4. Agenda Adoption
5. Discussion and Information – Inlet View Sewage Disposal Proposal
6. Public Comments
7. Consider Request from Inlet View Property Developers
8. Mayor & Council Announcements or Comments
9. Adjournment

Workshop Summary:

In the September 2, 2019, Council meeting, the Bluewater Development Team updated the Town Council on plans to improve the Inlet View Property. In order to make improvements, Bluewater will need to use existing outfall permits to dispose of sewage. Their plan is to install sewage force mains from Inlet View to the existing Sunset Bay system and to use a combination of outfalls there and at the Landmark property. Specifically, they would like for the Town to issue a land use permit to place sewage utilities in the right of way from Inlet View to Sunset Bay and to additionally support the expansion of the Sunset Bay Utilities Service district area.

The agenda is arranged to allow members of Council to address the Bluewater Team to pose questions and gather information, followed by an opportunity for the public to make comments on the overall proposal. Finally, Council will be asked to consider the request for the land use permit and support of the application to the State Corporation Commission.
