is the Manual of Cross Connection Policies, as approved by the commonwealth department of health, on May 13, 1987, and by the town council on May 4, 1987. Such manual authorizes and establishes rules and regulations for the control of cross connections.

(c) This division is a supplement to any applicable plumbing codes.

(Code 1977, § 15-6-1; Ord. of 4-5-1999, § 15-6-1)

Sec. 62-148. Program description.

(a) The water purveyor or its representative shall have the right to enter, at any reasonable time, properties served by a connection to any waterworks operated by the town for the purpose of inspecting the consumer's water system for cross connections. Upon request, the owner or occupant or property served shall furnish to the inspection agency pertinent information regarding the piping system on such property. The refusal of such information or refusal of access when requested shall be deemed evidence of the presence of cross connections.

(b) After inspection, the water purveyor shall have the right to require that a consumer's water system be modified through installation of backflow prevention devices or other means to eliminate cited cross connections.

(c) The water purveyor may deny or discontinue the water service to a customer for
failure to comply with any requirements of the cross connection control program. Water service to such premises shall not be restored until the deficiencies have been corrected or eliminated in accordance with the requirements of the program.
